Miss Nola Banning was a visitor in Plattsmouth on last Saturday when she was guest at the home of her school chum and friend, Miss Mildred Schulze, they enjoying the visit very much.

E. W. Robb and family are spending their vacation in Union, and a most delightful place to spend it. They have relatives there and a host of friends, with whom it is a pleasure to visit.

Ray Fahrlander who has been doing some wiring for the camp of the cement workers at Wyoming, found it necessary to make a trip to Lincoln on Tuesday for some supplies for the completing of his work.

With the arranging of C. B. Smith and the family to depart for some time from Union, the position of secretary of the Old Settlers Association has been given to Miss Jane Robb, and she will look after the work.

Paul Griffin who returned from the hospital at Omaha last week has been visiting at the home of Grandfather and Grandmother E. M. Griffin at Plattsmouth for the past week where he has been recuperating nicely.

On last Sunday a party composed of Frank Bauer, Deede and Punk Nickles, Elmer Withrow and daughter, Sylvia and son, Henry and Miss Genevieve Becker were over to Murray where they were enjoying the Murray bathing beach.

The storm of last Saturday put the electric service in Union out of commission and workmen under the supervision of Wm. Highfield were down from Plattsmouth on Sunday and made the necessary repairs so that the service could be resumed.

W. A. Clarence was in town on Tuesday morning, getting some materials for the building of some concrete walks and also the building of a foundation at the home of R. A. Taylor and wife southeast of Union, work on which will begin in a short time.

Mr. and Mrs. Fred Grant who are employed by R. E. Foster on the farm, were over to Murray on last Tuesday evening where they went to take their little son Freddie Grant to Dr. Gilmore for an operation for an abscess which had developed on his head.

L. R. Upton and wife were over to Bellevue on last Wednesday where they went to take a number of the young girls to camp where they were attending the 4-H club camp. Their daughter was among the party, Mr. and Mrs. Upton stopped on their return and look after some business in Plattsmouth as well as visiting with friends.

The Paving Construction company were unloading a car load of cement in the cement house of D. Ray Frans Lumber Co. on Tuesday of this week, as it had come when they could not use it as rapidly as shipped. The concrete laid to the viaduct six miles south of Union on Monday evening and the pavement will be begun at Morton Park and laid to the viaduct which is a distance of 4.3 miles which is expected to be completed in about three weeks.

**Mother and Children Wounded in Gun Fray**

**Omaha Trio Hit by Shotgun Pellets After a Quarrel—Son's Condition is Critical.**

Omaha—A mother, her son and her five year old daughter were wounded by shotgun pellets in a shooting affray late Sunday in South Omaha. The shooting police were told, was the outgrowth of a neighborhood quarrel.

The wounded are Mrs. Josie Majowski, Mike Majowski and Anna Majowski, five. Mrs. Majowski and her daughter were not seriously wounded. Mike, however, was struck by six shotgun pellets and his condition was said to be critical.

Mrs. William Horsky, neighbor of the Majowski family, is held in the county jail with her son, Frank. According to Mrs. Majowski, Valentine Majowski, her husband, went to the Horsky home and nibbled too freely of liquor while there. She said that Frank Horsky complained to her and that she, her son and daughter started for the Horsky place.

As they approached the house, Mrs. Majowski related, Mrs. Horsky stepped out of the house, warning them to come no closer and fired one shot from a shotgun. It missed, Mrs. Majowski said, but Mrs. Horsky handed the gun to Frank Horsky who fired a second shot, wounding all three of the Majowskis.—State Journal.

**SILVER—**  
If I had loose capital to invest today I would buy silver. The metal is selling now at the lowest price in history, measured by the gold standard. In the money markets of the world last week it was under twenty-nine cents an ounce. The average price of silver for the past fifty years has been well above sixty cents an ounce; during and just after the war it touched \$1.30.

Silver is certain to come back. The President of Mexico has issued a decree restoring silver to its old position as money. One of the causes of the unrest of India has been the demonetizing of silver, and economists think that silver will be restored to its old position there.

Anybody who buys silver now stands a good chance of doubling his money within three or four years, possibly sooner. And if he needs cash in the meantime silver is a commodity on which an extremely high percentage of market value can always be borrowed.

**DAVIS—**  
Keep an eye on Norman H. Davis, the gentleman who has just been appointed the American member of the Finance Committee of the League of Nations. Mr. Davis has the confidence of financial leaders and of statesmen on both sides of the Atlantic to a degree approached by few other Americans. A native of Tennessee, Mr. Davis was one of President Wilson's chief financial advisers in the peace negotiations. Then he came back to America, first as Assistant Secretary of the Treasury, then as Under Secretary of State and for a time was acting head of the State Department. His new job is to guide the nations of Europe in financial matters.

