#### FACTS ABOUT SCHOOLS

Plattsmouth high school has entered into its sixth week of the current school year with a smaller percentage of enrollment shrink than at the same time last year. Only four students have dropped out, leaving the total enrollment at 271. An analysis of the enrollment shows some interesting facts. Heretofore, the girls have considerably outnumbered the boys, but this year there is a difference of only one and that in favor of the boys. There are 136 boys and 135 girls. In the senior and sophomore classes, the two sexes are still very evenly divided. The seniors have 26 boys and 27 girls and the sophomores 35 boys and 32 girls. But in the junior and freshman classes there is considerably difference in the division of the two groups. The junior boys have the girls outnumbered 42 to 31 while the freshman girls have the boys outnumbered 45 to 33.

#### WILL MOVE OFFICES

Attorney W. A. Robertson and Dr. R. P. Westover, who have had their offices in the Plattsmouth State bank building, are to move the coming week to their new location in the Bekin building. The new offices are being arranged this week and the task of moving will be started next week, it is expected.

## Murdock Church Celebrates 40th Anniversary

Over 600 Attend Service at Trinity Lutheran Church—Three Pastors Served in 40 Years.

On Sunday Oct. 9, Trinity Lutheran church, two miles north of Murdock, celebrated the 40th anniversary of the congregation as well as the 50th of Nebraska district, with two special services. The morning service at 10 o'clock was conducted in the German language, in which the Rev. J. W. Peters of Wisner, Nebraska, the second minister of the congregation from 1909-1927, delivered the jubilee sermon. Immediately following the sermon, the Rev. Theo. Hartmann of Louisville, who twice served as vacancy pastor, spoke briefly in the English language. At 2:30 in the afternoon another anniversary service was conducted, which was in the English language and in which the Rev. L. Baumgaertner of Huntley, Ill., son of the first pastor, from 1892-1909, preached. All speakers showed that the congregation on this anniversary day certainly had much reason to rejoice and to be thankful to the Lord for the manifold blessings, which they had received during the past 40 years.

The attendance at both of the services was estimated at a little over 600.

Dinner was served at the parish hall to all present by the ladies of the congregation under the direction of Mesdames Paul Reinke, John Graham and Ida Thiemann.

At the close of the afternoon service, the Rev. G. A. Zoch, present pastor of Trinity Lutheran, read a history of the congregation, which was compiled by the pastor for this special occasion. Following are a few excerpts from the history read to the assembly:

Trinity Lutheran church was organized in the late fall of 1891 by a few faithful Lutherans living in the vicinity of Murdock, built a church in the spring and summer of 1892 and dedicated the structure to the honor and glory of God on the 9th day of October, 1892. The charter members of this congregation were:

Christian Kupke, Sr., John Stroy, Sr., August Thingan, Charles Hildebrandt, August Gakemeier, Sr., Henry Gakemeier, William Lau, Sr., Conrad Wehrmann, Sr., Fred Bornmann, Albert Zierott, Herman Thiemann, August Reinke, Casper Bornmann, Ferdinand Lau, Sr., Henry Schroeder, Adolf Rau, Sr., John Rohrdanz, Henry Timm, Sr., William Hempke, Charles Schneider, Christian Brunhoefer, John Scheel, Sr., Ernest Kupke and Rudolf Rau. The only remaining charter members today are: Henry Gakemeier, Conrad Wehrmann, Sr., John Scheel, Sr., Albert Zierott, William Lau, Sr., and Christian Brunhoefer. All of the are yet members of the congregation, excepting Christian Brunhoefer, who is now residing in Ponca City, Oklahoma.

Three pastors have labored in this congregation since the beginning of the congregation. These were: Rev. J. E. Baumgaertner from 1892-1909, Rev. J. W. Peters from 1909-1927, and Rev. G. A. Zoch since 1927.

Trinity Lutheran is located on a beautifully situated place, two miles north of Murdock, and owns three acres of property, on which the church, parsonage, school, cemetery and other buildings stand.

The first church of Trinity burned down on August 17, 1905, after it had been struck by lightning, and was immediately replaced with a new one, which still stands today, and was dedicated on the 27th day of May, 1906.

Trinity Lutheran has been a member of the Nebraska district of the Missouri Synod Lutheran church since the very beginning of this congregation, and still is today.

