DEATH MENACE OF ANTHRAX INCREASES

Lincoln, Aug. 4.—The death menace of anthrax in northern Nebraska grew Thursday as 21 more quarantines on 682 head of livestock were reported to the state veterinarian's office.

On these 21 farms 19 deaths were noted by officials, who said the total doubtless is greater.

Dr. P. L. Felstner, state veterinarian, left Thursday for Niobrara to direct three assistants already watching the smudges of funeral fires consuming carcasses of stricken beasts.

Cattle, horses and swine were the animals quarantined. Veterinarians emphasized that all should be vaccinated immediately, but lack of funds in the district, stricken last year by drouth, hinders the program.

The carcasses of the dead animals are saturated with oil and burned where they fall.

Quarantines just imposed were at Bloomfield, Niobrara, Verdell, Crofton, Verdigre, Santee and Naper. Rain usually mitigates the scourge, but when one has started like the present epidemic it has to run its course. The quarantines are coming in faster than last year.

State veterinarians estimated 575 head of livestock have died of anthrax in northern Nebraska this year, most of them in the past month.

The state bureau of animal industry now has 3,574 head of stock on 89 farms and ranches under quarantine. Seven anthrax quarantines, established earlier in the year have been released.

The conditions imposed in a note from the neutrals Tuesday made an armistice impossible, she said. Her reply asked if the neutrals would consider modification of their proposition.

PRIMARY VOTES CONTESTED

Nashville, Tenn.—A contest before the state primary board, based on charges of voting frauds, was announced by Sam Carmack, campaign manager for Lewis S. Pope, runner-up in the gubernatorial race in Thursday's democratic primary, in which unofficial returns gave Hill McAlister the nomination by a plurality of approximately 10,000. "The spurious claims of McAlister's nomination based upon the wholesale and unprecedented frauds in Shelby (Memphis) and Davidson (Nashville) counties," Carmack said, "cannot avail against the verdict of the honest electorate of Tennessee. We have an abundance of evidence of wholesale frauds."

Meanwhile returns showed Representatives Taylor, McReynolds, Byrons, Browning, Cooper and Clump all were renominated. Mrs. Estlick, widow of Representative E. E. Estlick, was elected to serve out the remainder of his term. C. W. Turner is the democratic nominee for the new term.

"She was a washout," Mattern said. "There wasn't anything else left to save." Asked if they would try it again, this year or next, the airmen shook their heads dubiously.

Fairfield, Ia., Aug. 4.—Two youths were killed in the wreck of the fast Burlington freight number 65 five miles west of here near Bernhart last Thursday.

Eleven other men from among a group of 40 riding in a coal car and box car were hurt. All were taken in a work train to an Ottumwa hospital where doctors reported that at least two were not expected to live.

The dead were Kenneth Pulley, 17, of West Frankfort, Ill., whose neck was broken, and an unidentified man who died on a work train which took the injured to an Ottumwa hospital.

The injured: Joseph Hafer, Berwyn, Ill., right leg crushed and lower part of body mangled.

John Wenzig, 16, Detroit, married, possible skull fracture.

Elwood Boger, Sandusky, Ohio, fractured thigh and bad scalp wound.

Ben Sabala, 28, Chicago, fractured ankle and bad scalp wound.

Neither the engineer, Mike Wright of Galesburg, Ill., nor the freeman were hurt, although the locomotive plowed up 300 feet of the south mainline track. Fifty feet of the north track also was damaged.

As the first section of cars was derailed the men riding behind jumped, but several were caught in the wreckage. Most of the riders were believed to be young unemployed men looking for work. Witnesses said "two or three of the group were floaters."—Omaha Bee-News.

Murder Charge is Lodged Against Reynolds Widow

Former Singer Is Indicted at Winston-Salem Along With Albert Walker.

Cincinnati, O.—The father of Libby Holman left for Winston-Salem Thursday night to seek bond for her to save her from the ignominy of confinement in jail while awaiting trial. Reports of impending motherhood concerning Miss Holman, he said, are "a matter of record."

Winston-Salem, N. C.—Libby Holman Reynolds, Broadway torch singer, and Albert Walker, Winston-Salem youth, were indicted Thursday for the murder of Libby's husband, Smith Reynolds, heir to an estimated 15 million dollar tobacco fortune.

The Forsyth county grand jury reported "true bills" against the two, leaving it to the prosecutor to decide what degree verdict to seek when he brings the pair to trial.

Walker, a chum of Young Reynolds, was arrested at once and placed in the county jail. Authorities at Cincinnati and New York were asked to take Libby into custody. Her father, at Cincinnati, said she would be produced "at the proper time," but the whereabouts of the former Broadway favorite remained unknown.

