4-H Banquet to Be Friday, 24th.
The county wide 4-H club banquet that was postponed on account of the bad weather will be held Friday evening, February 24th at 6:30, in Weeping Water. Max Finke, the boy with a thousand voices will be one of the features of the evening. Mr. Finke can impersonate any of the popular radio characters on the air.

Sewing Machine Clinics.
120 women are planning to take apart, reassemble and adjust their sewing machines the week of February 27th. Paul Hoff, extension engineer, will supervise the work.

Following is the schedule of the five clinics:
Monday, February 27th—Smith-Hughes Shop, Eagle.
Tuesday, February 28th—Congregational church, Weeping Water.
Wednesday, March 1st—Hall, Murock.
Thursday, March 2nd—Auditorium, Nehawka.
Friday, February 3rd—Union.
All machines are carried through the meeting at the same time so it is necessary for every machine to be on hand at 10:00 a. m. Others are welcome at the meeting and to get the most possible out of it should be present for the entire day. Those coming for the day should bring a covered dish and their own dishes.

Suggestions About Cleaning Upholstery.
When cleaning upholstered furniture, remember that there is a padding or filling under the upholstery which, if wet or water-soaked, will be difficult to dry thoroughly and it may become musty. It is best not to use strong chemicals as they can not be rinsed out well enough to insure against damage. Grease spots may be removed by sponging with carbon

tetrachloride. Wipe off any excess liquid and let the rest evaporate.
Spots which may be removed with water may be treated by wringing a cloth dry and sponging. Repeat the treatment but do not soak the fabric. Test for color fastness by sponging a hidden portion with a white cloth before removing the spot.
Leather covering dries out easily and may be rubbed with castor oil to restore it. Rub it well into the leather and wipe off any excess.
Water spots on velours or mohairs are caused by matting of the nap. Wring a cloth tightly out of clear water, lay it over the spot and lightly pass a warm iron over it. Be careful not to press down the nap. Brush the nap carefully with a stiff brush.

Seedling Trees Still Available.
Many people ask what per cent of those seedling trees will live. This could well be answered by two men that called at the Farm Bureau office last week. Ernest Pankonin of Manly reported he ordered 100 Russian Olive last year and all of them are living and doing nicely. Wm. Brandt of Nehawka, reports that 180 of the 200 Austrian Pine are living and made a good growth.
Under decent conditions 85% of these trees should live and grow.

Production Costs on Corn 25c per Bushel.
A summary of the records kept by twenty-five Cass county farmers on the costs of producing corn show that the average cost per bushel was 25c. One farmer produced 230 acres of corn at a cost of 15c per bushel while another produced 72 acres at a cost of 45c per bushel.
The charges made in the records included man and horse labor for manuring, stalk cutting, discing, plowing, harrowing, planting, listing, cultivating, weed cutting and husking. Man labor was charged at 20c per hour and horse labor at 9c per hour. Where tractors were used charges were made on the fuel consumption plus depreciation basis.

Don't send your money away if you want to see real prosperity in Cass county. Plattsmouth is the logical "big town" shopping point for every resident of the county.

Reach No Decision on Moratorium Bill

W. E. Barkley, Veteran Banker, Doubts of Value; Crocker Fears Refusal.

Lincoln, Neb., Feb. 21.—A puzzled judiciary committee of the house of representatives today conducted public hearings on Governor Bryan's moratorium bill, wondered what to do about the farm mortgage situation, and decided nothing.
Speaking against the moratorium was W. E. Barkley, veteran Lincoln banker, now president of the Joint Stock Land bank here. Speaking for the moratorium was F. C. Crocker, assistant secretary of the Nebraska Farmers' Holiday association and state manager of the Farmers' Mutual Life Insurance company of Des Moines—Milo Reno's company.
"I'm afraid this bill would result in more foreclosures, because many creditors would want to put the court in charge of their collections," said Mr. Barkley.

