Darrell Donald Rhoden

The funeral was held from the home on Thursday of last week by the Rev. W. A. Taylor, of Union, with burial in the Lewiston cemetery. A quartette from Plattsmouth sang at the funeral.

Injured Her Ankle

While Virginia Pollard was assisting in a play which was being given at Wayne, where she is employed as reporter on a newspaper, she received an injury to her ankle that has proven very inconvenient as well as painful. During the course of the play, she was to be shot by one of the actors as part of the scene. The soft wax in the blank cartridge was expected to melt as it left the gun, but it did not and the wax struck Miss Pollard's ankle with great force, inflicting a wound. Luckily, the actor did not aim higher or ever worse results might have occurred. As it is, she is getting along nicely and very thankful it was no worse.

Frank Boedeker, who has been having some trouble with one of his feet, experienced so much pain and trouble that it was thought best to have the same amputated, which was done a short time since, at the Mayo Brothers hospital in Rochester, Minnesota. He is now reported as getting along fairly well.

Celebrated 69th Birthday

Stewart Rough was born on December 3, 1863, at New Albany, Indiana, during the Civil war, and after a few years there, the parents came to Lafayette, where Mr. Rough and the parents resided until he was 14 years of age, or in 1877, when they moved to Nebraska and settled near where the town of Nehawka is now located, although there was no Nehawka here then or any prospects of one.

It will be 55 years this coming spring, and in all these years, Mr. Rough has resided in this immediate locality. Here he was married and the children were born and grew to maturity. During the past 15 years, they have resided in town and with the children grown, they were able to see much of the country, taking many trips in the past ten years. Mr. and Mrs. Rough quietly celebrated the passing of his birthday on last Sunday at their home, being visited and greeted by their children and grandchildren. While they are both near the age of three score, ten, they are enjoying good health and the associations of their many friends.

Quarry Lively Place

The Olsen stone quarry is a lively place at this time, they having received an order for 16 car loads of stone, which put all of the twenty employees on their toes and working like beavers to get the order out on time. With the tractor outfit busy stripping the ground, the drillers at work and others loading the stone, it looks like an important industry for Nehawka. Still, all are hoping this initial order is just a beginning, for there will be a great deal of rock used by the government in river work during the next ten years, and inasmuch as the stone has met the federal requirements, it seems that the hope is about to be realized, and orders will follow orders as the riprap work progresses in the vicinity of Omaha and later further down stream to Kansas City. This is fine, as it provides employment at this time of year for many who would otherwise be out of work and assisting in maintaining the family budget.

Has Been Very Poorly

Chester Chappell, who has been afflicted with a number of boils during the past few months, has been unable to check the trouble, although he has seemingly done everything possible to try to bring about a cure and avoid further spread of the "Job's comforters." The more recent developments have indicated possible contamination of the blood and the

young man has been taken to a hospital in Omaha, where he is now being treated in the hope that his health may be restored and the blood stream cleared up.

Found Time Heavy on Hands

William Brandt and Eugene Fitch, of near Nehawka, were among those selected as jury veniremen for the present term of district court, being held in Plattsmouth, and so hustled up to get their corn picking out of the way. They appeared at the time of calling the jury, and after the selection of twelve men from among their number to hear the Daniels murder case, they were excused and permitted to return home, but as they had the corn out and nothing particular to do, they found time heavy on their hands and hardly knew what to do while awaiting recall and the prospect of being picked to hear some of the many other jury cases up for trial this month.

Received Fractured Nose

While Superintendent Stimbart, of the Nehawka schools, was engaged in practice with the basketball team, he was struck by a swiftly passed ball, which struck with such force as to cause a fracture of his nose. He immediately went to the office of Dr. Walters, where the injury was treated. Since that time, he has been getting along very nicely, although he would not relish a repetition of the accident.

WINTER

Old man winter has been prowling around; And taken his toll of plants a'ground. That bear their fruitage, some too late. To be garnered in, that early a date.

The rose that stood upright droops her head. The bud on the sprigs hangs by a thread. As old man winter his scythe sharp and keen. Enters the window and scuttles the screen.

The scythe was sharp and could not withstand. Clipping the brown maple so gorgeous and grand. The silva that blushed with colors so red. Now stands all limp with drooping head.

The oak did not escape his withering frown; For the earth is covered with leaves that are brown. To clear the wreckage we now have to take. That homely instrument, a common hand rake.

The old man winter will soon depart. To a land of flowers too late for a start. Then filled with dismay the people will stand. And view the wreckage of the old man's hand.

If winter prevails and murky skies overcast. And shadows of gloom seem determined to last. The cutting winds and lowering clouds. Block the truth, like funeral cdes and delirious shrouds. "T"
