

# Nehawka

Elmer Philpot and son were over to Nebraska City on last Monday afternoon where they were called to look after some business matters for a short time.

Mr. and Mrs. Henry Thiele were over to Plattsmouth on last Monday where they were looking after some business matters as well as visiting for a time with some friends.

Mrs. Mary Kettlehut who has been at Omaha where at a hospital she is receiving treatment. She has shown so much progress that she was able to return to her home late last week.

Miss Bessie Murdoch, daughter of Mr. and Mrs. A. D. Murdoch is reported as being kept to her home with an attack of dyptheria and her many friends are hoping she may soon be well again.

Grover Hoback was looking after some business matters in Murray and vicinity for a time on last Monday driving, and finding the roads in the north and south end of the town it will take some very rough going to stop Grover.

Orville Philpot who was for a time at an hospital at Omaha where he underwent an operation also was being treated for his health was able to return to his home late last week and is now making good progress since arriving home.

Charles W. Burton who has been so he could not get about with a lame leg for the past several weeks is at this time making some good improvement and hopes soon to be in his former good health.

Fred Beverage from northwest of Murray was a business visitor in Nehawka on last Monday morning, being able to make the distance here as the north and south end of the town better than those running east and west. The roads being blocked to his town Murray.

Mrs. Elmer Philpot with the receiving of a stroke of paralysis by Mr. Hans Christensen of Union, was called to care for patients on last Sunday. Mrs. Philpot who is an accomplished nurse immediately went and rendered all assistance and care possible, but the patient passed away the same evening at 6:45.

W. O. Troop and family were over to Plattsmouth on Saturday where they were attending the spelling contest which was held there Saturday. Their daughter, Lois Troop, 12, was one of the contestants while Margaret Young of near Avoca 13, was also a contestant.

Miss Margaret Young, who is an accomplished nurse immediately went and rendered all assistance and care possible, but the patient passed away the same evening at 6:45. continuance, and to protect themselves they are forming a Cash or No Sale organization which means that you must pay for the goods when you get them or go without. Many things have been devised to protect against those who seek not to pay their bills. Some have worked well and some ill. Now let's see after given a good fair trial what this scheme will do.

**Will Return to Hospital.**  
Roy Lancaster who was at the University hospital for some time and who was allowed to return to his home here last week has been staying here for nearly a week but is compelled to return to the hospital on Thursday of this week where he is expecting to undergo an operation for an affected kidney. He is hoping and his friends all are wishing that he may soon be able to return home entirely well and in good health that he has had to combat.

**Cartelene Rood Home.**  
Little Cartelene Rood who has been in the hospital at Lincoln where he was given treatment and where she was cared for as a nurse by her grandmother, Mrs. Nels Anderson of Nehawka, is reported as being much improved, so much so that the little one was taken to the home of her parents, Mr. and Mrs. Guy Rood of Burr, and where she is now making good progress toward recovery. Her grandmother is still at her bedside caring for the little one. The many friends of the little one and the family are hoping it will not be long until she shall be entirely well again.

**Longfellow's Storm.**  
Yes, the real snowbound was with the people of Cass county and it was with difficulty that the east and west roads were made passable. John Christweiser as county patrolman, was out and with the assistance of his father, R. M. Christweiser with the heavy machine cleaning the roads in order that all could get about.

**Enjoy Sleighing Party.**  
A party composed of the Nehawka high school students enjoyed on last Friday evening a very pretty sleighing party with real sleds, bobs at that, in which to ride. The older people remember the days when they would all get into a wagon well filled with hay and with plenty of robes to protect them from the cold enjoy a sleigh ride. Frank Dill was down with a team and a number of others which afforded abundant transportation, and gave the young folks a good time.

**Home from Hospital.**  
Miss Lola Nelson, who was so severely burned with acid, some weeks since and who has been at the hospital for treatment was able to return from the institution and return to her studies at school. The many friends of this excellent young Miss are pleased that she was able to be home again and are hoping that there will be no permanent injury resulting.

**Mrs. Palmeter Still Poorly.**  
Mrs. W. E. Palmeter of west of South Bend, who has been poorly for many months still remains quite weak and is being given excellent treatment by the husband and nurse, as well as the very best medical services. Mr. and Mrs. Palmeter were expected to see the mother, intending to go again on Sunday but the snow blocked the roads so as to make them almost impassable.

