New Industry is Outlook for Mo River Lands

Lands Would Create New Field for the Farmers

This section of the west where the Missouri river bluffs offer the greatpossible field for expansion of the grape industry, is attracting attention in many parts of the country as a future place for the establishment of branches of the manufacturing of products of the grape.

It has long been urged by many of our people that the hills and bluffs along the Nebraska side of the Miscouri river would make wonderful Bring Men Here souri river would make wonderful vineyards and in fact the farmers who have established small vineyards who have established small vineyards have received a splendid crop from them but the fact that the market for this product was limited has discouraged a great many from trying to increase their output of the