Half Borrowers Delinquent.
"I admit I don't know what to do about this situation. I'm open to conviction. I know that 55 per cent of our borrowers are delinquent now. I know 100 per cent of them will be if these prices continue. And I know in that case we'll be bankrupt. But we don't know how to run our own business these days."
"What can this legislature do to meet the situation?" asked Representative E. J. Dugan of Omaha.
"I don't know," said Barkley. "To my mind the only answer is inaction, and that can't be done locally. We're trying to carry all our borrowers now. We are giving them two years' time if they will give us the landlords' share of their crops. We are paying our borrowers twice the market price for the crops they apply on their loans, in order to let them make payments. One of our borrowers told us he couldn't get more than 11 cents for his corn. We paid him

22 cents, and applied it on his loan. We are doing that instead of scaling down.
"I don't know what else can be done except to try to hang on. We are all tied up together. If the farmer is broke, we are broke."
Effect on Credit Asked.
Crocker, who said he had been a farmer for 52 years before joining Reno's insurance organization, said he had been in close contact with farmers during recent months, and told the committee he feared for the future if the moratorium is refused.

"I tell you, gentlemen, I know the temper of the people," he said. "I wouldn't want to guarantee peaceful procedure in Nebraska if these foreclosures continue."
Under questioning he advanced the belief that some financial institutions are trying to acquire title to properties on which they hold mortgages, in the belief that inflation would soon restore fair values.
W. R. Johnson, republican floor leader, proposed an amendment providing that cases now under foreclosure, in which the original owner is occupying the premises during a nine months stay of execution, should be included in the bill. At present it applies only to cases in which no decree has been entered. The committee decided to consider the amendment Wednesday.
Representative W. H. O'Gara of Laurel raised the question of how the bill would affect the future credit of the state.—World-Herald.

GATHERED IN THE WOOD
From Monday's Daily
Yesterday was another one of those "busy days" at the Legion woodyard, southwest of town, with more than a score of workmen out. The day was ideal for such work and a lot of progress was made. The workers were provided with a hot mulligan stew at the noon hour by Comrade James Farnham, to which they did ample justice.
One important detail of the day's work was the trucking of a large quantity of the wood to town for distribution among the workers, disabled and widows of deceased veterans, as well as a supply placed in the bins at the Legion building.
Ray McMaken, who has responded to innumerable calls for being of assistance in Legion activities in the past and is one of the organization's most loyal supporters was out with one of his largest trucks and made three trips in during the day with great quantities of wood which were distributed about town, with Legion members aiding in the loading and unloading.
Bernard Rakow was also out with his light truck and made four trips to add considerable to the amount brought in during the day.
There is estimated to be enough timber on the tract purchased by the Legion to supply wood for all ex-service men willing to chop the same, not only the rest of this year, but the greater part of next fall and winter as well.

CAKE BAKING CONTEST

Members of the second year class of home economics at the high school, under the direction of their teacher, Miss Nordholm, engaged in a cake baking contest on Tuesday, making butter cakes, each using a different recipe. The cake baked by Miss Velma Wells was given first place by the judges who were Miss Beighley, Miss Ault and Miss Bly. Second place was awarded to Carolyn Heigl, and Mary Lindeman and Geraldine Griffin were given a tie for third place. The cakes baked by Lois Giles, Helen Sedlak, and Grace Welch were given honorable mention. The course in the home economics class is divided into various units of work, and this contest came at the close of the dinner unit. The recipe of the winning cake is as follows:

FUDGE CAKE
1 cup sugar
1/2 cup butter
1 egg
1/2 cup cold coffee
1/2 cup sour milk
1 teaspoon soda dissolved in coffee
3 tablespoons cocoa sifted with 1 1/2 cups flour.

HERRING FOR REPEAL VOTE

Des Moines.—Governor Herring announced he will ask the Iowa legislature within the present week to submit for an immediate popular vote in Iowa the proposal to repeal the prohibition amendment. "Now I think it is time for the Iowa legislature to comply with the platforms of both parties and take definite action at once on the prohibition question," the governor's statement said. "By that I mean that the proposition of repeal should be submitted to the vote of the people immediately. Within the present week I shall ask the legislature to provide the machinery for such a vote."
