Plattsmouth is to be congratulated upon possessing this model plant for the manufacture of quality butter. This creamery is operated under the inspection of the pure food department. It has always had a high rating for cleanliness and sanitary conditions as well as in quality of the famous butter manufactured.

This is a home-owned institution and one worthy of your support, whether you are a purchaser of butter or a seller of cream—and they pay the highest prices. They are interested in the citizens of Plattsmouth and the surrounding territory and provide a first class market for pure cream.

The Plattsmouth Produce will con-

sider it a special favor if you will specify their butter and dairy products in making a purchase and you will also be assured of the highest quality product at a reasonable price. Take no chance, but ask for their creamery butter.

One pound of "Casco" butter produces as much energy as nearly four dozen eggs, 14 times as much as a pound of peas, 11 times as much as a pound of fish, 4 1/2 times as much as chicken, and 3 1/2 times as much as one pound of porterhouse steak.

Cass County Sunday School Convention Held

Meeting Held at Methodist Church at Eagle Draws Many from All Parts of Cass County.

The Cass county association of the Nebraska Council of Christian Education held their annual meeting at Eagle on Tuesday, the sessions being held in the Methodist church at that place.

The sessions were presided over by Judge A. H. Duxbury, the county president, and a most interesting program was arranged for the day, covering many fine talks and musical offerings.

The convention was opened with the inspirational service which was led by C. A. Rawls of this city, one of the long active leaders in the Sunday school work of the county.

The speaker at the morning and evening sessions was Rev. John C. White, of the state association, who gave fine inspiration to the convention in the program for the ensuing year.

During the afternoon and evening sessions the Eagle high school glee club was heard in several numbers while their director, Sterling Hatfield, the supervisor of music of the

school, was heard in two solo selections.

In the afternoon session there were addresses by Superintendent L. S. Devoe on "The Knighthood of Youth" movement in the public schools, as well as one by Ward M. Gray, secretary of the Lincoln Y. M. The Last Word in Automotive Engineering, Comfort, Economy, Resale Value
Big Stock of Heaters, Tires, Batteries—Welding

Probably the most remarkable thing about the Ford is the fact that in 1893 when the first Ford bumped over the sill of its little brick shed on Bagley avenue in Detroit; out into the springtime sunlight its maker never once doubted as to its ultimate success.

It frightened horses, blocked traffic, and Mr. Ford found it necessary to chain it up to prevent people from running away with it.

Since that time over 20,000,000 of them have gone into operation, many of which are still giving excellent service to the owner. Mr. Ford has never disappointed the public, and in his New Eight represents the crowning achievement for the automobile industry.

Combining beauty, utility, economy, comfort, resale value and price in one achievement, at an unheard of price for an Eight, capable of 75 miles an hour.

The Ford Motor Co. is ably represented in Cass county by the CLAUDE A. RUSE MOTOR CO., who invite you to come in and get specifications and prices on this "HENRY FORD'S GREATEST TRIUMPH."

J. Weideman here as the manager, and have gotten their portion of the grain which has been shipped from this place, concluded that it would be better to be near the base of operations and so moved the family to Murray last Monday and is now located here and one of the citizens. The reason for this move is that the vicinity of Murray is one of the best localities in which to engage in the seed and grain business. Seeds grown here are most dependable and there is grown a large amount of grains which is shipped from this point.

The people of Murray and vicinity are extending a very cordial welcome to this estimable family and are certain that they will take much interest in the activities and progress of Murray.

MRS. KELLY PRISON BOUND

Oklahoma City.—The federal government removed Kathryn Kelly, wife of Machine Gun Kelly, and her mother, Mrs. R. G. Shannon, both under life sentences for the Charles F. Urschel kidnaping, from the county jail and hustled them toward prison aboard a train due in Memphis at 6:45 a. m. Tuesday. They wore no shackles. Federal officers maintained secrecy regarding the move because of the throngs which gathered about the armored railway car in which Kelly was taken to Leavenworth federal prison to serve a life sentence last week.

Tickets for the two women and their four guards were forwarded here from Washington and their destination could not be ascertained. However, it was expected that Mrs. Shannon would be taken to the Shelby county workhouse, leased by the government, about ten miles from Memphis. Kathryn probably will be taken to the federal prison at Cincinnati.

Kathryn Kelly was recognized by several bystanders as she and her mother were put aboard a steamer. The women were allowed a brief farewell visit with R. G. Shannon, the only one of those convicted in the Urschel kidnaping remaining in the county jail. Shannon was granted sixty days to wind up his affairs before beginning his life term. The goodbyes were marked by the first tear; Shannon's wife and stepdaughter have shed since being sentenced, jailers reported, but they added: "Shannon broke down first."
