Married at Falls City. Thomas Reynolds and Miss Alta E. Evans, the former from near Union, and the bride from Nebraska City, were united in marriage some ten days ago at Falls City, where they had gone in order that the prying eyes of those curious, might not know of the wedding just at the time. They were accompanied by Mr. and Mrs. Sanders of Elmwood, and A. L. Murray of Nebraska City. The ceremony uniting the lives of this very popular young couple was said by the Rev. G. Baker of the Methodist church of Falls City.

The bride comes from Nebraska City, where she is most highly respected, being a graduate of the Nebraska City high school. The groom is son of Mr. and Mrs. George T. E. M. Griffin of that place. That they enjoyed the day fully goes without saying, for they sure had a fine dinner with the principal meat dish a nicely roasted goose which was cooked by Mrs. Griffin and just to a turn.

Union Red Cross Roll Call. The roll call of the Red Cross branch at Union, has completed the roll call and while there is not so large a number as had been the case in some years, still there are a goodly number as there are at this time about forty which have signified their adherence to the work by answering roll call and paying their dollar and enlisting in the work for which this organization stands.

Had a Merry Time. At the home of Mr. and Mrs. D. Ray Frans was held a very pleasant gathering on last Thursday when the 18th birthday anniversary of John Gilmore was appropriately celebrated. Car Went Wrong. While Joe Dare, Jack Austin and Roy Garrens were bring to Union a hog which they had purchased from a farmer living south of Union, their car being slightly overbalanced by the hog which was carried in a crate on the side of the car on the running board, the car became uncontrollable and took to the ditch by the side of the highway and rolled over a number of times, bruising the occupants, except the hog, who let out a squeal and added to the uproar. The boys notwithstanding their dilemma, soon righted the car and adjusted the hog and crate and came on into town. Mr. Austin had a severe cut on his head and all were more or less bruised.

Enjoyed the Afternoon. On last Sunday Frank L. Anderson and wife and their son, Ben, were over to the home of Mr. and Mrs. Con Watkins where they visited and enjoyed a very fine dinner which was surely enjoyed by all. Proposed Viaduct for Union. Dame Rumor has it that there is contemplated a viaduct for Union which is to extend over the Missouri Pacific tracks and beginning at the crossing of the street near the bank and filling station and extending to a point west of the tracks which would clear the Missouri Pacific tracks. This would make for the safety of the traveling public and at the same time the operators of the Missouri Pacific trains. However on the other side it would inconvenience all business west of the east end of the approach of the viaduct. Rumor has it there are prospects of the building of such a viaduct, but of which there is no certainty.

HONOR BRIDE-TO-BE. Miss Gladys Bushnell, whose marriage to Mr. Edgar Glaze, is to take place soon, was honored Saturday evening by a surprise linen shower. The pleasant event was held at the Bushnell home and was arranged by Mrs. Laura McLean and Mrs. Carrie Tracy, aunts, and Mrs. Walter Tracey, cousin of the guest of honor.

The evening was spent in visiting and the enjoyment of several musical numbers, while at an appropriate hour the bride-to-be was showered with the many attractive gifts that had been presented by the members of the party.

At the close of the evening a delightful luncheon was served that added to the pleasures of the occasion.

HOME FROM KANSAS CITY

T. M. Patterson returned home from Kansas City yesterday evening, where he went about two weeks ago to enter the Thorton & Minor Clinic, of that city, for treatment for rectal disorders, from which he had been suffering for the past few weeks.

Thirty years ago Mr. Patterson was operated upon for a trouble of this sort, when the excellent surgeons, Dr. Thornton and Dr. Minor were in charge, both of whom have now passed on to their great reward, and the clinic now is in charge of Dr. A. J. Maris, who has been connected with the work of the clinic for the past twenty years or more.

Like his predecessors, Dr. Maris, is not only one of the very finest gentlemen in the great city of Kansas City, but as we believe, for we have been there and know, that he is one of the best surgeons in his chosen work, rectal disease and female disorders, in this great land. Dr. Maris is very assisted by Dr. Powell, also a very eminent surgeon, who has been connected with this institution for a number of years. Mr. Patterson will also bear us out in the above statement.

Mr. Patterson made the trip to Kansas City in his car and the return trip yesterday was just a trifle too much for him, but aside from being tired over the trip he is feeling fine and will be ready for work in a day or two.

Thirty years between trips is a long step, but even at that he well knew where to go to receive the desired relief from his troubles.

Superintendent Linderman, of the construction company that has the contract for grading and paving on O street highway, had the misfortune on last Monday morning to step on a bit of wood from which there was a nail protruding, that pierced his shoe sole as well as penetrating into the foot, and which has caused him much pain. Dr. Walters was a visitor at Weeping Water, where he went to meet with the insanity board who are considering the case of George Chappell, who was taken to Lincoln for treatment. The young man, who is a son of Mr. and Mrs. Louis Chappell, has not been in the best of health for some time, and has just been going through a siege of scarlet fever, the fever being quite severe, and which probably resulted in the after-effect that has made it seem advisable to have him receive treatment at Lincoln for a time.

Raymond C. Pollard was a visitor in Plattsmouth last Monday, being called there to look after some matters in connection with the proposed opening of a road to the new stone quarry which has been opened on the land of C. W. Stone, by Ole Olsen, of Weeping Water, who expects to operate the quarry all this coming winter and will have use for this short stretch of road to provide egress from the property and facilitate getting the product to market. The added employment this new industry will provide is certainly something to reckon with in these days of general unemployment and idleness.

