You carry a spare tire and spare tube—why not a kit of spare lamp bulbs, too? Don't risk an arrest or an accident when a kit takes up so little room and bulbs are replaced with so little trouble.

MURRAY GARAGE A. D. BAKKE, Prop.

Murray

Wm. Vest was a visitor in Plattsmouth last Monday, called there to look after some business matters.

A Fable for NRA Members. The people who lived in a certain village, having occasion to hold a feast in honor of one of their number who had returned from another country after a long absence, and all of them being without great wealth, agreed among themselves that each should bring a bottle of wine which he might pour into a large cask which had been provided.

One, thinking to save his wine for his own use, said to himself: "If I fill my bottle with water and empty it with the others, it will not be observed."

But behold, when the village assembled and when the time arrived that the wine should be drawn off, only water flowed forth from the cask.

All the people had acted with the same thought, each one saying to himself: "Lo, my contribution will not be missed."—Anonymous.

Hears Mother Had Died. Mr. and Mrs. L. A. Webber received the sad news of the very serious illness of his mother, Mrs. Catherine Webber of Independence, Iowa and with the wife hastened to the bedside of the mother. The mother was so ill that she scarcely recognized the son and wife and soon passed away.

Wheat Production AND Acreage Statements

of Members of the Wheat Production Control Association of Cass county, State of Nebraska.

The following is a statement of the production and planted acreages of wheat for the years 1920-1931 and 1932 and planted acreage for 1933 of producers of Plattsmouth and Eight Mile Grove precincts who have submitted applications for farm allotments. This publication is made in compliance with the regulations of the Agricultural Adjustment Administration. It is made so that a check may be made on all statements claims, and so that reports may be made to the county Wheat Production Control Association on any inaccuracies which may appear in the statements.

The allotment for this county has been definitely calculated from official records of the United States Department of Agriculture, and is— bushels. This is the total allotment for the county. Therefore, if any farmer receives a greater allotment than his past production warrants, he is thus depriving other farmers in this county of their just share.

Total production figures of those who apply for contracts, together with reports of those who do not, consistent with the official county production as shown by the records of the United States Department of Agriculture. If the county totals are greater than the official totals, it will be necessary to make a downward adjustment.

Any person may make a confidential report if he finds any statement here which he believes to be inaccurate. Such reports should be made to the community or county Allotment Committee by October 5th, either in writing or verbally. The reports will be strictly confidential. A farmer whose statements are said to be inaccurate will need to prove his production figures.

Farmers have been asked to furnish evidence of production and evidence of sale, such as threshermen's certificates, elevator certificates, or other records and receipts. Satisfactory evidence will be required of any farmer whose statement is questioned.

The following statements have been condensed to save space. "A" represents acres planted and "bu." represents bushels harvested. The "3-year average" represents the 3-year average acreage and production of 1930-32. Farmers should refer to questions regarding this publication to their Community Committee or the County Allotment Committee. (Signed)

EVAN H. ARMSTRONG, Chairman County Allotment Committee HENRY RAGOSS WM. RUEPPEL
