It was from an officer of the Nebraska Seed Co., of Omaha, enclosing a \$1 bill and with an expression of appreciation for the work of the officer in the recent attempted bank robbery here. The writer stated that he was sending the money as a taxpayer and felt that every citizen of Nebraska should feel pleased over having such an officer.

From Monday's Daily
A bank at Atchison, Kansas, was stuck up and robbed at 8:30 this morning by a gang of bandits who made their escape with the cash on hand in the banking room at the time of the robbery. In making their getaway the bandits shot and killed two of the members of the Atchison police department. Word was sent to the office of Sheriff Homer Sylvester by the Kansas officers of the crime, but so far no trace has been found of the men, who it is thought have made their way into Kansas City.

State Class A Cage Meet Now Under Way

Prep Cagers from Over State at Lincoln Ready for Tourney—B Teams Open Thursday.

Outstate basketball teams—regional class B playoff champions—started pouring into Lincoln Tuesday for the twenty-fourth annual high school tournament which opens Wednesday at the coliseum.

There will be sixteen contenders in class A and a like number in the B division. The latter group does not swing into action until Thursday afternoon.

Columbus, defending state champion, along with Grand Island, Hastings and Lincoln is seeded.

Lincoln high, because of its triumphant march thru the cream of Nebraska prep teams during its regular schedule, has been installed as the heavy favorite to capture the 1934 laurels. Coach Baller's quint dropped its only game of the season to Creighton Prep last week at Omaha.

Not Expected Repeat.
The Discoverers, victors over Hast-

ings in last year's finals by a narrow 14-12 margin, are not expected to repeat in this year's classic while a new class B titleholder is assured. Duncan, winner of the B crown a year ago, failed to survive the district tournament. Swanton, runner-up, was also put out in the elimination drive.

Three other strong class A teams beside the four seeded quintets which will bear watching are Crete, champion in 1932; Clyde Knapp's strong Fremont tribe, and Pilger, pride of the northeast sector.

North Platte and Curtis are expected to put in a strong bid for the southwest region where they deadlocked for conference honors.

Big Highway Program is On in This State

Work for 10,000 Men Expected at the Peak Within the Next Few Months.

Nebraska laborers this year will carry on the biggest spring and summer road construction program in state history. Work already has started on an estimated \$5,000,000 of construction to be completed within the next five months. State Engineer Cochran estimated that this program, coupled with maintenance on the state's highway system, will mean a peak employment of 10 thousand men on Nebraska roads within a few months.

The program already in sight calls for 88 miles of paving, four miles of bituminous mat surfacing, 225 miles of grading and small drainage structures and about 125 bridges. This compares with estimated uncompleted work under contract at this time last year which called for 95 miles of paving, 22 miles of bituminous mat, 121 miles of gravel, 159 miles of grading and about 109 bridges and major structures.

Most of the work carried on this week was on bridges and can continue under less favorable weather conditions. Most of the estimated \$5,000,000 of construction already scheduled will be done with federal funds, supplemented on some projects by state funds. About \$3,000,000 already has been spent on the \$7,800,000 allotted Nebraska last summer from the federal emergency funds.

The 88 miles of paving will cost about \$2,500,000, the four miles of bituminous mat, \$10,000; 116 miles of gravel, \$200,000; 255 miles of grading, and small drainage structures, \$1,600,000; and 125 bridges, about \$600,000.

City Conventions to Nominate the Candidates

Democratic Meeting Thursday and Republicans on Friday Evening in Mass Conventions.

The time is fast approaching when the voters of the city of Plattsmouth will be called upon to select the men that they will have serve them in the city offices for the next two years, a matter that should be taken into serious consideration.

The candidates for the offices will be named in conventions, that of the democratic party to be held on Thursday evening at the district court room in the court house, while the republicans will meet on Friday evening at the same place to select candidates.

This year the mayor, clerk, treasurer, police judge and half of the city council will be named and it is important that the best men possible be named for the offices if the city is to be guided through the remaining period of the depression.

The conduct of the city affairs have been held to the lowest possible expenditure in the last two years and has resulted in the building up of the city funds despite the fact that a large number have been unable to meet their tax obligation and which has made the burden even greater. It has been possible to secure the building up of the funds only by the refusal to carry on only what was absolutely necessary in the conduct of the city and to eliminate all unnecessary costs wherever possible. In this the members of the city council have co-operated in fine shape, there being no partisanship shown in the honest and sincere effort to produce the best possible results for the city.

One thing is assured, that is the city at least for a long period is not going to be able to launch any extensive programs of expenditure and those who are chosen for office by the voters should be men who will strive to give the best and most economical form of government possible. Attend your convention this week and do your part in the selecting of the candidate that in your mind will best serve the interests of Plattsmouth and its people.
