## Coroner Holds Inquest Over the Death of Youth

Sarpy County Jury Censures Henry Timmerman and Richard Kiger for Taking Boys in Boat

County Attorney R. J. Nickerson, ex-officio coroner of Sarpy county, held an inquest in Springfield Wednesday afternoon, inquiring into the drowning of Harold Buckner, 12-year old son of Mr. and Mrs. Fred Buckner, who met his death on Monday evening when an outboard motor boat in which he was riding was overturned in a sand pit lake at Meadow. The boat was being operated by Henry Timmerman and in it with him were Harold Buckner and Walter Glesman. In some unexplained manner, the boat lurched, throwing all the occupants into the water. Timmerman was able to save himself and the Glesman led, but was unable to reach Buckner before he sank, although he made every effort to do so, and also called loudly for help.

After hearing all the evidence the jury verdict was returned by the jury composed of Albert Kisek, Taylor Jarman, John C. Sweeney, T. W. Nicholson, J. D. Harder and B. F. Latham: "That Harold Buckner came to his death June 15, 1931, by drowning in a sand pit near Meadow, by reason of the sinking of the boat with an outboard motor owned and operated by Henry Timmerman. "While we do not find criminal negligence, and while we do find that Henry Timmerman and Richard Kiger used every effort to rescue Buckner, still we feel that both Henry Timmerman and Richard Kiger are subject to public censure for taking small boys out on the lake in a home made boat of such flimsy construction."—Papillion Times.

### DOES AN INJUSTICE

About the meanest little trick that this paper has had slipped over on our force for many a day, was in the little bunch of what was supposed to be news items from Cedar Creek, and printed in the Monday issue of this paper, which had reference to the erection of the new school house now under construction in that place. None of our force had the slightest idea that the items were in any way intended for a slap at the members of the school board who have been working so hard for the completion of the new building for the fall term of school, but such sometimes is the case with real community workers and builders. The board started in plenty of time to complete the new school for the opening of the fall term, but the various delays brought on by those in harmony with the cause have delayed the work, and will be completed before the first of October. We do not usually let such little items get by the dead line in this office, and personally we want to apologize to the members of this school board, the building committee and all connected with the erection of this excellent little school house that will shelter some 45 members of the children of that community this winter. The building committee is composed of Robt. Stivers, R. H. Meisinger, A. G. Swanda, L. W. Schneider, and John Ganer, and they are really to be commended upon the erection of such a building for \$61,539.00, and should be tendered a real community banquet at the opening time.

The full building will be cut up into three rooms on the first floor, with the two school rooms 36x22-3, and a library room 11-6x20, full basement, with play room, lunch room and heating plant, and other storing quarters.

This will be an excellent school quarters for Cedar Creek for many years, and such community workers as those connected with its erection deserve the commendation of the entire district, and no doubt will in after years.

### SEEK COOLING WATERS

From Friday's Daily—The intense heat of the past week has been the source of a general trek on the part of the residents of this community to watering places, the Platte and Missouri rivers, sand pits and the Murray bathing beach. Last evening car loads of the heat tortured residents, young and old, male and female, could be seen driving to some of the places where they might take a dip into the cooling waters and for a few moments at least forget the fact that the torrid weather was prevailing. The more venturesome took the opportunity of the sand pits or river here while those less experienced in the swimming line were content to try the safer solace of the Murray beach.

### CREAM STATIONS TO CLOSE

On Saturday, July 4th, the cream stations of Mrs. Henry Kaufmann, the Home Dairy, Henry Klinger and The Plattsmouth Produce Co. will be closed at noon for the remainder of the day. All are urged to take notice of the closing time.

Firecrackers of all sizes, torpedoes, bombs and all of the best of fireworks for the observance of the Fourth of July are now on display at the Bates Book & Gift Shop. Place your order for the Fourth of July.

