Plan to Re-Open Bank

Officers and stockholders of the Bank of Union, which has been on a holiday for some time, held a meeting last Saturday, at which it was concluded to open the bank under the new law limiting business. Depositors have been signed up to withdraw not to exceed one per cent a month of their deposits, which will permit of an orderly collection by the bank of its loans, and the money from this source will be impounded in a special fund to pay off the deposits. It was generally agreed that there is nothing to be gained in closing the bank, which would be followed by attempts to collect in all frozen assets—an utter impossibility in these times. Besides acting as trustee for former depositors, the bank will accept new deposits, subject to withdrawal in whole or in part, and will go on conducting pretty much the same sort of banking business as in the past, except for the fact that loans are taboo and efforts along this line will be expended in collecting in present outstanding notes.

Visited Friends Here

Clarence Willis, her son, was over to Plattsmouth and the mother returned with him, visiting with her daughter and husband, Mr. and Mrs. Ray Becker, and then visiting at the home of her son, Clarence Willis and family. In the evening, Bert Willis drove down for the mother and they returned home that night.

Received Daughter with Joy

A little daughter came to the home of Mr. and Mrs. Bruce Wolfe and is surely making the home happy by her arrival. The mother and daughter are both doing fine and the father is getting along as well as could be expected. It is thought that he will finally get over the great joy.

Has Distressing Accident

Two months ago last Saturday, Mrs. Roy Yonker, while she was leaving the variety store at Nebraska City, slipped on the icy pavement and in her fall sustained a compound fracture of her leg and has since been compelled to remain in bed, although the injury was doing nicely and becoming knit together in fine shape.

On last Friday, the attending physician advised her that she might use the foot, and while she was attempting to walk with crutches, one of the crutches slipped throwing the entire weight of her body on the injured limb and with the result that the leg was broken in a new place. This is a most discouraging accident and means that Mrs. Yonker will have another long spell in bed.

RESOLUTION

WHEREAS, agriculture is still our basic industry; merchandise will be bought, factories will be running full time, construction work will go forward, railroad traffic will increase when farm products command a fair return.

WHEREAS, the business man and the farmer face the same problem, for until agricultural products bring a fair price there can be no permanent improvement elsewhere. Thousands of farmers cannot pay their interest and taxes.

WHEREAS, on account of this condition foreclosures are being brought against them at a time when it is impossible to meet their obligations.

WHEREAS, the prosperity of one is the prosperity of all; if the farmer fails then the business man fails, if agriculture is ruined then ruin comes to the cities and towns. AGRICULTURE IS THE FOUNDATION of our prosperity. For this reason the farmers of the nation have organized to obtain a moratorium on foreclosures until farm products will bring cost of production and farmers can meet their obligations.

WHEREAS, the farmer is not asking for anything unjust; all he wants is a chance to stay on his farm until conditions make it possible for him to meet his just obligations.

WHEREAS, these conditions being true, BE IT RESOLVED by the Myriad unit of the national Farm Holiday association that we ask and expect the co-operation of the people of Plattsmouth, the Rotary club, Chamber of Commerce, professional and business men to obtain needed legislation to relieve this condition.

BE IT FURTHER RESOLVED that we ask you to do everything in your power to discourage farm foreclosures and evictions where the individual is doing all in his power to honestly meet his obligations and cannot do so on account of conditions that were beyond his control.

Although Mr. Gilmore is not such a fine demonstrator on the cornet, he held the instrument to his lips, while James Hansen, of Omaha, who was behind the curtain, produced the music that seemed to be coming from Mr. Gilmore's instrument, and this stunt had all the people wondering how the bride, Mr. Gilmore, had acquired such extensive musical knowledge and ability.

THE DEPRESSION

The captains of industry are trying to find. Why their funds so needed are running behind, They read economics and listen with a thrill To profound theories and theses, and yet they sit still.

Greed and selfishness have produced a strain Of social conditions that are hard to explain, But call it what you may, technocracy or what, It is leveling down barriers that held to the spot.

