Paving Going Forward
The paving on the O street road is making good progress and has been completed to the railroad track from the west, while the "Y's" connecting with U. S. 75 east of town were put in Tuesday. The work of completing the paving from that point to the railroad tracks and thus finishing up the entire job is expected to be completed this week, and after a comparatively short length of time allowed for curing the entire new paved stretch extending westward past the Nehawka corner will be opened to traffic. It will be a great relief to do away with the detours that have been necessary during the time the grading, bridge building and paving work was in progress. An additional force of men is busy grading up the shoulders.

Surveying parties are now at work on the road from the end of this new pavement near the Pollard Bros. farms, to Eagle, and it is expected that work will soon be ordered done on this stretch, giving a continuous

Dollar Wheat
Coming, Declares
Senator Capper

Commodity Prices, Employment and Wages Continue to Rise—Praises Wallace.

New York, June 20.—Senator Arthur Capper of Kansas looks for dollar wheat by the end of 1933.

Cheerfulness about the future was the keynote of an interview given yesterday by the republican senator, a veteran in the fight for remedial farm legislation.

He said commodity prices should continue to rise, thru increasing employment and wages. Wheat that sold at 30 cents a bushel last year at this time now sells around 60 cents, and he said that by the end of the year it will yield the farmer \$1.

Asked whether the latest farm legislation, with its bonuses for acreage curtailment, would work, he said:

"I think that in the hands of Secretary Wallace, a high class man, and the ablest agricultural economist we have in the west, that it is bound to work."

He said that "this country goes up or down as agriculture goes, and increased purchasing power on the part of the farmer will be reflected almost immediately in all branches of business."

Of the recovery program put through the recent session of congress, he said:

"As I see it, the congress has joined with the president in a supreme effort to save the government, perhaps to save a civilization. To do that, we have been obliged to experiment, and to experiment on a huge scale. This huge experiment in national planning, national teamwork, national control of individuals and businesses, does not mean that we have ignored the lessons of history. To me it means a concerted attempt to profit from the lessons of history."

Mr. and Mrs. Burr Davis, of Wayne, Nebraska, were here Sunday at the John S. Vallery home west of Mynard. Mrs. Davis was formerly Miss Mary Ellen Vallery, daughter of Mr. and Mrs. Vallery. Mr. Davis is now engaged in the practice of law at Wayne, where his father, the late Judge Davis, was long a prominent member of the bar.

One daughter, Mrs. Pearllette Cox of Angus, by this marriage by this marriage survives the passing of the mother. In 1885 Mrs. Lowe was married to Charles Reid, who preceded her in death in 1893. Their surviving children are Alva Reid, Mrs. Lola Crawford and Mrs. Mona Hall, all of Elmwood. There are also ten grandchildren and fourteen great grandchildren. The deceased lady was active in the affairs of the Christian church of which she had been a member since 1896.

INJURED IN "FAIR" CONDITION

Mrs. O. L. Bailor and daughter, Edith, 13, who were injured in the train-auto crash at Murray Sunday night, are reported in "fair" condition at the University hospital at Omaha.

Mrs. Bailor is the most severely injured of the two, her right leg being fractured and she severely cut and bruised. It is thought that Mrs. Bailor may have sustained internal injuries as well. The daughter was severely cut and bruised about the face.

The injured women were visited Monday by relatives and friends from Geneva, among them the friends that had visited at the Bailor home just before the ill-fated party started Sunday for Port Crook, only to meet death at the Murray crossing.
