Bryan Awaits U. S. Approval of Road Plans

Says Nebraska Has Submitted Program—Callers Pleased by Work Submitted.

Lincoln, July 9.—Governor Charles W. Bryan Sunday night said the state's tentative plans for the emergency road building program in Nebraska had been submitted to federal authorities and he hoped soon to be

able to announce the projects included.
"I hesitate," Bryan said, "to announce anything until the state program has been accepted at Washington. It would cause much confusion if we announced our recommendations and then were asked by federal officials to change part of the program."

The governor said, however, that due to the large number of delegations which have been coming to Lincoln to see him, he might make some tentative announcements before final approval is given the state program at Washington.
Bryan said he received five tele-

grams Saturday and two Sunday from South Sioux City appealing for a program there which would put their unemployed to work quickly. Paving of Highway 77 from Dakota City south to Homer particularly was urged.
