Bryan Signs the Old Age Pension Bill

State Officers of Fraternal Order of Eagles Witness Signing of Bill Friday Afternoon

Governor Bryan signed S. F. 111, the old age pension bill, Friday afternoon in his room at the governor's mansion in the presence of a delegation of citizens that sponsored the measure and whose national organization, the Fraternal Order of Eagles, has labored for years for the enactment of a similar bill until they have seen it adopted in twenty-three states, Nebraska being the latest.

Those witnessing the signature of the governor on behalf of the state organization of Eagles were State President M. L. Killian, Fullerton; State Secretary Frank A. Matthews, Omaha; state committee on old age pension, Judge C. W. Britt of Omaha, chairman, Andrew F. Moran, Nebraska City; Vernon W. Pope, York; Charles L. Meyers, Lincoln; Ernest Hahn of Fremont; William M. Barclay of Plattsmouth.

Governor Bryan talked enthusiastically of the bill, stating that he had long fought for such a measure and expressing the belief that the people of Nebraska should be grateful to the legislature for its passage and thanked the committee on old age pension for its activity on behalf of the bill. The delegation, with Secretary Porterfield, representing the governor, posed for a group photograph on the porch of the mansion. Judge Britt of Omaha said that every effort had been made to put teeth in the bill so that persons not deserving should not become eligible to an old age pension in Nebraska. In other states where costs of pensions are mounting high, ineligible are being weeded out of the list.

The bill is an experiment and having been somewhat badly patched with amendments, may have to be corrected by future legislatures some of its sponsors say. The act is not to become a law until Aug. 10.

As amended one must be 65 years of age to be eligible to a pension. The monthly maximum pension is \$20. Every adult in the state must pay an annual tax of fifty cents to be levied by the county board. No other tax is to be imposed. If this sum is not sufficient to pay pensioners on the list the fund will be prorated. As there will be no funds on hand in most county general funds to pay until the county board assesses the fifty cent levy, it is not likely a pension can be paid anyone until next year.

A commission of five appointed by the county board is to serve as a pension commission without pay. This commission is authorized also to receive donations in trust for the pension fund of a county.

Pension money due a pensioner shall not be subject to assignment, attachment, execution or otherwise. Applicants for pension must apply in writing to the county old age pension commission, and the commission shall fix the amount to be granted, not exceeding \$20 a month. The applicant must be 65, a citizen of the United States for fifteen years and a citizen of the state for fifteen years, but occasional absences from the state for a total period of three years shall be permitted, and absence in the service of the state or the United States shall not be considered.

Twenty-five years residence in the state, five years immediately preceding application having been spent in the state, makes one eligible. No one having a child or other relative charged by law with support of the applicant, shall be eligible. Those having an income of more than \$300 are not eligible.

RIFT SEEN IN PARIS RULE

Paris.—The life of the French government may soon be at stake in the fight between Premier Daladier and former Premier Herriot over war debts payments to the United States. A wide breach between them, their partisans said, has been caused by M. Herriot's insistence that France pay the \$19,000,000 interest overdue since Dec. 15 and the refusal of M. Daladier and the cabinet to do so under present circumstances.

Daladier, goaded by the Herriot resistance, now is represented in some quarters as willing to default the June 15 payment as the easiest means of avoiding being caught between Herriot's popularity and the chamber's stubbornness.

Appraisers to Pass on Land for Road Purposes

State Highway Department and E. E. Leach of Union, Unable to Agree on Price of Land.

From Saturday's Daily. This morning in the county court action was taken on the application of the state highway department for the appointment of appraisers to adjust the price of land condemned for road purposes near Union.

This land is the property of Edward E. Leach and wife, Jessie D. Leach, adjoining Union on the east. The construction of the new paving made necessary the securing of additional land to widen the road and make it safer to the motorists at the intersection of No. 24 and highway No. 75. The grading has left the property of Mr. Leach considerably above the level of the highway and makes it impossible to get in and out of his driveway.

Acting on the application of the state department Judge A. H. Duxbury named as the appraisers in the matter C. R. Troop of this city, O. A. Davis of Murray and Henry Knabe of Nehawka.

HOARDERS CLING TO GOLD

Washington.—Gold hoarders paid little heed to the government's threat of prosecution last week when only \$6,564,000 in gold was turned in. Since March 8, when President Roosevelt stopped the use of gold as a circulating medium, \$758,595,000 has been returned to federal reserve banks, making their total gold reserves reach \$3,442,134,000. For several weeks after the president's action gold poured into the treasury in huge amounts, and again, after his executive order in April setting May 1 as the final date for returning the metal under penalty of a \$10,000 fine and ten years' imprisonment, it was returned in sizeable quantities.

The increases recorded in the weekly report of the federal reserve board also showed that the money in circulation continued to decrease as additional banks reopened. On May 10 the total amounted to \$5,892,000,000, a drop of \$1,646,000,000 since March 8. The amount of federal reserve notes in circulation decreased \$45,616,000 to \$3,249,753,000 in the week, bringing the total drop since March 8 to \$865,247,000. As the circulation decreased the gold back of the notes increased from \$2,727,604,000 last week to \$2,764,392,000 on Wednesday and brought the ratio of gold to federal reserve notes in actual circulation to 82 percent.