The productive fields that were once cleared away, Are now covered with shrubs instead of hay, The quill and the grouse now nestle and play, Where the bramble is clothed in purple and gray.

Tons of paper and barrels of ink have been used, And disquisitions clever are being refused, State craft has apparently lost its way, So we will balance the budget some other day.

There is a tree of mammoth size, On Capitol Hill, and its fruit is a prize, The cost to maintain is a burden to all, However the fruit is about ripe and ready to fall.

Some are now holding their baskets ready to catch The first plum that strays from the glittering thatch, To gladden the heart of a real good friend, Who scored a victory and a political blend.

To end the depression there is only one way, Eliminate politics, greed, selfishness and don't delay, To execute justice to every man, Stop hoarding money and reach out while you can, And save the country from a downward trend, For the Master stands ready His help to lend. "T"

\$172 PAID FOR SOW

At the auction sale of the Harry M. Knabe farm at Nehawka Friday afternoon, a fall yearling Hampshire brood sow, weighing about 500 pounds brought \$172.50. It was said to be the highest price paid for a brood sow at any sale in this country this winter. Promoter Girl II, the top price sow, was a consistent winner at the fairs and stock shows last fall.

Yankee Rose, 825 pounds, said to be the largest Hampshire sow in the country was also sold. Both sows were purchased by the Pure Bred Hog Development Co., at Omaha. They were taken to West Point on the farm of Herman Toelle, where they will be used as breeding stock. Forty-five breeding sows were sold by Knabe at an average of \$48. An Omaha dealer declared that this was the highest average brought by any herd of swine this winter.

Those boys and girls can't do good work without proper equipment. Bates Book Store can supply every student need at the new low price levels.

VESPER SERVICE

Thru the kindness of their friends, Rev. C. O. Troy, R. B. Hayes, John Elliott, Walter Herger, Harry White and Frank Barkus, the Standard Bearers of the M. E. church were permitted to enjoy a fine vesper service Sunday afternoon, at Omaha.

The meeting was sponsored by the Omaha district Standard Bearers, and was held at the beautiful Pearl Memorial church at 24th and Ogden.

The main feature of the afternoon was the talk by Doctor Mary Shannon, president of Isabella Thoburn College, at Lucknow, India. A very attractive, cultural personality, herself, Dr. Shannon also had a very interesting subject. Her story of how the college was founded was an important part of her message. The portion telling of the characteristics of the girls of India, of the ten standards upheld by the college as principles to be attained by the students, and the details of their Sunday evening singing hymns were all deeply enjoyed by the large audience.

Afterwards, all were invited to meet Miss Shannon and enjoy a brief visit with her. Miss Mildred Daniel, of Omaha, the district Standard Bearer president was in charge of the service. The girls attending from the Plattsmouth group were Virginia Trively, Amy Elliott, Frances Lilly, Della and Naomi Day, Emma Mendenhall, Betty and Florence Rhodes, Sheila Covert, Kathryn Armstrong, Pearl Tompkins, Glendora Smalley, Wauneta Welsheimer, and Maymie Schwenniker.

DRY LEADER IS MILITANT

Chicago.—The W. C. T. U.'s treasurer, Mrs. Margaret C. Munns said when informed the national house had passed the senate repeal resolution that "we have just begun to fight."

"Win or lose, we'll go on fighting," she said. "Following the tactics of Marshal Fosh we'll fight for fifteen minutes after the battle is over."

"What if congress did vote for repeal? We'll fight every step of the way and we'll win in the end because our cause is just. It takes thirty-six states to ratify repeal." Mrs. Munns said ratification of repeal by the states is "not impossible" but went on to attribute the congressional action to "hysteria growing out of the depression."

CABINET SELECTION IS ILL

Washington.—Informed of the announcement of his appointment as secretary of state, Senator Cordell Hull said he was "mindful of the high honor and the great responsibility which this appointment carries." The Tennessee senator was sick in bed with a cold at his home when informed of the announcement of President-elect Roosevelt.

"I am mindful of the high honor and the great responsibility which this appointment carries," Hull said. "I hope to meet the responsibility with some degree of efficiency."
