the new car from some Lincoln dealers, and sure is well pleased with the new boat.

Hunted at Coleridge

On Sunday a crowd of hunters from this vicinity were at Coleridge, where they say the pheasants are very plentiful, much more so a few days ago, however, than they are now, for each of the many hunters there bagged the limit. Barratt and his son, Will Barratt, Earl Merritt and Orville Hathaway, who proved one of the best shots in the bunch and got his full quota, while the others just about made the grade. END OF THE DREAM

When my ship comes in all laden with gold,
And with gems and jewels rare,
I'll lie me to the galleon's hold
To revel in treasure there.

I'll delve in the wealth from golden climes,
And lave my arms in its stores
Of riches from far Golconda's mines—
Of diamonds and rubies galore.

I'll build me a castle, and drawbridge, and moat,
With donjon and treasure vaults deep;
And I'll move my coffers ashore from the boat
To the fortress's stronghold and keep.

With warders, and vassals, and seneschals bold
To defend and protect it for aye;

And I'll spend a life like a baron of old,
In the vogue of a long past day.

My guests, ever welcome within its walls,
Will be treated in royal style;

And feasting and music will fill its halls

As gayety reigns the while.

Meanwhile, I'm waiting in anxious fear
For word from my ship overseas.

I fear me, somehow, as the time draws near,
That the boat ain't a-comin' to me.

Yet a fellow can't shut out illusory dreams,
Nor envisioned rich castles in air;

But must take the goods in our laps that it seems
The gods in their wisdom placed there.

So I'll plug along in the same old way
That I've done for lo, many a year,

Accepting decrees of stern fate day by day,
With no rude disillusion to fear.

CLOSE RELIEF OFFICE

The office for relief that has been maintained at the court house with Mrs. C. A. Rosecrans, county probation officer, in charge, has been closed for the present at least. This is due to the enlargement of the public works program of the state and federal government in the grading and paving work and the river work near here. There has been 125 names taken off the relief roll in the past few weeks. A total of some 551 men registered for work have been assigned since the public works program opened up and which is for the present at least relieving the necessity for other lines of aid.

There are a number of relief cases that will of necessity have to be cared for in the case of aged, women and indigents and these will be handled direct by the county commissioners.

The public works program in this section at least is justifying itself in the restoration of the earning power of several hundred and the hope of more permanent future when the present crisis has rolled away.

PAYS DIVIDEND

The state banking department at Lincoln has announced that there will be the first dividend payment of 20 per cent to the depositors of the Bank of Commerce of Louisville. and of Maximum Acres of Wheat for 1934 under contracts for Members of the Wheat Production Control Association of Cass County, State of Nebraska.

Listed below are statements of the allotments which have been determined for members of the Cass County Wheat Production Control Association from Eight Mile Grove and Plattsburgh precincts. These allotments are to hold for the duration of the present wheat contracts, and they are the basis upon which adjustment payments are to be made. They have been determined by the County Allocation Committee after careful consideration of the application statements. Every effort has been made to have these allotments as accurate as possible. The maximum acreage which may be sown on each farm, under the reduction requirements of the contract, is also listed.

The Cass County allotment, which has been calculated from records of the United States Department of Agriculture, is 286,473 bushels. The total of the individual allotments, including those allotted to farms which are not participating under the wheat program, must be in line with the county allotment figure.

In the abbreviations used in listing the information below, "A" means acres; "Allot." means the individual wheat allotment for the farm; "Max." means the maximum acreage of wheat which can be sown on the farm for the 1934 crop, under the contract. (Signed)
