### GYPSIES VISIT THE CITY

Acting Chief of Police Joe Libershal was kept busy Tuesday afternoon in defending the city from an invasion of a large tribe of gypsies, the wandering Romanies arriving in the northwest part of the city and scattering far and wide in a few moments to seek fortune telling or what have you.

The men of the party remained with the fleet of autos in which the tribe was traveling while the ladies in their bright and varied colored dresses and shawls swept down on the business section to solicit funds. Officer Libershal was able to gather the party together and escorted them out of the city, the wanderers heading for Omaha and greener fields for their activities.

## Third Murdock Bank Robber is Given 25 Years

### Glen Walker Arraigned This Morning in District Court and Enters Plea of Guilty.

From Wednesday's Daily—  
For his part in the robbery of the Bank of Murdock on Saturday, June 27th, Glen Walker, 27, the third of the bank robbers to be arraigned, was given a sentence of twenty-five years in the state penitentiary at Lincoln this morning in the district court.

Walker, who has been at the county jail at Seneca, Kansas, since he had left the hospital where he was operated on for appendicitis, was brought to this city Tuesday and lodged in jail here until his hearing this morning and this afternoon was taken to the state penitentiary at Lincoln where his brother, Ross Walker, is serving twenty years and his cousin, Ray Monhollon, thirty years for their part in the robbery.

When questioned by Judge Begley before sentencing, Walker stated that he had shucked corn last fall for Paul Schewe, one of the prominent farmers of near Murdock. He stated that Monhollon had asked him where there was a bank that could be robbed easily and he had mentioned the Bank of Murdock and the two with Ross Walker, the seventeen-year-old brother, had come to Nebraska City where they had visited at the home of a friend, going later to Murdock and where they had pulled off the daylight robbery and had then returned to the vicinity of Nebraska City to remain all night and then gone on to Kansas. The greater part of the money had gone to Monhollon.

### VERIFIES STATEMENT

While Rev. and Mrs. H. G. McClusky, enjoying their summer vacation, were at the lakes in Wisconsin they were the guests of Mr. and Mrs. H. C. Lindsay, former prominent Lincoln residents, at the town of Lodi. On this occasion Rev. McClusky made many fine catches of fish and reports of which have reached this city from various sources. The genial minister is reported to have caught some 291 white bass in four and a half days, a number that staggered the local fishermen, used to angling for cat and other fish in the Platte and Missouri river. Now that this is no fish story, Mr. Lindsay, who for many years was clerk of the Nebraska supreme court has sent to this city the undeniable proof that Rev. H. G. McClusky is a real fisherman. Those who do not believe this statement of Mr. Lindsay, given below ought to be convincing:

State of Wisconsin, County of Dane, ss.  
The undersigned, members of Waukegan Camp in said county and state for the purpose of bolstering up the rather shady reputation of Harry G. McClusky of Plattsmouth, Nebraska, do hereby, on fishermen's oath, declare and say that the said McClusky was instrumental in the catching of 291 white bass in 4 1/2 days, July 20 to 24, inclusive, 1931, (many of the fish caught by McClusky weighed as much as five pounds.) The said McClusky claims that 150 or more of said fish were personally caught by him, which we are not prepared to deny.

Anyhow, we unite in testifying that he is a "good fellow," and we urge that you, to whom this statement is presented, give full credence, so far as your judgment will permit, to his claims.

IDA F. BLAKE,  
RUBY MURPHY,  
ED MURPHY,  
SAM MURPHY,  
W. H. ROCHE,  
HAROLD MURPHY,  
MRS. H. C. LINDSAY,  
RUTH LINDSAY,  
A. L. OAKLEY,  
A. M. KINNEY.

Subscribed and sworn to before me this 24th day of July, 1931.

H. C. LINDSAY,  
Notary Public.  
(My Com. expires Oct. 30, 1932.)

If the world were to end in a blaze of glory the people would be too busy praying to notice the spectacle.

## Legion Names Delegates to the State Meeting

### Representatives Selected for Fremont Convention; To Sponsor Home Talent Entertainments.

From Wednesday's Daily—  
The meeting of Hugh J. Kearns post of the American Legion last evening was attended by a very pleasing number of the members and the chief business of the evening was that of the selection of the delegates to the state convention which is to be held at Fremont on August 24th to 26th inclusive.

The delegates named to represent the local post were: Judge A. H. Duxbury, Dr. Charles M. Gradoville and James Persinger, while the alternates selected were Clyde Jackson, Louis Baumgart and C. A. Marshall. The post has depended on activities of various kinds for the financing of their building and other necessary expenses connected with the maintenance of the building, sponsoring indoor carnivals as well as the summer outdoor carnivals, which in the past provided the funds that made possible the purchase of the site for the building and a great deal toward its erection as well as the payments on the indebtedness. A number of objections have been made by residents as to the outdoor traveling carnivals and this matter was discussed at some length by the members of the Legion as well as several of the residents of the city who had been invited to be present to give their views.

It was the decision of the post and which received the hearty endorsement of the citizens present, that the Legion would sponsor at least three home talent attractions during the coming fall and winter season, the first of which, a minstrel show, would be given in October. It is hoped in this manner to be able to secure funds that will materially reduce the indebtedness on the building and enable the Legion to carry on their other activities in community service.

The committee named by Commander Olson to carry on the entertainment plans are L. W. Niel, Leo Boynton and H. L. Gayer.

Legal and commercial printing of all kinds at the Journal office.