Mr. Davis has never run for elective office, but if the Democrats elect a President next year or in 1934 I venture now the prediction that Norman H. Davis will hold a high position in the Cabinet or the Diplomatic Service.

**BAKER—**  
Another Democrat worth keeping an eye on is Newton D. Baker. Lots of Democrats would like to see him President, but I don't think he will be the party's nominee in 1932. He will be heard from in the campaign, however, and will figure large in any democratic administration in his lifetime.

Mr. Baker is, I believe, the most effective and convincing orator in American public life today. His address last week before the Institute of Politics in Williamstown, Mass., was the clearest exposition of the present political-economic condition of the world that I have read.

**CHICAGO—**  
I met Anton Cermak, the mayor of Chicago the other day. He doesn't talk or act like a professional politician, but like the business man which he is. He has all the newspapers of Chicago behind him in his effort to "clean up" that troubled city, and that is something which no mayor has had in many years. And he is cleaning things up.

Mayor Cermak is enthusiastic in his "boosting" of the World's Fair which is to be held in Chicago in 1933, commemorating the 100th anniversary of the founding of the city. Chicago itself is an exhibit which ought to draw millions of visitors. No city in history every accomplished so much or developed so attractively in its first hundred years as Chicago has done. I know of no great city where the common people have half as good a time as they do in Chicago or get so much out of the public parks, playgrounds, and waterfront. I know of no other great city which has so pronounced a civic spirit among all of its people. Nobody can possibly know America until he knows Chicago.

**TELEPHONE—**  
The radio telephone system across the Atlantic is working so well that the American Telephone & Telegraph Company announces that it will soon begin telephone service across the Pacific. That will be another preventer of war.

Without the trans-Atlantic telephone President Hoover's program of international co-operation to relieve Germany's economic distress could not have been carried out. It enabled the President to talk as freely to Secretaries Mellon and Stimson when they were in Paris and London as if they had been in Washington.

"The difference between telephoning and cabling in a case like this," one of the President's close friends explained to me, "is that, even when a cable message is put in secret code there is a record of it, somewhere, and diplomacy makes it impossible to express beliefs and opinions freely or to tell the actual complete facts in all cases, since there is always the chance that the record will some day be unearthed and made public. But over the telephone everybody could say exactly what they thought and there were no long waits for an answer."

"If we had had telephone facilities in 1914 as we have now," one statesman said recently discussing this episode, "the European war could have been averted."

**LLOYD GEORGE CONDITION REPORTED SATISFACTORY**

London, Aug. 3.—David Lloyd George, veteran Liberal leader, was said to be progressing satisfactorily Monday from his operation last week for a kidney ailment.

## Lindberghs are Safe, Landing at Churchill

Arrive at Manitoba After Earlier Stop at Moose Factory—Crowd Out to Greet Them.

Churchill, Man., Aug. 2.—Flying above the storm lashed the bay shore country with the precision of an automatic mechanism, Colonel and Mrs. Charles A. Lindbergh came down on the blue waters of Churchill harbor late after a flight of 751.5 miles from their story, Ont.

The Lindberghs completed their journey over the treacherous stretch of uninhabited country in the last time of eight hours and 50 minutes. A crowd of two thousand persons, Churchill's entire population, was out to welcome them. Mrs. Lindbergh waved a greeting to the throng.

Again the Lindberghs surprised the outside world. Saturday the silence of their radio provoked apprehension over their safe landing at Moose Factory from Ottawa, and it was not until the Associated Press dispatched a plane to Moose Factory that definite word was obtained. Today in the face of weather which the Churchill radio operator described as "chilly" and "foggy" the investigation that caused them to land south of here they maintained the high average of \$5 miles an hour.

Lindbergh indicated he would remain overnight before continuing to Baker lake, 375 miles north. The couple left Moose Factory at 10 a. m. today.—World-Herald.

**PETITION SAID DEFECTIVE**

Secretary of State Marsh said his attention had been called to the attention of a petition of the Supreme court in a referendum case concerning certain requirements of the law in the matter of referendum petitions. He has under consideration and investigation a petition of 65-000 names asking that E. 33, regulating buses and trucks, be referred to a vote of the electors at the general election next year. The law, he says, requires circulators of such petitions to be eighteen years of age and signers to be legal voters, also circulators shall not circulate a petition outside the county of his residence without filing a \$5,000 bond with the secretary of state. No such bonds have been filed with him, said Secretary Marsh, yet he heard rumors that circulators had gone into more than one county and had even delegating the work of getting signatures to others and to persons under eighteen years of age, and the circulator had certified that the signatures were signed in his presence.

