Way to Man's  
Heart is Still  
Thru Stomach

Men may be fickle, and men may be romantic, but the real way to a man's heart continues to be thru his stomach, just as it was in Grandmother's day. At least Mary Oden believes this is true, and we have no reason to doubt her word, since this paper published her wedding announcement just one year ago.

"It was a simple matter, really," says Mary. "I knew 'My Man' the minute I saw him, and I deliberately started out to get him. Brother helped by asking Tom over for dinner, and then I let VICTOR FLOUR do the rest. When I saw Tom reach for the fourth slice of my bread, made from VICTOR FLOUR, I knew it wouldn't take long, for no man can resist such delicious baking results. Now, I joke with Tom about his weakness for Victor Flour baking, but you can be assured I'm not taking any chances by changing. Besides, it's really cheaper, because I get more loaves per sack of Victor Flour, it stays moist longer, and I need never worry about baking failures."

Victor Flour is made by The Crete Mills, Crete, Nebraska, millers of Victor Flour since 1869. In Plattsmouth you can buy Victor Flour at all better grocers.

## MAKE WAGE INCREASE

The Ash Grove cement company employees at Louisville, were pleased to read this week the news that the company in support of the New Deal and confidence in the future was making a wage increase. The company in the past year had made reductions in force and wages but now in the face of the steady advance of the country from the depression are going to do their part by advancing wages of the plant employees and those engaged in the quarry work at Louisville.

This is a matter that has brought a great deal of pleasure to the residents of Louisville and will mean a great deal to the workers at the cement plant.

Weeding Out of  
Many Employees  
in Departments

Payrolls in Various Departments Being Lightened as Heads Drop Off in Economy Drive.

Washington—The administration's economy program already has removed more than 4,000 government employees from the payrolls and hundreds more face imminent dismissal. This was shown in a survey of the departments which so far have completed their retrenchment plans. Just what the final total will be no one would estimate. On the other hand, hundreds of workers are being taken on by the emergency agencies set up by congress to root out the depression. Dismissed employees are hopeful President Roosevelt will decide that they are the ones to be chosen for the new positions. No word has come from the white house, but the agricultural adjustment administration has announced that so far as possible civil service lists will be used in building up its staff.

The largest reductions in personnel have been made by the prohibition bureau, which let out 1,300 enlisted men and 140 warrant officers of the coast guard. The administration's plan is to spend 1 billion dollars less this fiscal year in running the government plant. Among those being dropped from the service to keep expenses down are employees of thirty years or more service, married persons whose husbands or wives also hold government positions, and those who worked in bureaus being abolished or consolidated. Salaries of all employees, high and low, have been cut 15 percent, and indications are that this reduction will be continued until Jan. 1 at least. The slash was based on living costs.

These are some of the personnel reductions made so far: State department, 395; justice (including prohibition bureau) 1,635; treasury, 2,950; commerce, 626; interior, 97; navy, 600; agriculture, 656. Further cuts are in prospect in some of these departments. Dismissal plans of the postoffice, agriculture and commerce departments are not complete. Approximately 300 workers in the bureau of agricultural economics have been given an indefinite furlough.

The interstate commerce commission has given a ninety-day furlough to 613 employees, with the understanding that as many as possible will be taken back if some means are found. The navy also is considering whether to dismiss 4,700 ship yards employees. Every effort is being made by the war department to retain its entire personnel thru the application of a rotative furlough system. No definite decision has been reached. The labor department has let only four go, but many others probably will go when the naturalization and immigration bureaus are consolidated, probably in August. Among the independent offices the federal trade commission has dismissed 47, the tariff commission, 17, and the radio commission 10.—State Journal.

TO FINISH RIVER CHANNEL

Omaha.—Authorization of the expenditure of \$50,000,000 out of the federal river and harbor fund for completing the Missouri river navigation six-foot channel project to Sioux City, employing 25,000 men, will be forthcoming from President Roosevelt within the next few days, former Governor Weaver said here. He has just returned from Washington where he has been for the past nine weeks on behalf of the project.

Plans are complete, he said, and work should begin within thirty days. He predicted favorable action would follow also on the proposed Fort Peck, Mont., reservoir which would provide an all-time nine-foot channel at low water, as soon as specification are fully drawn up.

## Weeping Water

Albert Bornemeier of near Murdock was a business visitor in Weeping Water on the Fourth and was doing some trading with the merchants.

Edward Clayton and wife and Mr. and Mrs. Bottes were over to Plattsmouth on the Fourth where they were enjoying visiting with their friends for the day.

Francis Baldwin, who was employed on the freight hauling stone, has been returned to his former position, that of work on the passenger train and thus leaving the position for another on the freight train.