Reynolds, who was only twenty, died with a bullet in his brain after a prolonged party at his estate. Reynolds at Winston-Salem on the night of July 5. He died in a hospital where he was taken by Miss Holman and Walker. He made no statement after he was shot.

Return of the indictments came unexpectedly. A case charging several negroes with robbery was interrupted as the grand jury filed into the room to make its report on North Carolina's most sensational case of recent years.

Harry F. Atchison, foreman of the grand jury, handed the two bills of indictment to Judge Stack in Forsyth county superior court. It developed during the court proceedings that the last grand jury had also made a presentment in the case but it had been kept secret.

Shot to Death After Party. Smith Reynolds, heir to the Reynolds tobacco fortune, was shot to death after a party at his estate in Winston-Salem on the night of July 5. He was removed to Baptist hospital by Walker and Miss Holman and died without making a statement. After being detained for several days, Miss Holman and Walker, a boyhood chum of the victim, testified at a coroner's inquest that the young sportsman committed suicide in a fit of despondency and that he had threatened to end his life on several occasions.

The Broadway blues singer said that her mind suffered a "blank" for some forty hours during the birthday party in honor of a friend and the peril was broken only by a "flash" in which she saw her husband with a gun at his head and then toppled at her feet. She described Reynolds as having had numerous fits of melancholia in which he feared he could not hold her love and urged her to have affairs with other men.—State Journal.

HOG CHOLERA CRISIS PAST

Kearney, Neb.—With approximately 10,000 hogs in Buffalo county vaccinated within the past two weeks, County Agent Hecht expressed the opinion that the crisis of the big hog cholera epidemic in the county is past. Tho there are still some herds being attacked by the disease, nearly all of the hogs in the infected areas have been vaccinated. Hecht says the severe outbreak of cholera in the county can be attributed to three farms where hogs were not properly disposed of after they died from the disease.

MINING AREA TRUCE LOOMS

Indianapolis. — Governor Leslie said representatives of warring mine factions in the Terre Haute area had reached a virtual truce intended to bring to a halt the picketing of the Dixie Bee shaft. Governor Leslie said representatives of the union sympathizers besieged sixty-five workmen in the non-union mine telephoned the pickets from his office to instruct them to disband.

Operators of the mine, he said, agreed to discontinue their efforts to run the shaft on a non-union basis until some permanent agreement could be reached between mine owners and Dist No. 11, United Mine Workers of America, whose contract expired March 31 and has not been renewed. "I feel that the situation is well in hand," the governor said.

"It is my present intention to keep national guard units in Vigo county until the situation clears up. It is my hope that arbitration will proceed and the controversy in the entire coal field be settled."

FRANCE 'WIZARD' IS POOR

Belvidere, Ill.—"Fifty per cent" Al Benham, who last year gained attention by his financial schemes to pay large interest rates on his borrowings, is today, according to his own testimony, penniless and dependent on his friends for support. This testimony was offered in a mastery in chancery hearing of the suit brought by Lloyd Lanza to recover \$7,600 he loaned to Benham in the heyday of his financial skyrocketing which culminated in his collapse a year ago last February. Further hearing has been continued indefinitely.

Benham was subjected to grueling examination. He said he has no employment and is dependent on borrowings from friends to pay his grocery, light and gas bills. He testified he did not recall how much he had borrowed, but said at one time he had \$26,000 on deposit in Belvidere banks and that he transferred nearly \$100,000 of his borrowings at from 20 to 50 per cent interest to the Blackhawk Finance company while he was president of it.

SAYS FARMERS MUST SELL

Sidney, Neb.—While farmers in midwestern states are reported joining a holiday movement to force the price of farm products upward, producers of grain and livestock in western Nebraska are wondering how they can participate in the campaign.

Farmers here say the theme is right but question the ability of participants to carry it thru. After two poor years many of them have used up their surplus.

"If the farmer was in a position to spend the next thirty days just living, without selling a dime's worth of produce, I would say this plan is the most sensible idea I have heard since the depression struck farm product prices," was the comment of Albin Olson, who, with his father, operates one of the finest cattle and small grain ranches in this area. But the cattle man and the grain man has been hard put to make ends meet and there isn't any nest egg in the bank to carry him for thirty days. I am speaking for the average farmer, of course, and I doubt if they can find a half million farmers in the midwest without including a good many thousand average farmers."

Olson said farmers must band together in some co-operative movement and design a practical marketing scheme before prices will again climb back to the post-war levels.
