Open \$40,000 Chapel Thursday at State Prison

Inmates Dedicate It with Show, Is Big Event Today—One of Finest in the Country.

Lincoln, Neb., Nov. 26.—Opening of the new 40 thousand-dollar chapel at the state penitentiary today overshadows all other holiday "extras" this Thanksgiving for the eight hundred inmates of the prison.

The "extras" consist of the usual Thanksgiving menu with plenty of trimmings and a holiday in the prison shirt and furniture factories, where most of the men are employed.

Directed by inmates, written by inmates, and with only inmates in the cast, the two-act performance given this morning for the men in the prison and in the evening for outsiders, is presented as a musical comedy of variety.

Louis W. Chobar, prison librarian and former orchestra leader, is director and manager of the show. Roland Crumbley is assistant director; Frank Ketter, musical director, and Francis South, director of the orchestra. Libretto "patter" was written by Chobar, Crumbley and William Epstein, the latter taking part in the show and presenting a monologue in the second act.

This is Chobar's first year in charge of the shows, which for the past four years have been directed by Fred Burton, who serves as clerk to Deputy Warden Cavanaugh.

Many prisoners have been kept busy all this week getting the interior of the chapel ready for the show. Stage equipment arrived only Wednesday night and it was necessary to put a night crew to work in order for the auditorium to be in readiness Thanksgiving day.

Decorations of the chapel—which is reported to be as fine as in any prison in the country—will be held a week from Sunday morning with the principal address by L. Clark Oberlies, former chairman of the state board of control. Other features of the dedicatory program have not yet been announced by Warden William T. Fenton.

Walker will Visit Mooney in Prison

San Francisco, Cal., Nov. 27.—Mayor James D. Walker did not have much time today to study the Thomas Mooney case, his mission to California.

The mayor of New York, who will join in presenting the alleged parole bomber's pardon petition to Governor Ralph Tuesday, spoke briefly at two luncheons reviewed one of the crack regiments of the United States army and had tea with a group of army officers and their wives.

Walker will go to San Quentin prison tomorrow to visit Mooney, convicted with Warren K. Billings of the 1916 Preparedness day bombing here. He said they would confer "as lawyer and client."

Walker will Visit Mooney in Prison

Editorials Continue.

Newspaper editorial comment on the mayor's presence in the state continued today, one of the criticisms and one of praise in two San Francisco papers.

The first comment was made at Sacramento, the capital, by a state official, Roland Vandegriff, state director of finance, explained that his interest in the case was that of a private citizen. He went all the way back to the time of King Solomon to allegorize.

"In Solomon's time," he said, "it was said of politics that if a ruler were having trouble at home he should start a war abroad."

"It seems to me Mayor Walker has enough trouble to take care of at home without coming to interfere in what appears to be purely a California matter!"

Ignored by Walker.

Walker continued to ignore editorials dealing with his presence in California and, outwardly at least, seemed unperturbed by the several newspaper criticisms. He declined comment on any phase of the discussion revolving about his visit.

The San Francisco Examiner today editorially characterized his trip in behalf of Mooney as a "prophet of self-promotion," and suggested "it might be a good idea for the mayor of New York to come home and make a beginning at attending to his own business."

The San Francisco News, taking the other side, referring to a "special note of perverseness" displayed by some newspapers in regard to the mayor's visit, said that Walker was rightly getting the blame for "the white light of publicity that now comes flooding in on the Mooney case."—World-Herald.

Seeks Vote of House on Prohibition Issue

Representative Snell's Plan Would Require Vote When 145 Sign Petition

Washington, D. C., Nov. 27.—Revision of house rules along lines that may permit a vote on prohibition repeal this session will be proposed to the conference of republican house members Monday by Representative Snell.

The New Yorker, candidate for the speakership nomination, will suggest the rules be liberalized to permit a vote on legislation upon presentation of a petition containing 145 signatures. At present 218 are required.

The house west bloc, claiming 170 members, advocates the change. By this means they hope a roll call vote on prohibition can be obtained so candidates for congress in 1932 will be on record.

Would Speed Laws.

The revision program is designed to accelerate the legislative machinery to permit the house to act promptly on major and minor proposals pending in congress.

Snell, chairman of the last house rules committee, was resigned at the republican caucus last spring to draft a rule liberalization program.

The republican insurgents, particularly those from the northwest, most of whom are antiprohibitionists, have threatened to bolt the republican organization in event the rules are not liberalized. They hope thereby to bring before the house much legislation sponsored by their group.

Democrats Oppose.

Snell said "There is no question whatever that there will be a change in the house rules."

He said Representative Crisp of Georgia was one of the leading democrats to sponsor a revision.

However, in other democratic quarters there is considerable opposition to the Snell proposal, particularly in view of the probability that the party will organize the house.—World-Herald.

Japan's Promise Not Adhered to Stimson Fears

Washington, D. C., Nov. 27.—Secretary of State H. C. Stimson today expressed his deep concern over the Japanese promise of non-aggression against Manchuria, which he said was not being adhered to.

Stimson said that the Japanese promise of non-aggression against Manchuria, which was made in the Tokyo declaration of Sept. 26, was not being adhered to. He said that the Japanese were still occupying Manchuria and that they were still violating the terms of the declaration.

CHRISTIAN SCIENCE

The subject of the Christian Science lesson-sermon for Sunday, Nov. 29, "Ancient and Modern Necromancy, alias Mesmerism and Hypnotism, Democred," affords an opportunity to study the nature of a so-called evil mental power that has ever deceived and plagued mankind.

A passage from the Christian Science text book describes the nature of this mental claimant to power: "It is named in Christian Science, animal magnetism or hypnotism is the specific term for error or mortal mind. It is the false belief that mind is in matter, and is both good and evil; that evil is as real as good and more powerful." (Science and Health, p. 103.) A passage reserved for him who is undeceived by this false claim: "Blessed is the man that endureth temptation; for when he is tried, he shall receive the crown of life, which the Lord hath promised to them that love him." (James 1: 12.)

The subject for the lesson-sermon for Dec. 6 is: "God the Only Cause and Creator."

MAY ELIMINATE TELEGRAPH

It has been rumored for several days that the telegraph station will be eliminated in Nehawka. Not only the telegraph equipment, but the dispatcher's telephone as well.

If this is done, it will make conditions very unfavorable for those who are users of the telegraph, passenger and freight service.

It would mean that the depot agent would have no more idea when a train or bus was to arrive than anyone else. It would mean that a telegram could not be sent from Nehawka to any other place, and that if some farmer wished to secure a car to ship livestock, that a letter would have to be mailed for a car and no assurance would be given when to expect it. In fact, it would mean many disadvantages to the people of this community.

It might be well for the people of Nehawka to look into the matter if this service is to be continued. As we have no commercial club or similar organization, individuals must necessarily respond.

The railroad wishes to secure as much business as possible, but if their contemplated plan is carried out it will be evident they are not so anxious to give the best of service to its patrons—Nehawka Enterprise.
