Taxpayers' Meeting Held at Murray

Over 100 Residents of Central and Eastern Section of County in Attendance.

From Wednesday's Daily
Pursuant to a call made by George E. Nickles, state representative-elect, and Julius A. Pitz, commissioner-elect, a group of over 100 farmers and residents of the central and eastern portion of Cass county gathered at Murray last evening.

There were a large number of matters brought up by members of the group pertaining to the curtailment of governmental costs in the state and county and which was discussed at length.

One of the chief matters of the meeting was the question of road maintaining by the county which it was claimed took almost half of the county expenditures to serve the road system. The meeting was in favor of cutting this expenditure in half even if it did not permit roads as good as at present.

The question of the state and county fairs was also taken up and several expressed their support of moves to eliminate these for at least the present era of depression in order to reduce expenses.

The cost of the operation of the county farm bureau and county agent was taken up and discussed by those who were in favor of the elimination of the county agent during the present time.

The meeting also discussed expenditures that had been made in the conduct of the office of the county sheriff and other of the county offices, urging elimination of all unnecessary expense in all of the county offices.

The meeting was organized by the selection of a County Taxpayers Association with O. A. Davis as president and Everett Spangler as secretary, to carry on the work.

Mr. Nickles spoke on the state sales tax which has been adopted in the state of Mississippi, pointing out the chief features of the measure which has aided the southern state. The members of the group, however, seemed more favorable to a state income tax rather than the sales tax, several giving their views on this matter.

The sentiment of all of the members of the meeting was that the adoption of either an income or sales tax should not be made unless some other form of taxation was relieved, that they were not in favor of just another additional tax.