**Attended State Meeting.**  
Mr. J. J. Meier who is an officer of the local Congregational church was a delegate during this week to a state meeting of the church which was held in Lincoln. Many things touching the business management of the churches in the state were looked after at this meeting. The church here selected a good man for the position and the congregation here was well represented.

**Homeward Bound.**  
Word was received that Carl Day and the family who have been spending the winter in Florida, where the climate is even milder than the very fine winter was here, were on their way home and were expected to arrive this week. They are to have a little taste of winter weather notwithstanding they were spending the season in the southland. Had they arrived late last week they would have experienced a real old-fashioned winter. But Nebraska has had a fine winter as well as the south.

**New Cream Station Here.**  
The Fairmont Creamery has established a station in Weeping Water the next door west of the Ralph Keckler filling and service station. Mr. Emory DeWulf has been placed in charge of the newly installed station. Mr. DeWulf has a large acquaintance in and about Weeping Water and should share with others.

**DITCHING AND CLEARING**  
We blow stumps and rocks and clear land. Call us, phone 94. We carry full line of explosives. W. J. PARKERIDGE, Weeping Water, Nebraska.

**THE FUNERAL HOME**  
Modern conditions and standards of living have called into being an entirely new kind of institution for meeting a universal human need—The Funeral Home.

**FOR SALE**  
Alfalfa seed, grimm and scarified, also red clover seed and seed barley, reclaimed and sacked. J. W. PHILPOT, m12-4tw.

**Porter Funeral Home**

## WEeping WATER

Funeral Director W. L. Hobson was called to Lincoln on last Tuesday to look after some business matters, making the trip via the train. J. L. Austin living a few miles from Weeping Water was a visitor in Union on last Tuesday where he was looking after some business for a short time.

L. R. Lane was looking after some business matters in Murray for a time late last week. Mr. Lane is selling lubrication oils to the farmers and other users, and is finding good sales for the product of his company.

Mr. Chris Rasmussen was quite ill last week with a severe attack of pleurisy which kept him from the business for a number of days, but the store was look after by the son, Mr. Rasmussen is reported as being much better at this time.

Bert Jamison who received word of the passing of John Ferguson, a short time since at Seward, has received another commiseration. The many that the man had not died but was paralyzed from the injuries he received when he fell over the bank while attempting to get on a passing auto.

**Home from Hospital.**  
Ralph Binger who was at the Bryan Memorial hospital at Lincoln for over two weeks and where he underwent an operation for appendicitis, has been making good progress since the passing of the ordeal, and was so that he returned home on Tuesday evening on the train. His sister, Miss Leola was with him for the past few days. On last Tuesday Harold Meyers was over to Lincoln and brought the baggage of Mr. Binger home thus relieving them from looking after it and allowing them to come home on the train. The many friends of Ralph are pleased that he has made such good progress and hope that he may be entirely well soon.

**Gets Finger Mashed.**  
While assisting in unloading a load of lumber which was being delivered to a farm south of Weeping Water, Ralph Binger got one of his fingers caught between the end of a heavy plank and a wagon wheel with the result that a number of stitches had to be taken to close the wound. The finger while very painful is making good progress towards recovery.

**Home from Hospital.**  
Miss Lola Nelson, who was so severely burned with acid, some weeks since and who has been at the hospital for treatment was able to return from the institution and return to her studies at school. The many friends of this excellent young Miss are pleased that she was able to be home again and are hoping that there will be no permanent injury resulting.

## Transfer of Land to States Urged in Inquiry Report

National Ranges Urged Where Transfer Not Made—Garfield Head of Committee

Washington, D. C., March 8.—The Garfield committee on the conservation and administration of public domain today transmitted a report to President Hoover, in which it recommended that steps be taken at once to make certain that all portions of the remaining unreserved and unappropriated public lands should be placed under responsible administration or regulation. Such a step was necessary, it was said to insure the conservation and beneficial use of the 179 million acres of remaining public domain.

To carry out its suggestion, the committee recommended that congress pass an act granting to the respective public land states under certain conditions all the unreserved, unappropriated public domain within their respective boundaries. It urged, however, that additional areas of this land, important for national defense, reclamation purposes, reservoir sites, national forests, national parks, national monuments and migratory bird refuges, should be reserved by the federal government for these purposes.

