NEW DIRECTORY NEEDED BY IMPROVED CONDITIONS

Most of these orders are from the rural sections, indicating the great need for telephone service to the farmer on account of the increased farm commodities.

Service charges are waived on all changes and installations during this period from June 15th to July 15th inclusive and many are taking advantage of this offer.

The Plattsmouth Journal has the order for the printing of the new telephone directories and all corrections, changes and additions should be reported to the telephone company before July 15th. The cover of the directory this time will be green, printed in black which makes a clear and very attractive book.