"I have no funds to investigate these matters," said Secretary Marsh, "but must mainly rely upon the petition for what it appears to be on its face in arriving at a decision as to its sufficiency under the law." He said he had not arrived at a decision. The association of truckers who filed the petition have advised truck operators to disregard the law, alleging that the petition is sufficient and that it suspends the law until the next general election in 1932 when it will be submitted to a vote of the electors for ratification or rejection.

**GIRL FILES SLANDER SUIT**

Omaha—An asthmatic automobile of ancient design figured in a \$10,000 slander suit filed by Miss Virginia Hernboom, who asks that amount because, she asserts, her next door neighbors sought to alienate the affections of her sweetheart.

The sweetheart is Paul Havens, jr., son of the vice president of an insurance company here. The defendants are Mr. and Mrs. Hugh Hale.

Incensed, said Miss Hernboom, because of the chug-hugging of young Havens' automobile sometimes in the early hours of the morning when he was returning her from social events, the Hales went to Havens' parents and told them stories about her which were untrue.

As an upshot of their tale bearing, Miss Hernboom's petition asserts, Pater Haven ordered the son either to refrain from keeping company with her or to find some other abode. He chose the latter course, according to the petition, and is still the devoted lover of Miss Hernboom.

About the worst charge listed by Miss Hernboom as having been made against her was that she reads true confessions magazines.

The Hales, however, according to the petition, said worse things about Mrs. Hernboom, whom they accused of trying to "frame" young Havens so that the family would have the advantage of the Havens' family wealth and social position.

**YOUTH GETS THREE YEARS**

Billings, Mont.—Ray Porter, twenty-three, of Chicago, who surrendered to police in order to bring about the arrest of two erstwhile women companions, has been sentenced to three years in the state prison for bringing a stolen automobile into Montana. Porter gave himself up after Evangeline Nugent, twenty, of Chicago, and May Stock, nineteen, Milwaukee, abandoned him and departed in a motor car the Chicago man had stolen from P. D. Curtis, Chicago coal dealer.

The girls pleaded guilty to using the car without the owner's consent and were given ninety day jail sentences. They said they were hitch hikers and had been given a ride by Porter.

## GANGSTERS ARE JUST MEN

Washington—The income tax laws "are still on the statute books" and there are no exceptions to "master minds." David Burnett, commissioner of internal revenue, said in hurling a defiance to gangsters' thruout the country. It was the bureau's intelligence section, under Elmer Fry, its chief, that ferreted out the hidden incomes of Al Capone and other Chicago gangsters, sending some to jail while Capone awaits trial charged with evasion of income tax laws.

"In the eyes of the federal government a gangster is merely a person and not a personage," he said. "Recently indictments have been secured against a number of men whose names have figured prominently in the press as opponents of constituted authority. Some are in the penitentiary, others are 'aspiring to the vacant throne.'"

**INVESTIGATION IS ASKED**

Norman, Okl.—Congressman Swank, of the Fifth Oklahoma district, telegraphed the state department at Washington asking an investigation of activities of H. Valdez, Mexican consul at Oklahoma City.

Valdez recently was arrested for speeding, and was involving in a beer raid in which charges were voided by city authorities. Swank said he believed Valdez should be withdrawn by his government if it were found thru investigation that "Valdez is showing a deliberate disrespect for American laws."

**SHOWING IMPROVEMENT**

The many friends in the community of Mrs. E. M. Godwin, one of the long time residents here, will be pleased to know that she is showing much improvement over her recent illness, now being able to be up and around the house. Mrs. Godwin was suffering from a touch of appendicitis but the attack seems to have passed without serious result.

**ENJOY OUTING**

Mrs. Christine Larson and Mr. and Mrs. Frank Barkus and children spent the week-end at Cantrill, Iowa, where they visited with a brother of Mrs. Larson's whom she had not seen for several years. On Monday they drove on to Keokuk, Iowa, where they inspected the big government dam and locks and enjoyed driving by the Mississippi river.

## LAWMAKERS CHANGE LAW

Ottawa—Parliament postponed its plan to wind up the session Sunday night after the house had approved two bills relating to the Beauharnois project. The commons ended its day's work late Saturday night and will return at 11 Monday with prorogation expected late in the day. During the discussion of the Beauharnois canal in the house, Ernest LaPointe, former minister of justice, asserted Canada stood committed to the St. Lawrence project. Previously he had cited the wording of the measure that "the improvement of inland navigation by the department of deep waterways, in progress from Lake Superior to the sea requires that the Beauharnois canal shall be under the jurisdiction of Canada." This, LaPointe said, committed Canada to the St. Lawrence project.
