**DALRYMPLE IS QUESTIONED**

Washington.—Calling A. V. Dalrymple, the prohibition director, to his office for a conference, Attorney General Cummings set out definitely on his investigation to determine whether racketeers are meddling with the beer business. The attorney general has focused his attention directly upon the New Jersey situation, where a well known gangster was revealed to have obtained a brewing permit and where five breweries have been cited to show cause why their licenses should not be revoked.

Dalrymple said he had been instructed to prepare memoranda both on the beer permit situation and his action in shifting of northern California prohibition administrators without the foreknowledge of the attorney general. It was indicated, meanwhile, that his demand that William G. Walker resign as administrator to be supplanted by John L. Considine, San Francisco newspaperman, might not go thru as planned.

**DRIVER LICENSE LAW LAX**

Omaha.—Fred Armbrust, deputy treasurer of Douglas county, Wednesday said Nebraska's existing laws relating to granting drivers' licenses make it possible for a blind man to get a permit to operate an auto. He said granting licenses to deaf persons is nothing new.

"The law does not call for a road test and leaves granting the license entirely to the discretion of the examining clerk," Armbrust said. "If a blind person should swear he could see, a license could be issued unless the clerk voluntarily gave him a test."

**MAKES HOLE IN ONE**

Fritz Fricke, well known druggist, has moved into that exclusive circle of golfers, a member of the "Hole in One" club. Friday afternoon Mr. Fricke with E. A. Wurl and E. H. Schulhof were out to enjoy a few rounds of golf and just prior to the approach to green No. 6, the conversation had been on the possibilities of a hole in one. Mr. Fricke shot and like a bullet the ball sped to the cup and the golfer was in the possession of one of the high honors of golfdom.

district vice president, Messrs. Geo. Bucknell and Joseph Kyles drove over in the evening to attend the banquet and bring the ladies home, following the close of the assembly.

**Victim of Accident**  
 While James Greer was working about the farm and was with the cattle, he opened a gate to allow them to pass through, when the animals got in a hurry and started a small stampede, running over Mr. Greer and injuring one of his legs by trampling on same. He was treated by Dr. Talcott, and while he is not as yet entirely well, he is able to be about and to come to town for treatment.

**Showing Slight Improvement**  
 Mrs. George Trunkenholz, who has been a sufferer from gall stones for some time, was taken to the hospital at Lincoln, where some days ago she underwent an operation for the removal of the stones and has been in a very critical condition at the Bryan Memorial hospital. During the past few days she has been showing slight improvement, but is still very critically ill.

**Suffers Severe Injury to Hand**  
 Ben Howard, who is manager of the Greenwood water and light system, while at his work at the water station, had the misfortune to have one of his hands badly mangled. He was lowering a pump into the well, after having made some repairs on the same, and was using a device to hold the pump, when it slipped and dropped with great force, catching his hand between the flange of the pump and the platform on which it rests. Although he had gloves on to protect his hand, the pump dropped with such force as to cut off a portion of the little finger of his right hand and badly mangle the one next to it. The glove was pulled off as he sought to withdraw his hand, and after it was released from under the pump flange a portion of the finger torn off was found in the glove.

Dr. Talcott gave first aid and took the patient to Lincoln, where

the operation removing the mangled portion of the small finger and the bruised one dressed was performed at the hospital.

The suffering was intense and while Mr. Howard stood the pain in heroic manner, it was thought best to administer anti-toxin to guard against any possibility of lock-jaw developing.

Mr. Howard is back home and while still suffering much pain, is doing as well as could be hoped for, under the circumstances.

**POISON in Your bowels!**

Poisons absorbed into the system from souring waste in the bowels, cause that dull, headachy, sluggish, bilious condition; coat the tongue; foul the breath; sap energy, strength and nerve-force. A little of Dr. Caldwell's Syrup Pepsin will clear up trouble like that, gently, harmlessly, in a hurry. The difference it will make in your feelings over night will prove its merit to you.

Dr. Caldwell studied constipation for over forty-seven years. This long experience enabled him to make his prescription just what men, women, old people and children need to make their bowels help themselves. Its natural, mild, thorough action and its pleasant taste commend it to everyone. That's why "Dr. Caldwell's Syrup Pepsin," as it is called, is the most popular laxative drugstore sells.