## Cass County Farm Bureau Notes

Copy furnished from Office of County Agent Waincott

### New Circular on Trench Silo.

Copies of the newly published Extension circular upon trench silo in Nebraska are being distributed. The circular is written by Ivan D. Wood and E. B. Lewis of the Agricultural Engineering department at the college, Lincoln. A total of 15,000 copies of the bulletin have been published to meet the drought emergency of 1931.

The circular is well illustrated with pictures and drawings of the trench silo and it is described in every detail. Features of the construction include easily and quickly constructed for emergency use, built with unskilled labor and with machinery on most any farm, and desired capacity can be had by increasing the length of the trench.

The trench silo is finding favor among many Cass county farmers. It can be constructed for a cost of \$5.00 to \$10.00 besides the farm labor. No great capital output is necessary for the construction of the trench silo.

Two trench silos were dug at the Agricultural College in 1929 for experiment by Wood and Lewis. The silo built near the sheep barn was 40 feet long, 7 feet deep, and 12 feet wide at the top, 8 feet wide at the bottom and two 20 foot inclines at the ends. A total of 114.84 tons of chaff were put into the silo.

Eleven farmers built trench silos in the county last year and all of them report fine results.

Copies of the trench silo circular may be had at the Farm Bureau Office.

### The Poultry and Egg Outlook.

Reduction in numbers of poultry on farms, reduced storage stocks, cheaper feeds in relation to prices of poultry and eggs and the sustained consumption of poultry products are the outstanding factors in the poultry outlook. The July 1 number of hens in farm flocks is 5 per cent less than on that date in 1930 and the number of chickens is 10 per cent less than on that date last year. July 1 stocks of poultry in cold storage this year were unusually low, being about 40 per cent less than on that date in 1930 and 25 per cent less than the average July 1 stocks for the preceding five years. Stocks of case eggs on July 1 this year were 12 per cent less than on that date in 1930 and 3 per cent less than the 5-year average. July 1 stocks of frozen eggs, however, were only two per cent below those of 1930, while they were 40 per cent above the 5-year average. The quantity of eggs being broken for freezing has been rapidly increasing for several years. Combined stocks of case and frozen eggs were equivalent to about 9 per cent less than last year, but 5 per cent more than the 5-year average. The condition of crops on July 1 promises an abundance of feed. On June 15 the relative price of chickens was considerably above and that of eggs slightly above the price of feed, compared either with last year or with the June average for 5-year period 1923-1927.

### Outlook.

With most Nebraska pastures dried up, many dairy herd improvement associations and other dairymen are finding it necessary to feed grain to their cows, according to E. C. Scheidenhelm of the Agricultural College. Scheidenhelm, who is an Extension Dairyman at the College, suggests that Nebraska dairymen feed some wheat in their rations. Under present price conditions he believes it is cheaper to feed wheat rather than corn. Some dairymen who have used wheat, however, say that it tends to slow up the milk production. Nevertheless the College of Agriculture man says a ration made up of one-fourth or one-third wheat will not hurt the cows.

A mixture consisting of 300 pounds of ground wheat, 300 pounds of ground oats, 300 pounds ground barley or corn along with 100 pounds of either cottonseed or linseed meal is suggested. Another mixture includes 500 pounds ground corn or barley, 500 pounds oats and 100 pounds of either cottonseed or linseed meal.

The more milk a cow produces the more grain she should be fed now, Scheidenhelm maintains. Jerseys producing up to 20 pounds of milk should receive one pound of grain for every 7 pounds of milk while those producing from 20 to 35 pounds should get one pound for each 4 1/2 pounds of milk. Holsteins, Ayrshire and other cat require about the same amount of grain to reach pound of milk produced. Those giving 25 to 30 pounds of milk are to receive one pound of grain for every 7 pounds of milk while those producing over 40 pounds of milk should get one pound of grain for every 5 pounds of milk.

260 Attend 4-H Camp.  
Camp Bellevue was a scene of much hub-bub Wednesday morning July 29th, when some 260 4-H Club members and leaders arrived with bed-roll and baggage for four days of camping, 75 of these campers were from Cass county.

After registration all gathered in the dining room for box lunch and address of welcome by T. B. Turner, who is in charge of Bellevue Institute. Following lunch the group went out under the shade trees for general instruction and organization.

The camp organization was based on Indian lore. The campers were divided into tribes with a leader in charge. Each tribe then elects a chief and made plans for their stunt to be given before the camp fire on the last night at camp. Then the fun started—The boys played their first games in the baseball tournament and the girls retired to the pool for their first les-

## Meat Department

In our Meat Department, we will have for this week end two grades of Beef Roast, one our regular high grade corn-fed beef and the other from grass-fed steers. To the inexperienced eye, they look very much alike—yet one will sell for 5c a pound more than the other. Wise buyers will select it. Those who demand price and price alone in their meat, will take the cheaper cut. We'll have plenty of both grades to supply our customers Saturday. Also plenty of other good Meat values.

Corn fed Beef Roast, per lb. . . . . 17 1/2c  
Beef Roast, grass fed, per lb. . . . . 12 1/2c

son in swimming. About 48 boys and girls learned to swim while in camp. The whistle for supper at 5:45 only needed to be blown once for everyone had worked up a good appetite.

Vespers at 7:30 followed by a picture show, "Partners Three," songs, etc., completed the day's program. The program for the rest of the week was just as full as Wednesday. Class periods for boys included belt lacing, chair seat caning, weed identification and demonstrations. Foods demonstration on "We A Picnicking Go," "First Aid Treatments" and the making of picture plaques, including picture study, selecting a picture, finishing the board and mounting the picture, made up the girls class work.

Class work was interspersed with
