Announce Program for Convention of Temperance Workers to Be Held Next Week.

State convention of the W. C. T. U. will open next Tuesday. The fifty-seventh annual convention of the Nebraska Woman's Christian Temperance Union will be held in Norfolk, Oct. 5 to 8. This will be the second time the meeting has been held there, the organization

having met in Norfolk in 1889 under the leadership of Mrs. Mary Hitchcock.

Monday, the state officers will hold a pre-convention conference and the state executive committee will meet in the evening. On Tuesday morning, there will be a Loyalty and Temperance conference led by Miss Meta Martin of O'Neill. Following this time will be given for a round table discussion of young people's branch work led by the state secretaries, Mrs. H. T. McNickle of Scottsbluff and Mrs. Grace Barnore of Lexington. From 11 to 12 will be devoted to a praise and consecration service led by the evangelist director, Mrs. Olva Hageman of Alliance.

Tuesday afternoon is set aside for reports of officers and committees and greetings from Norfolk members.

At the banquet Tuesday evening, the state president, Mrs. Clara C. Clayton, will deliver her annual address on "We Do Advance."

On Wednesday, in addition to business items and reports, time will be given for a memorial service and the annual sermon which will be given by Rev. Iva M. Innis, Lincoln. A pageant, "Songs Which Made History" is the feature of the evening program. It will be preceded by a light line demonstration in which forty-six unions will participate. The march of county presidents will portray the progress of the work during the year in the various counties.

Election of officers will take place Thursday morning and that evening will be men's night, when all participants on the program will be men. The speakers will be Governor Bryan and U. S. District Attorney Charles E. Sandall of Omaha. Mr. Sandall's subject will be "The States and the Federal Government, and Their Relations to the Eighteenth Amendment."

Short addresses will be given during the convention by Norfolk citizens, by Mrs. Nellie Benson, of the state board of control, and by Charles W. Taylor, superintendent of public instruction. Plans will be made for the regional conference to be held in Omaha in January, 1932; for the distribution of literature, and for the promotion of the different departments of work.

Made Wonderful Address.
Col P. L. Hall was asked to make an address at the dedication of a certain church which was recently completed at Talmadge and was greeted with enthusiasm in his address as he spoke of the wonderful subject of the Constitution of the United States, the foundation stone of the liberties if not alone the beloved country America, but from which many other countries have been inspired to remodel their governments and have drawn from our country the spirit of liberty. Justice equally before the law and just dealings with their fellowmen. Well knowing that in that lies the security of the home, and a more perfect government, not alone for them but for the generations which is to follow. Col. and Mrs. Hall were greet-

ed with good cheer and urged to return at another time and deliver another excellent address.

Had Trotting Horse "Dan." Albert Ethrage, who when the matter of trotting horses was more to the fore than it is at this time has a wonderful horse and a steppier named "Dan" which he placed much store by. Al is rather proud of the relics of the other days.

This was in 1867 and he made his home here since. Here he was married and raised a large family, marking one of the very best of citizens. Then came the matter of furnishing the corn, which he accordingly did by buying the same from the farmers in this vicinity and being able to give some better prices, taking it from the farms instead of having the farmers haul to the market, thus benefiting them as well as himself at the same time.

Cold Days Coming

Just because last month was the warmest September in 40 years, many have been neglecting the important matter of having their furnaces looked after and necessary repairs made. Now, it is pretty certain cold weather will hit us with a bang, and then you can't find enough furnace repairmen in the country to take care of all the "rush" jobs that will be wanted. Better have us look after this work for you now and don't be like the fellow who didn't have his roof repaired because it didn't need it when it wasn't raining and he couldn't repair it when it was.