Trinity Lutheran has a Saturday religious school, an active Ladies Aid, a Waltham League for the young people and a choir.

During the past 40 years 320 children and adults were baptized in this congregation; 226 were confirmed; 61 couples were married; 79 people were buried; and 9,075 communed during the past 40 years.

Organists during these 40 years were Henry Schroder (1892-1916); Mary and Adelia Peters (1916-1919); Clara Krecklow (1919-1931), and since the beginning of this year, Mrs. J. Gakemeier.

The following young men out of the congregation are today serving other congregations as pastors: L. Baumgaertner, William Peters, Geo. Kupke, Ed Peters, O. Wehrmann and J. Heins.

The present membership of Trinity is 241 souls, 178 communicants and 63 voters. Trinity Lutheran conducts serv-

ices on every Sunday morning at 10 o'clock. Services are conducted in the English language on every Sunday excepting on the first Sunday of the month, when the services are held in the German language.

### Cass County Farm Bureau Notes

Copy furnished from Office of County Agent Waincott

#### Kill Weeds With Chlorates.

Many farmers have been treating patches of bindweed, tan weed and Canadian thistle the last week by using sodium chlorate. The Agent helped four farmers treat almost an acre of bindweed. Two of these men had used the chlorate on a small patch last fall and were so well pleased that they treated all the patches on their farms this year.

The chlorate is applied either wet or dry at the rate of 2 to 3 pounds per square rod, at a cost of 8 1/2 cents per pound. Small patches can be taken care of with very little money. Now is the time to treat the weeds. If you have a few to treat call or write the Farm Bureau office for more details.

#### Remaking Old Clothes

Never has there been a time when old clothes could be worked over to as good an advantage as they can this year. This is the decision reached by the ninety project club leaders of the county carrying the "Living At Home" project.

At the first series of training meetings held for project leaders the steps in remodeling and in completely making over were discussed. The leaders took home suggestions and patterns, applicable to a variety of problems, to be used at their local meetings.

The project this year contains many "thrifty" practices, containing up to date information, which will enable the homemaker to make full use of home products and thus help her to make financial savings.

Attend the first meeting of the local project club in your community and get the help on "Keeping Clothes Wearable."

#### Many Attend Corn Variety Meeting

In spite of the cold threatening day 100 farmers attended a meeting at the Carl Day farm to look over the 35 varieties of corn grown there.

D. L. Gross discussed corn types with the farmers. Mr. Gross emphasized the same points that show up in the test plots every year, that the smooth, medium sized ears are the ones that yield the highest. If farmers are well satisfied with their own variety of corn then they should begin to select the smooth ears from stiff upstanding stalks. In this way they can improve their own corn. Mr. Gross told how the corn yield tests in Iowa and Illinois are all won by a smooth variety the same as in Nebraska. He also said that Iowa and Illinois still put the blue ribbons on the rough corn at the shows, but politics entered in that because the old supporters of the corn shows still grow the rough corn. Many men in Illinois, Ohio and Indiana are now planting the smooth corn but have five acres of the rough to get show corn from. Here in Nebraska we are placing the smooth ear up because it is the high yielding kind. It weighs about 62 to 63 pounds per bushel compared to 56 and 58 pounds for the rough. It matures earlier and has a much smaller cob.

P. H. Stewart talked of hybrids and showed the group stalks that had been inbred then crossed to get the hybrids. By that time it began to rain so a hurried look was taken of the ear samples that had been shucked from 8 hills of each plot. These plots were hand planted and thinned to three stalks per hill and each plot is in triplicate. All of the plot will be shucked out on the 18th and the corn dried and weighed to get a final check up. The final results and weights will be published later.

To Show at Ak-Bar-Ben. Sixteen baby beavers, twelve fat barrows and four head of sheep have been entered for exhibit at Ak-Bar-Ben by Cass County 4-H club members.

The baby beavers will be shown by Arnold, Clarence, Ellsworth and Orland Stohman, Vernon Rikell, Vincent and Frances Rehmer, John Jochim and Milford Smith, the fat barrows by Vincent and Frances Rehmer, Robert Wolfe and Milford Smith. Dwaln and Dale Reed and Milford Smith will show the sheep.

#### FOR SALE

I have several Duroc-Jersey boars priced according to the times.—Marvin Nelson, Avoca.