The circulation of the new reserve bank notes increased \$6,746,000 to a total of \$62,805,000. The amount of these notes in circulation in midwestern districts was: Chicago, \$13,211,000; Minneapolis, \$401,000, and Kansas City, \$441,000.

A. O. U. W. MAY TURN MUTUAL

Grand Island.—Debate over a proposed change of the A. O. U. W. organization from a fraternal to a mutual insurance group occupied the greater part of the time Tuesday afternoon at the organization's biennial grand lodge session here. The matter was made a special order of business for 11 a. m. Wednesday. From the discussion it appeared that the present trend of opinion favors a change to the mutual form.

The auditor's report revealed a balance of \$1,443,994 and total disbursements last year of \$813,317. The report of the auditing committee was adopted by unanimous vote. H. L. Fletcher was re-elected grand master. Election of other officers will be held Wednesday.

R. Kettelhut, one of the well known residents of near Nehawka, was in the city Thursday and while here was a caller at the Journal office to renew his subscription.

GIVEN SURPRISE DINNER

A very pleasant surprise dinner was tendered Mr. and Mrs. L. B. Appleman of Alvo, Nebr., when twenty of his relatives gathered at his home Sunday, May 7th to commemorate his seventieth birthday.

Mrs. L. B. Appleman, the hostess, served a bounteous dinner. The banquet table, which is a family heirloom, and has greater stretching possibilities than most tables today, was stretched out to eighteen feet in length across the spacious Appleman dining room. A white linen banquet cloth was spread and the table set with haviland china, silver and iridescent crystal and cut glass. At either end of the table was a twenty-four inch pink candle tied with a bow of green and pink tulle. In the center of the table a huge birthday cake with seventy little pink candles, stood high on a crystal cake stand. The dinner consisted of:

- Fresh Fruit Cup Ripe Olives Sweet Pickle Relish Hot Parker House Rolls Concord Grape Jelly - Butter Roast Chicken - Dressing Mashed Potatoes Cauliflower with Drawn Butter Creamed Fresh Garden Asparagus Comination Fresh Vegetable Salad, Italian Style Roquefort and American Cheese Salties Coffee and Cream

The piece de resistance was the huge angel food birthday cake, baked by Mrs. W. V. Byers, decorated with white icing and pink rosebuds. The 70 candles were lighted by the host at the completion of the main course. As the candles burned brightly several telegrams and messages from absent members of the family were read. At this point Mr. Appleman was presented with many lovely and useful gifts. The candles were extinguished as the host cut the cake into forty slices. Mr. Harry Appleman served twenty crystal glasses filled with delicious ice cream which he himself had made for the occasion. This completed the dinner, the rest of the afternoon being spent in recalling old days and happy reminiscences of the children spent with their Uncle Ben.

Those present were Mr. and Mrs. P. I. Appleman, Atlantic, Ia.; Mr. and Mrs. H. R. Appleman, Alvo, Nebr.; Mr. Charles Appleman, Alvo; Billy Williams, Jr., Atlantic, Iowa; Mr. and Mrs. Charles Burt, Greenfield, Iowa; Mr. and Mrs. Farley Young, Lincoln, Nebr.; Mr. and Mrs. R. C. Red Ball Highway to Receive New Surfacing

Highway from Murray to Eagle to Be Regraveled as Well as the Eagle-Murdock Roadway

The Red Ball highway from Murray west to Eagle is to be resurfaced this season, the state highway department announces, and has called for bids for the fifteen and two-tenths miles of the highway. This will place the highway in the best of shape for the season as the gravel has worked off a great deal in many places on the roadway.

The state is also to regravel the six miles of highway from Eagle to Murdock and which will be let at the same time that the Murray project is taken up.

The bids are to be opened on June 1st at the office of the state highway department and which will allow the work to be carried out as soon as possible.

This will give the county a fine surfaced road across the center of the county which the resurfacing will put in good shape for an all season highway until such time that it may be paved.

THE AFTERMATH

An Injun sprawled in a time-worn sedan Tanking up on the now legal beer;

He'd left his wigwam away out at Cheyenne, And was quaffing the brown liquid cheer.

He drank to his friends in his far off home As he chortled in glee with pride, With his face sunk deep in the flowing foam From a tankard on hand at his side.

His voice went up as the "suds" went down; Soon he warbled a glad roundelay Of his fame as a warrior in his home town, And of deeds he'd performed in his day.

His jargon got mixed—his tones fainter grew As his toga about him he furled; Till the potent fumes of the amber brew Left him stark and "dead to the world."

Came the morn—with the dull pangs of remorse That deep down in his vitals sank, As they brought to his mind in fullest force A memory of "bowls" he drank.

He searched his clothes for a dinky "thin dime" To purchase just one "pony" drink— But he'd squandered his all on a "high old time"— And it left Mr. Lo "on the blink."

