Towl's Slate Gets Control at Omaha

Present Fire Commissioner Is Expected to Be Named as the Next Mayor.

Omaha.—Roy Towl, Omaha's present fire commissioner and a militant foe of the controlling faction of the council during the past two years, gained control of the seven-man commission in the city election.

With 198 of the city's 203 precincts officially reported, the independent voters league, headed by Towl, had elected five of its six men ticket.

Towl, Frank Frost, Harry Trustin, Frank Myers, and Harry Knudsen of the league were the men elected.

The "sensible six," however was successful in electing two of its six members. They were John Hopkins, police commissioner, and Dan Butler, former commissioner, who was returned to office with the highest vote of any of the winners. In total vote of any of the winners ranked in the following order: Butler, Frost, Trustin, Towl, Hopkins, Myers and Knudsen.

Dean Noyes, Joe Hummel and Arthur Westergard, incumbents, ran far down in the field of thirteen.

The new council at its initial meeting is expected to declare Roy Towl mayor of the city. He will succeed Richard L. Metcalfe who withdrew from the campaign after being renominated in the primary.

Weaver Seeks River Development Funds

At National Capital to Confer with His Old Classmate, Secretary of War Dern.

Washington, May 1.—Arthur J. Weaver, former governor of Nebraska, is expected to confer soon with Secretary of War Dern regarding development of the Missouri river for navigation north of Kansas City.

While the conference is expected to confer on navigation projects, the former Nebraska governor and the former Utah governor may devote some discussion to "old times" at the University of Nebraska, where Dern and Weaver were fraternity brothers.

Representative Edward R. Burke of Omaha will accompany Weaver on his visit to Secretary Dern.

Last week Weaver conferred with Secretary of the Interior Ickes, but declined to comment until "something definite has been determined."

New Funds Needed.

As president of the Missouri River Navigation association, Weaver is endeavoring to insure inclusion of Missouri river development projects in the administration's pending five billion dollar public works program.

It is understood at present that the president would be given authority to select projects under the public works program, and Weaver is anxious to have definite provision for the inland waterway projects approved by engineers for the Missouri river.

Funds are needed to deepen the channel of the Missouri from Kansas City north to Yankton, S. D., and to construct a reservoir at Fort Peck, Mont., where flood waters would be impounded to regulate the flow of water through the Missouri.

Says Midwest "Isolated."

Explaining the necessity for development of navigation on the Missouri river, Representative Burke has pointed out that cheap transportation through the Panama canal has virtually isolated midwest states. Grain can be shipped from Baltimore to the west coast, for example, at a lower rate than it would be shipped there from Omaha.

Leaders in the Missouri river project have been concerned over the prospect that construction work on inland waterways may be discontinued. Part of the unexpended public works funds provided by the last congress have been used by the administration to set up conservation camps for the unemployed, but they believed that sum will be paid back to public works in the new appropriation measure.—World-Herald.

MANY FLOATERS HERE

From Tuesday's Daily
 The city jail had one of the largest registrations of several weeks last night when the army of wanderers were sheltered there from the chill of the night and the privations of the road. A large number of the persons seeking shelter seemed to be members of the band of wandering youth, estimated at some 250,000 that are wandering over the nation, homeless and helpless. With the release of the group from the shelter of the jail they were wandering over the main part of the city seeking food of some kind.

A CARD OF THANKS

To the neighbors and friends for their lovely flowers and their many kindly acts, to the Woman's Relief Corps for their beautiful flag and to the musicians for their sweet and comforting music, I wish to express my appreciation and heartfelt thanks. —Mrs. W. H. Venner.