Mr. and Mrs. W. L. Hobson of the Century of Progress at Chicago and where they enjoyed every minute of their stay, returned home early this week.

Grandmother M. J. Metcalf who has been confined to her home and bed for many weeks, is still not able to get out, but she enjoyed the Fourth of July as it brought her many old time friends to speak a cheery word and utter a wish for her happiness and pleasure.

Dr. W. F. Kruse who was stricken last week and who has been at the home of his daughter since, still remains in a very serious condition. Everything possible is being done for this veteran healer and who has done so much to alleviate the suffering of the many members of his clientele, but he still remains quite poorly.

Quarry Will Open Soon.  
What is known as the Quarry No. 1 will soon open for the production of stone and stripping of the dirt has been going on for some time and the stone is now uncovered so that work in large production can be started and pushed so as to deliver large quantities of stone. With this there will be more need for work and will provide employment for those who are needing it.

Still Getting Out Stone.  
The Ole Olsen stone quarry is still going after the proposition of getting out stone for the sugar factories and this is giving employment to a number of people and thus assisting in the return of prosperity. All of these propositions which employ numbers of men are to be encouraged.

Back to Work Again.  
Chris J. Elgaard and wife, formerly Pauline Rehmeier who following their wedding at Omaha went to Chicago where they spent a week at the Century of Progress, returned and are settled at home making and housekeeping at Weeping Water and also Chris is back to the store which looked lost without him.

Receive New Uniforms.  
Wm. Van Every, manager of the Handy Oil station and who is sure a good man for the position, and his able assistant, Wm. Moore, have both received new uniforms which are a nifty gray with a light stripe therein and which makes a most tasty costume and distinguishes them as courteous attendants of this popular service station.

Fourth at Rock Bluffs.  
A party of the younger of the young men of Weeping Water were spending the Fourth at Rock Bluffs, that historic town of more than fifty years ago, they going there to fish and swim and enjoy the day at its best. Those in the party were Morris Kivitt, Walter Rasmussen, Russell Van Every, W. E. Maxfield and brother. It is putting it mildly when you say they had an excellent time.

Oscar and Wife Home.  
Oscar Upperman, the printer in the Republican office and his bonnie bride, formerly Miss Wiles, who were united in marriage some weeks ago, and who were out to the mountains for a two week's stay, returned home last week and are now keeping house and Mr. Upperman is again at work at the office.

Now at Harness Business.  
H. G. Abrahams, a veteran harness maker and who is well known in Weeping Water, is now associated with L. Askew, the shoemaker. Mr. Abrahams is doing the harness work at the shop and they making an excellent pair.

Grandmother Laurensen Dies.  
Grandmother Laurensen, who was born in Denmark on December 17, 1848, coming to this country when eighteen years of age, and stopping in Illinois, where she remained for some eight years, passed away on Thursday of last week.

She was united in marriage in Illinois in 1874 to Chris Laurensen, her maiden name being Graves. They

came to Nebraska in 1884. At the time of her passing she was 84 years, 7 months and 12 days old.

Mrs. Laurensen, who was better known as Grandmother Laurensen, early joined the Danish Lutheran church and ever maintained her church relationship and a devoted followed of the meek and lowly Nazarene. There were seven children born to this union, all of whom survive her, they being Anna of Wabash; Jane, on a farm; Edward of Weeping Water, manager of the Farmers Elevator and Farmers Union Co.; Mrs. A. J. Patterson of Weeping Water; Lois Laurensen and Eleanor Copple of Lincoln.

Mrs. Laurensen had not been in the best of health for the past year. The husband passed away in 1916, seventeen years ago.

The funeral was held at the Congregational church and the services conducted by the Rev. Ralph Pinkham, the Hobson funeral home serving and the interment being at the Oakwood cemetery.

Business Houses Close for 4th  
The entire business portion of the city of Weeping Water was closed for the afternoon of the Fourth of July, that all might have an opportunity to celebrate the national birthday, some went one place, some another, and many remaining at home. During the evening there was a dance given by the Johnson brothers.

OMAHANS MAKE RIVER TRIP  
Kansas City.—After a voyage down the Missouri river on a flatboat of their own construction, four Omaha youths were visitors here. "We had rough water part of the trip," Don Peterson, 21, commander of the Omaha crew said. "The river was rising and loosening a lot of driftwood. The sand flies were our worst troubles. We had to keep covered with cheesecloth about half the time to protect ourselves against the flies." The other members of the crew were, Robert Hoilingsworth, 15, Carl Hultman, 16, and James Moise, 16. They left Omaha June 20. Their trip was sponsored by the Omaha grain exchange.
