Mr. Car Owner! YOU BE THE JUDGE

READ the comparison of construction and prices outlined below and judge for yourself. Why should anyone take chances with special brand tires of unknown manufacture when you can buy Firestone quality tires at no extra cost?

We save you money and serve you better because of Firestone's direct buying of rubber and cotton—undivided interest in building tires—owning their own factories, the most efficient in the world—and their great economical distributing and standardized service system.

Come in today—we will give you more value for your dollar.

Table titled 'COMPARE CONSTRUCTION and QUALITY' comparing 4.50-21 and 6.00-19 H.D. tires across various metrics like rubber volume, weight, width, etc.

Double Guarantee—Every tire manufactured by Firestone bears the name "FIRESTONE" and carries Firestone's unlimited guarantee and ours. You are doubly protected.

★ A "Special Brand" Tire is made by a manufacturer for distributors such as mail order houses, oil companies and others under a name that does not identify the tire manufacturer to the public, usually because he builds his "first line" tires under his own name. Firestone puts his name on every tire he makes.

All we ask is that you come into our Service Store and see for yourself sections cut from various tires. Compare Quality—Construction—and Prices.

Farmers Cut Their Production Costs

Similar Treatment for Victims of Incurable Diseases Is Advised—'Save Heartbreak.'

Chicago, Ill., May 7.—A painless death sleep administered to imbeciles and victims of incurable diseases was advocated today by the Illinois Homeopathic Medical association in a resolution drafted for submission by its legislative committee to the state general assembly.

Dr. William Alva Guild, legislative committee chairman, said he regarded administration of a death sleep as a further step toward an increasingly liberal viewpoint in medical practice.

"All medical groups are true to this thesis of prolonging human life," he said, "yet the question arises whether under certain circumstances, the prolongation of life would be advisable. We have had many patients who have asked to be put out of their misery when suffering from an incurable disease."

His statements were reinforced by Dr. L. Merrill Henikoff, who added: "The cost of maintaining idiots, mongoloids and sufferers from malignant cancer in homes and institutions costs millions of dollars annually. The legal recognition of euthanasia would, in addition to being an economic saving, relieve heartbreak and needless suffering."

Believes Depression Main Campaign Talk

Jouett Shouse Promises Jobless Relief if Democrats Regain Power Also Defends Raskob

Anstin, Tex., May 12.—The opinion that the business depression—and not prohibition—will be the paramount issue of the 1932 presidential campaign was expressed tonight by Jouett Shouse, chairman of the democratic national executive committee.

Addressing the legislature, in a state which left the democratic fold to vote for Herbert Hoover in 1928, Shouse defended the prohibition proposals of Chairman Raskob and said his party, when it regains power, will "do the obvious things for the relief of unemployment instead of merely talking about them."

In addition, he pledged the support of himself and of Raskob to the presidential candidate selected by the democratic convention "whether he is wet or dry."

Decries Dry Law Control. "It would be deplorable," Shouse said, "if the selection of our chief magistrates and the directors of legislation who must guide the destinies

Four Mile Community Club Meets

The Four Mile Community club held its first social meeting at the home of Mrs. Carl Becker.

The afternoon was spent in various games which were very much enjoyed by all. The club chose Mrs. Henry Born as their honorary member to which position she received a very handsome pin, a gift of the club.

The next meeting will be held June 2 at the home of Mrs. Sterling Ingerson.

At the close of the social hour a luncheon was served by Mrs. Henry Born, Mrs. Joseph Bierl and Mrs. Earl Becker.

of the United States should hinge forever on the question of prohibition, however grave and far reaching that question may be.

"There would be no more justice in the imposition by a group of wet commonwealths of their ideas upon those states which choose to be absolutely dry," he added, "than in the dry states compelling their sister commonwealths to accept a system which they do not think wise or suitable in relation to home conditions."

Shouse said he did not see how any democrat could find fault with the suggestion of Chairman Raskob which calls for retention of the Eighteenth amendment with an additional amendment under which any state might determine by popular vote whether it desires to be bound by the prohibition law.

Explaining that Raskob "has no more power than he has desire to coerce the national committee," Shouse said the chairman "simply asked the members of the national committee to consider the advisability of a change in the present unsatisfactory conditions of prohibition."

Should Have Showdown. "I do not consider prohibition the paramount issue of the coming campaign," he added, "but I do believe that ascertainment of the sentiment of a majority of our party should be