**Seek to Avoid Waste.**  
The Garfield committee, headed by James H. Garfield, had as ex-officio members Secretary of the Interior Wilbur and Secretary of Agriculture Hyde. It urged that such land as the government did not want for federal uses should be turned over to the states if they would enact legislation accepting it.

Land which the states would not accept, and which is suitable for grazing should be converted into national ranges by executive order, the committee said. The committee's principal aim was to insure that all the unappropriated domain should be administered by somebody to avoid waste.

**Reclamation Policy Indorsed.**  
The Garfield committee endorsed the administration's reclamation policy, which includes the building of Boulder dam and the expenditure of millions in harnessing the waters of the Colorado. It urged federal participation in flood control work and the adoption of a definite policy in handling hydro-electric power development, connected with reclamation projects.

Some changes in the present homestead policy also were suggested, the committee stating that but little had been done in that respect for that purpose.

The committee suggested that mineral rights be transferred to states which approve uniform federal laws on mineral conservation, with retention by the federal government otherwise.—World-Herald.

**SCORES LABOR GOVERNMENT**  
Stoke-on-Trent, England.—Lady Cynthia Mosley, chief aide of her husband in the move to organize a "new party" told her constituents what England needed in the present emergency was a government "with the guts to govern." Speaking before nearly 4,000 persons in King's hall, Lady Cynthia described as "cheek and humbug" the recent demands of the Featon and Longton labor parties that she resign her seat in parliament because she had withdrawn from labor's parliamentary party to help her husband, Sir Oswald Mosley, in organizing his "new party."

Lady Cynthia pledged that if she were elected I still stand firm," said Lady Cynthia, who is daughter of the late Marquis Curzon and a granddaughter of Levi Letter, Chicago merchant.

"I shouldn't have the cheek to come before you in the next election supporting this government with which I don't heartily disagree," isn't it time that you had a government with guts to govern? Isn't the situation in the country dangerous and critical? We are in bad times."

Lady Cynthia said the labor government had a wonderful opportunity but failed to take it and in the absence of any policy the situation was bound to grow worse.

**TAMMANY MAN UNDER FIRE**  
New York—Samuel Seabury was named by Governor Roosevelt to act as special commissioner to investigate charges against District Attorney Thomas C. Train. The investigation, which involves one of the most important Tammany hall officials, came as the result of charges filed with the governor by the City club of New York, asking Train's removal. The petition charged inefficiency, incompetency, failure to enforce the criminal law and misfeasance in office.

Seabury will report back to the governor, who may remove Train if he sees fit and name a successor to serve the remainder of the year. Train, thru his secretary, said he has nothing to hide or to fear.

**PRINCESS OPERATED ON**  
Madrid—The infant Maria Cristina, second daughter and the third child of King Alfonso, was operated upon for appendicitis by Dr. Gomez Ulla. All of the royal family and various government officials expressed satisfaction at what they said were happy results.

**HAMPSHIRE BRED GILTS**  
I have some forty extra fine bred gilts, to farrow in May, offered at \$2.00 over Omaha top prices. m12-1tw-2td. HARRY M. KNABE.

**22 Head of Horses**  
Twelve head of horses and mules, well matched; four head colts, coming 2 years old; one team well matched gray mares, 1 year old, broke; one gray mare, 3 years old, broke; three head of mules coming 2 years old.

**Cattle and Hogs**  
Nine head Holstein milk cows, several head Guernseys and Jerseys, now giving milk; one Holstein bull, coming 3 years old; one Guernsey bull coming 2 years old; one Guernsey bull calf coming 1 year old.

**Farm Machinery, etc.**  
Four cultivators, two manure spreaders, one grain drill, one disc cultivator, one McCormick-Deering tandem disc, one gang plow, three hay mowers, one concrete mixer, one three-horse sulky plow, nearly new, some washing machines and several other articles too numerous to mention.

**Terms of Sale**  
All sums of \$25.00 and under, cash. Sums over that amount, make arrangements with your own banker if you desire credit. Nothing to be removed until settled for.