He was plumb out of wampum —likewise out of gas— Afar from his loved native wild; He yearned for his home—but alas and alas, He was helpless and meek as a child.

So the boys filled the tank of his empty sedan, And after a brief spell of rest, They started him off on the road to Cheyenne— To his wigwam and home in the West. "K"

KANSAS WHEAT CROP SMALL

Topeka.—Altho conditions improved slightly in the last month, Kansas, the county's chief wheat producing state, faces the prospect of the smallest crop in more than a dozen years and one that promises to be less than one-fourth of its record harvest in 1931. A winter crop of 58,486,000 bushels has been forecast by the federal and state agricultural departments, on the basis of a crop condition rated at only 55 percent of normal as of May 1 and abandonment of 48 percent of the acreage sown last fall. The two western tiers of counties and most of those in the southwestern portion of the state are not expected to produce enough wheat to plant a new crop.

FARMER SHOTS DAUGHTERS

El Reno, Okla.—Apparently angered because his two young daughters went motoring with two youths, Ed Etheridge, Canadian county farmer, shot the girls and then killed himself. Bernice, 12, was killed and Elinor, 13, was wounded dangerously. The boys were not harmed. The girls were shot at the corner of a cemetery at the northeast edge of El Reno after they had alighted from the boys' car and started to walk toward home.

FORD SELLS HIS INTEREST

New York.—The sale by the Ford Motor company of its interest in the Universal Credit corporation to the Commercial Investment Trust corporation was completed with the signing of contracts, according to a joint announcement by Henry Ford and Henry Littleton, president of Commercial Investment. The Ford company, it was stated, will receive approximately 30 millions for its interest. The Universal corporation for several years has been the financing organization of the Fords.

"The reason we are selling the finance company is very simple," Ford said in the announcement. "We are essentially manufacturers and the finance company is essentially a banking business. We want to separate the two."

RESUMES OPERATIONS

The good news that the Independent Crushed Stone Co., of Weeping Water, had resumed operations for a good long time, was good news not only the some 25 men who are working full time, but also to the citizens of Weeping Water who have no direct interest in the quarries. When more men are working at good wages, we all prosper, and more money is in circulation for us all to spend. It makes a great deal of difference when a payroll of several hundred dollars is coming into the community each week or if it is cut off.

The men are busy getting out crushed stone for a large paving contract and several carloads of crushed stone are moving out every day. We are hoping and praying that the weather man will give us a good deal from now on and let us have some good weather in which the men can get a good lick at their work. Many have been out of work for several months, only for a few days now and then, and this news is certainly welcomed by them.

M. T. Koop and Clyde Fitzpatrick, directors of the operations at the plant, are very optimistic as to the length of the contracts and are looking forward to a full summer of work. We are pulling for the boys and hope that they continue to get orders to keep their men busy the full time, or better yet, that they must put on a night force and work a full 24 hour day.—Weeping Water Republican.

HAVE FIGHT OVER CHILDREN

Grand Island.—G. Mead, 36, of Omaha, was arrested by city and county authorities and taken to Greeley to be held pending the outcome of injuries suffered by E. E. Hall, 45, farmer a mile and a half southwest of Spalding.

Sheriff Sanders said he apprehended Mead after receiving a description of an automobile telephoned by Acting Sheriff Scott of Greeley county. Sanders said Hall was injured severely in a fight, with the left side of his face caved in and his scalp lacerated. The injured man was treated at Greeley.

Mead's story, Sanders said, was that he and Mrs. Mead went to the Hall place Wednesday morning. Hall and Mrs. Mead were divorced about six years ago. The Meads went there to get the son and daughter of Hall and Mrs. Meade, who had been staying with Hall for several months.

Hall, Mead told the officer, attacked Mrs. Mead when she went into the house to get the children's clothing, and Mead, attracted by her screams, went to her rescue. Mead claimed Hall struck him with a corn knife, cutting a gash in his scalp, and struck Mrs. Mead with a hammer.

Mrs. Mead told authorities she was given custody of the children. After the affray, the officers said, the Meads left the son, Jack, 12, in Spalding, and kept Peggy Joyce, 10, with them. Mrs. Mead told authorities she would send juvenile officers after the boy.

REAL DEPRESSION PARTY

On Thursday evening, April 4, a real friendly hard times depression party was given at the farm home of Mr. and Mrs. James Tigner, who are now living on the old George Rhoden farm west of Mynard, where they have resided for the past year, and this party gathering was given in honor of the first year in this home.

The whole affair was a complete surprise to Mr. and Mrs. Tigner, and there were about forty-five friends and neighbors who came with well filled baskets with not a sign of depression times in a single basket, but their costumes represented real hard times.

After an evening of pleasure at cards and various other games, about midnight these baskets were spread before the guests, and the good eats contained in these baskets proved the feature of the evening. Prizes were offered at the card games, which were won by Mrs. John Blotzer, first ladies, and Dan Hoosier, first gents. Bernard Meisinger captured the booby number. There were a number of real costumes for the occasion, and were in keeping with the long days of depression, but a few hours of much pleasure to all.
