WHITE TO CALL ON RIVALS

New York.—Gov. George White of Ohio, who will be the preferred presidential choice of his own state's delegation to the national democratic convention, arrived here from Washington with the prediction that normally republican Ohio would go democratic this fall. In explaining the compromise by which he obtained a solid state delegation Governor White said the Ohio delegates would vote for him thru at least four ballots, and then switch to either James M. Cox or Newton D. Baker, unless the White candidacy received added support. The Ohio governor asserted sentiment for a change in the prohibition law was growing. While here, Governor White said, he hoped to see Governor Roosevelt, Alfred E. Smith and John J. Raskob.

Policy of Japan Declared to be a Blow at Peace

Held to Have Forfeited Confidence and Esteem by Invasion of China.

New York.—Japan was held to have forfeited public confidence and public esteem by its recent activities in China, in a report made Sunday by Dr. Nicholas Murray Butler, director of the division of intercourse and education, to the trustees of the Carnegie endowment for international peace. The report contained a broad review of world events in 1931, and reached the conclusion that an international situation "without parallel in history" was created. With reference to the Sino-Japanese conflict, the report says: "No matter how disorganized the Chinese people may be and no matter what the incidental and local provocations which may have been given to Japan, that country, which has for a generation past taken so large and so helpful a part in the efforts to build a new world of international co-operation, has now so acted as to forfeit public confidence and public esteem."

Forces making for the undermining and the overthrow of the world's economic and financial system reached their climax last year, the report said, thru "attempts to achieve the unreasonable and impossible" in the field of war reparations, the accumulation of most of the world's free gold apply at two centers, the raising of tariffs and "the cries for a return to prosperity while insisting on the perpetuation of conditions that make prosperity wholly impossible."

"Let it be proclaimed from the housetops," the report continued, "that every government and every people which seeks for security thru arms is the unwitting enemy of the world's progress; that every government and every people that seeks prosperity thru isolation and thru multiplied restrictions on trade is prosperity's greatest obstacle, and every people which resists and represents international co-operation to deal with the constant and the worldwide problems of mankind is not patriotic but its own nation's most treacherous and most persistent foe."—State Journal.

City Council Canvass Vote of Election

No Material Change Revealed in the Final Results—Discuss Several Projects.

From Tuesday's Daily. Last evening all of the members of the city legislative body were in attendance with the exception of Councilman Gabelman, who was busy on the petit jury and unable to attend.

This being the first meeting of the month, the reports and other routine matters took up a great deal of the time of the membership of the city legislative body.

The report of City Clerk Herman L. Thomas showed that he had collected the sum of \$339.39 in the last month, and which had been placed in the hands of the treasurer.

City Treasurer John E. Kirkham reported that the city had a balance of \$23,952.81 and an overdraft of \$28,952.81, leaving a cash balance of \$5,015.41 which was distributed in the various banks, Plattsmouth State, \$1,569.80; Farmers State, \$2,180.89; First National, \$264.72. The registered warrants were reported at \$40,568.69.

Police Judge Charles L. Graves and Chief of Police Elliott each reported nine arrests for the month of March and fines and costs collected that amounted to \$24.19.

Chairman Webb of the claims committee stated that his committee was getting the city owned property plotted and hoped to have each piece so that its location could be determined at once. He also asked that the committee be authorized to look into the cost of a roof for the Epperson house which was damaged by fire last summer and this permission was granted and to report at the next meeting.

Chairman Johnson of the streets, alleys and bridges committee reported that there had been no definite action on the street work asked by the Norfolk Packing Co. while the sketch had been received of the proposed changes, there was no estimate of the cost of the same. The plan was filed for future reference while the committee investigates the cost of the work, and the finance committee, through chairman W. H. Puls stated that the committee had conferred with the local bankers and recommended that the banks place liberty bonds, government or municipal securities in trust for the securing of city deposits. That the city treasurer be urged not to draw tax money from the county treasurer in amounts that would run the city deposits to over \$4,000 in any one bank. This recommendation was adopted by the council.

The canvass of the vote cast at the last election was then taken up and Councilmen Smith, Davis and Luschinsky were named to check over the vote and the following results were reported:

He expressed pleasure with the number of votes given him in Sunday's runoff presidential election. Before retiring early in the morning, he sent to leaders and party workers the following message: "Victory obliges me to thank all who worked to create the basis of the victory.