**Lee Watson, Sr.,**  
Manager.  
REX YOUNG, Auctioneer.  
TOM DOOLEY, Clerk.

**THE FUNERAL HOME**  
Modern conditions and standards of living have called into being an entirely new kind of institution for meeting a universal human need—The Funeral Home.

**DOWSERS**  
That certain men can find underground water by means of a forked twig, preferably of witchhazel, is a belief which is held so persistently by so many people that scientists, unable to explain it, are investigating it in the hope of discovering the principle back of "dowsing." The dowsers do succeed oftener than they fail is certain, whatever the reason.

A scientist of the U. S. Department of Agriculture, who recently witnessed an exhibition of water-finding by a German dowser, has received interest in the subject. The explanation which he suggests, and which some other scientific men believe is possible, is that the radiations of rays, which are constantly coming out of the earth, have a definite effect upon the nervous systems of certain persons who are highly sensitive to them, and that when the direct path of these rays is obstructed by water the result is a contraction of the dowser's muscles and a movement of the forked twig or "divining rod."

Other suggested explanations are that a good dowser is sensitive to the faint vibrations caused by running water; another that the minute trace of dampness in the earth immediately over a subterranean stream affects him. Whatever the answer, it seems as if there is something in the ancient belief.

**VILLAGES**  
A Yale professor recently remarked that there was no reason whatever for the existence of most small towns. The editor of the New Milford, Conn., Times has "called" the professor pointing out that it is only in the villages that people live a community life which is at once comfortable and free from the annoyances of life in the cities.

Small towns today offer everything of real importance that any city offers to its inhabitants, and a great deal that the city cannot give. One can buy in the village stores everything that the great city department stores offer except, perhaps, the flashy jewelry and extravagant furs which the city stores are always tempting people who cannot afford them to buy. In the village movie theater the same pictures are shown as are shown in the small town, usually before Broadway sees them. Nobody but the very wealthy can afford to keep an automobile in New York; few village families are without one. It is only in small towns that most people can afford to own and live in their own houses. And even in the small town one can find one has neighbors who are really neighbors in the old, friendly sense of the word.

**STIMULANTS**  
Alcohol, morphine, cocaine, all of the habit-forming drugs, owe their popularity to the fact that, for a short time, they enable their users to do things which they otherwise would not have the energy or the courage to do. Coffee and tea are stimulants of less powerful effect. Every race of people has developed some sort of stimulant which speeds up certain physiological processes for the time being.

In the light of this world-wide demand for additional sources of bodily energy, scientists have been working for years in the effort to discover some substance which will accomplish the desired purpose without the disastrous mental and physical reactions which follow the use of the ordinary stimulants when the first effect has worn off.

It was the way a German chemist found that small doses of acid sodium phosphate increased bodily energy without apparent ill effects, and this drug was used to enable workers in German coal mines to do extra labor. Research since the war has failed to discover any substance which would work for years in the effort to discover some substance which will accomplish the desired purpose without the disastrous mental and physical reactions which follow the use of the ordinary stimulants when the first effect has worn off.

**CLEAR 400,000 OF DEBTS**  
Angora, March 8.—After seven years of misery, 400,000 Turkish refugees from Greece are to have their burdens lightened.

They were uprooted from their homes in Greece when Athens and Angora agreed to exchange populations of their respective nationals. About 1,000,000 Greeks were simultaneously sent out of Turkey.

This country, however, was not prepared to absorb 400,000 new citizens and much suffering resulted. Many of the repatriates have been camping for seven years in mosque courtyards because no place could be found for them on the land. Others were allowed plots under a 29-year payment plan, but have had trouble making a living.

Now the Angora parliament proposes to relieve the landholders of all indebtedness, giving them clean titles without further payment. Those to whom no land has been allotted will be given treasury bonds.

**FINDS LATVIANS KNOW CAPONE**  
Herman Friedlander, 42, of 3204 Cass street, Omaha, proprietor of a grocery store on North Twenty-fourth street, Thursday returned to Omaha after a visit of several weeks to his native Latvia. His arrival in Omaha concluded the first vacation he ever has taken.

The trip to Latvia enabled him to see his mother, 72, for the first time in 25 years. While abroad he visited also with friends and relatives in Germany and Poland.

He found that Al Capone was among the best known Americans in the places where he visited. "Why, people who did not know that Herbert Hoover is our