### INVESTIGATE INDIAN RUINS

Dr. E. E. Blackman of Lincoln, Curator of the Nebraska State Historical Society, in company with Dr. Gilmore of Murray and Edward Murphy, who lives northwest of Nehawka, were in Nehawka and vicinity Tuesday afternoon. The three gentlemen came to Nehawka to inspect pieces of flint, pottery, arrow heads, etc., which Verner Lundberg and the Enterprise editor found in excavating an Indian house site last summer and to also visit other Indian evidence in the community.

Mr. Blackman has done much research work throughout the state and is very interested in this work. Dr. Gilmore has also explored this section to considerable extent and has found many interesting things along this line and such men as Mr. Blackman find it profitable to consult him while in the community. Mr. Murphy is also interested in this work and can yield a spade with good results when called upon to do so.

Mr. Blackman expects to do considerable research work near Genoa this summer, but informed the members of the party Tuesday that he would not be happy until he had thoroughly excavated one of the Indian house sites which is located near this place.

The house site in question is said by Dr. Gilmore to be rectangular in shape, something out of the ordinary. Mr. Blackman is not so sure of its shape and will not be satisfied until he makes a thorough investigation. While he would be very much pleased to find the shape of the house as Dr. Gilmore claims, we know he would enjoy it just as much if he could prove that the doctor was mistaken.

Mr. Blackman expects to come to Nehawka when time permits, put up his tent and spend a couple of weeks doing nothing but research work in the community.—Nehawka Enterprise.

## To Continue Probe of Banker's Death

Suicide Is Decision of Coroner's Jury—County Attorney Brennan Doubts Jury's Decision

Lynch, Neb., June 24.—Although a coroner's jury today decided that Dan Melsha, 58, shot himself to death yesterday in the Farmers' State bank of which he was vice-president, County Attorney Brennan said tonight he "had some doubt" whether the banker was a suicide.

Brennan, speaking by telephone from Butte, the county seat, declined to reveal on what information his belief was based. He intimated an investigation of the death and of the two thousand dollar bank robbery which Melsha reported Monday would be continued.

During the inquest, today no reference was made to the bank robbery.

Cashier Rosicky testified he heard a shot yesterday morning in the bank's rest room and entered to find Melsha wounded. Eight hours later he died in a hospital.

Monday Rosicky said he found Melsha slugged and unconscious in the bank. The money was missing and Melsha said he didn't see the robber. A posse failed to find trace of the holdup man.

Deputy State Sheriff Dudschus was on his way here to investigate the case. Volcott Condit, agent for the Nebraska Bankers' association, left for Lincoln today after making inquiries. He did not disclose his conclusions.—World-Herald.

### FOUR REPORTED DROWNED IN ST. CLAIR AND ERIE

Detroit, June 26.—Rescue parties were sent on to Lakes St. Clair and Erie following reports Friday that at least four persons had drowned in widely scattered sections during a heavy wind and rain storm.

See the line of safe noise producing devices for the Fourth of July at the Bates Book & Gift Shop.

## Car Owners!

August 3rd a New Law Goes into Force

If a judgment is entered against you as result of an Auto accident, you cannot drive your car nor register it, till the judgment is paid.

The Sensible Thing to Do—

is to carry Liability Insurance. Cost on most cars is only \$9 to \$12 per year.

### CONSUMER IS IMPORTANT

New York—Richard Whitney, president of the New York stock exchange, suggests as a means of preventing periods of depression, more scientific knowledge about a comparative stranger, the consumer. In his annual report to the governing committee of the exchange, published Wednesday, Mr. Whitney traces in detail the course of the business cycle down to its current low levels, and discusses various theories that have been advanced.

"On the whole," he concludes, "consumption rather than production, seems to constitute the greater threat against the stability of business."

He points out that production is a mechanical problem, and great strides have been made toward its scientific control, but adds "by comparison, consumption statistics are scanty, incomplete and problematic as to their true significance."

"The trends of consumption are themselves largely unpredictable, and constantly subject to the changing whims of fashion. If any fundamental progress in stabilizing the fluctuations of business is actually to be realized, a more complete and accurate knowledge of consumption seems indispensable."