Accommodating to Borrowers. Recently when Mr. Olaf Lundberg was closing his garage to go home for the night, he noticed that the water can from which he fills the radiators of his customers' cars was still sitting out in front. He had a hunch to put it inside, but thought no harm would come to it, so he went on home and the next morning the can had walked away never to return.

Well, Ole secured another and has placed his name on it in red paint as well as the address at Nehawka. He is hoping that should such a thing occur as some one coming along at night and borrowing the can again, they can read the address when daylight overtakes them and will send it home, with the postal charges to follow. Well, all we can say is that we expect he will keep hoping.

Gave Good Lecture. Dr. Fentelle, chaplain at the Methodist hospital in Omaha, was a visitor in Nehawka last Sunday evening, bringing with him a set of slides and a lantern and gave a very much enjoyed illustrated lecture on the hospital in Omaha and the work which it is doing, and also soliciting funds for the hospital, as this like other charitable institutions of all kinds, is pretty hard hit by the depression.

Visited Here Monday. Russell Hall, who some nineteen years ago worked in the neighborhood of Nehawka, working north and west of town, being employed by John Rough, who later moved to Blair, accompanied by his wife, drove into town Monday and had dinner at the Burton cafe and renewed acquaintance with a number of Mr. Hall's old friends of 1913 and prior years.

Hall left here shortly after Mr. Rough moved to Blair, and went to the western part of the county, from where he entered the service during the World war, and upon his return was married near Alvo. Since then, he has been farming in Lancaster county, residing about five miles west of the Cass county line.

On the day of their visit here, he and his wife had started out to visit their nearest neighbor, John Kelley, but as they drove along the road looked inviting and they continued on east until they reached the vicinity of the old Tommy Fulton blacksmith shop five miles north of Nehawka, and there the country began to unfold itself before Mr. Hall as little changed from the time of his departure some 19 years ago. They continued the drive on into Nehawka as related above, but he found things in town considerably different than he had known them in 1913.

Sends Turkey from North. Mrs. William Gorder, who is teaching school at Okreok, South Dakota, sent for the Thanksgiving dinner to her parents, Mr. and Mrs. W. O. Troop, a fine turkey, which was roasted to a turn by that admirable cook, Mrs. Victor Wehrlein, who is a sister of Mrs. Gorder and at whose home the dinner for the family was held and which was enjoyed very much by all. Had Painful Experience. Dr. Walters tried to get the piece out, but as the pain was so great, he took the patient to Lincoln, where at the hospital a powerful magnet was brought into operation and the broken portion of the needle practically drawn from the hand. She is making good recovery since the needle was removed.

He was later released under bond on a reckless driving charge.

FLORIDA COAST HAS GALE. Jacksonville, Fla.—Mountainous waves born ashore by a northeast gale caused wide property damage, washed several boats aground, foundered a number of smaller craft and brought the highest tides in years to the northeast coast of Florida and South Georgia. At Fernandina, Fla., the schooner, Augustus G. Hilton, laden with lumber from the Cape Verde islands, was torn from her moorings and cast upon a bar. A shrimp boat, the Nepenthe, a forty footer, sank, and a private yacht was grounded, but not seriously damaged. An untenanted house also was demolished.

At St. Augustine the waves carried over the seawall, swamping several small boats. An ocean front resort and an old pier on Anastasia island collapsed as the result of being undermined. No one was reported injured. Crews labored thruout the day and night reinforcing the seawall with bags of sand and concrete.

Daytona Beach experienced its highest tide in ten years and gusts of wind reached seventy-five miles an hour, observers said.

WOMAN SENT TO PEN. Beatrice.—Polly Armstrong, Omaha, drew a one to two year penitentiary sentence for her part in the theft of a "good Samaritan's" automobile. She was convicted in district court recently of auto theft. J. W. Henry, state highway employe, picked her and two men up on the highway north of here after their car had been wrecked and brought them to Beatrice for medical attention. While he went for a doctor, the trio fled in his machine but the woman was found later in the car at Oshkosh, Neb. Roy Parker of Beatrice, who pleaded guilty to forgery here last month, was fined \$500. Unable to pay the fine, he was remanded to jail.

Seek Road to New Nehawka Stone Quarry

Request County Commissioners to Take Action to Open Short Piece of Road.

This morning a hearing was had before the board of county commissioners on the request of Ole Olson, owner of the new stone quarry at Nehawka, to open a roadway leading to the quarry.

The road requested is for a short distance and to enable the rock to be hauled out of the quarry to the various places where it is to be delivered. The building of the new road will not be a large job but will necessitate the condemnation proceedings to secure the right of way for the road.

The securing of the road is a matter in which the Nehawka people are much interested as it will accommodate the new quarry which will serve to employ a number of the residents of the community and add to the community enterprises in no small way.

It is expected that the county board will give the necessary approval to secure the new road and give the quarry the much needed outlet for their stone and rock which is to be used in road building work.

DRAWS CAPACITY CROWDS. From Wednesday's Daily. The past two days the district court has attracted audiences that in size would have delighted the hearts of any theatrical manager. The SRO sign was necessary for the entire two days of the Daniels case and the audience ranged from youngsters to grave and sedate men and women. Even for the closing arguments of the case this morning it was impossible to get in or out of the doors of the court room, so dense was the crowd. The attendance has been the largest that had witnessed a trial since the hearing of the case of Mrs. Inez Wever.

VISIT AT FALLS CITY. Mr. and Mrs. Waldemar Soennichsen, Mr. and Mrs. B. A. Rosencrans and Mrs. Mary Hickman of this city motored to Falls City Sunday where they were guests of friends for the day.
