GOLD PILE MOUNTING HIGH

New York—The pockets of Uncle Sam soon will bulge with more than five billions in gold. A survey of the gold situation showed it will be only a matter of a short time before gold holdings in the United States will top the five billion mark for the first time in the history of any nation. The gold reserve on Aug. 26 amounted to \$4,932,000,000, while impending shipments from South America will increase this amount. A shipment of \$4,255,000 is being sent to New York from Argentina on the steamer Western Prince, and Uruguay plans to send \$5,000,000. In addition, receipts of \$965,000 from Mexico was reported by the federal reserve bank of New York.

It became apparent that the United States would pass the five billion dollar mark when it was indicated at Buenos Aires that the Argentine government would meet the \$50,000,000 notes maturing Oct. 1 with gold.
