STATE REPRESENTATIVE

To accomplish the return of Prosperity is a work for all. Come, let us all work together for the best interest of all the people. We thank you for your vote and co-operation.

GEORGE E. NICKLES
Election, Tuesday, November 6th, 1934

Burlington's 'Zephyr' Makes a Trial Trip

Streamlined Train Travels from Kansas City to Lincoln Over Regular Run.

The "Zephyr," Burlington streamlined train, Wednesday made its trial run from Kansas City to Lincoln over the route that is destined to be the regular scheduled route of this train in the future.

The train was operated via this city and Omaha on to Lincoln, passing through Plattsmouth at 11:15 a. m. Wednesday on the test run.

The trip from the Kansas City union station to the Burlington station at Lincoln required three hours and forty-five minutes and the officials of the railroad are confident that the train will be able to maintain the projected schedule of four hours when it is placed in service between these two points.

The train was taken from Lincoln to Burlington, Iowa, where it will be checked at the railroad shops there for any necessary repairs and the decision will then be made as to the definite time that it will be placed in regular service.

The train will reduce the time between Lincoln, Omaha and Kansas City materially and will be one of the crack trains of the country.

Missouri river development will put Plattsmouth on waterway's Main street.

BOYS OF THE CCC CAN VOTE

Washington.—The boys of the CCC may go home on election day, if they are eligible voters, without fear of losing that day's pay. Officials of the conservation corps reported that commanding officers of all camps had been notified "that any eligible voter in the CCC may be permitted to go home and vote if he so desires."

Certain restrictions were placed on this privilege, however. If members of the corps make the trip to their home communities and back in one day or less, they will lose no wages. If they are away from camp longer than one day their wages for the additional time will be deducted.

SUFFERS FROM INJURY

Joseph C. Wheeler, who a few days ago suffered the fracture of his left collar bone, was in the city Wednesday visiting his friends and looking after some business matters. Mr. Wheeler was injured when a wagon which he was driving loaded with pole wood overturned and as the result Mr. Wheeler suffered the injury to his collar bone.

CONVICTED AS WIFE SLAYER

Seattle.—A jury of six men and six women convicted Johannes Marinas Hendrick, carpenter, of the first degree murder of his deaf mute wife, Ruby. It recommended the death penalty not be assessed, which means Hendrick will be sent to prison for life. Mrs. Hendrick was killed with a flat iron in a rooming house here July 16.

Cass County Farm Bureau Notes

Copy furnished from Office of County Agent Wainscott

Bindweed Demonstration Meetings.
Farmers of the county will have a chance to talk over all the latest methods of killing bindweed at demonstrations arranged by the agricultural agent on the farms of Archie Miller, Alvo, Rudolph Hart, Weeping Water, and Dale Topfiff, Murray. The meetings all will be held on Monday, October 22nd according to the following schedule:

Archie Miller's, 10 a. m., 1 mile east and 1/2 mile south of Alvo on the east side of the road.

Rudolph Hart's, 1:00 p. m., 2 miles north and 2 1/2 miles east of Weeping Water on the south side of the road.

Dale Topfiff's, 2:45 p. m., 2 miles south and 1 west of Murray on the north side of the road.

We suggest you attend the demonstration nearest you or the one which suits your convenience best.

A way to rid a farm of bindweed without any cash expense or loss of crop has been worked out and will be discussed by Mr. Arthur Peterson of the Agricultural College. He will also answer many questions about the use of chlorates and about other methods of killing the worst weed in Nebraska. At the meeting Peterson will discuss the various ways machinery may be worked over to handle the summer fallowing job. He will have with him some samples of the duck foot shovels commonly used, and be able to answer many questions about this method and other ways of getting rid of the bindweed.

The dry summer has shown up the effects of the bindweed on the moisture supply even more than usual. Crops in bindweed patches were the first to suffer early this summer, and in many cases the farmers got a little livestock feed from the land without the weed and nothing from the weed patches. Using bindweed for pasture did not prove profitable this year even in the driest part of the state. The weed develops so little top growth compared with the damage it does to the moisture supply that it cannot be considered as a possibility for a future pasture crop.

4-H Clubs for Winter Months.

Many rural teachers find that organizing 4-H clubs in their school during the winter months keep the children occupied with something worthwhile during spare hours and also that the work carried in the winter projects correlates to a marked degree with the material found in their lesson books.

Through Hot Lunch club work pupils are taught the fundamentals of choosing the right foods for a healthful diet. The members, under Plan I take turns as cooks, housekeepers and bookkeepers. Under Plan II, they bring their food in a pint jar to be heated to supplement a cold lunch brought from home.

Keep-Well Clubs are very popular among the school children. Already one Keep-Well Club, under the leadership of Miss Clarice Hottle, Elmwood, has been enrolled. Correlating the problems of the Keep-Well club with their study of hygiene and physiology proves fascinating to the students who learn that good health habits are essential to long life as well as physical attractiveness.

Rope club work proves interesting to the boys while many girls also enroll. They learn the tricks in rope splicing, halter making and tying of knots that are useful around the home and of great value on the farm.

Boys and girls who have graduated from school and have more time to devote to club work find the Fix-It, Sewing and Cooking clubs of greater interest. In Fix-It clubs the boys and girls make actual use of their time by fixing farm machinery, home accessories, cleaning up the farmstead, planning recreation for the family and community groups work on accident and fire prevention about the house and farmstead, and eradicating insect, rodent and weed pests.

In the club organized in a school the work may be done either at home or at school. The teacher or some older person in the community acts as the local leader. Five or more boys and girls 10 to 20 years of age are required to form a standard club. Those under and over these ages may be associate members. If you are interested in organizing a 4-H club for the winter, see the agents at once.

Kroger Made District Judge by Governor Bryan

Bar of Eleventh Judicial District Had Been Requested Not to Make Recommendation.

After requesting the bar of the Eleventh judicial district not to make a recommendation, Governor Bryan announces that he has appointed E. G. Kroger of Grand Island to be district judge to fill the vacancy caused by the death of Judge Horth of Grand Island.

The number of applicants was very limited, said the governor, some attorneys declining to stand as such. Kroger among them, but he was induced to have his name considered after others had refused, and Kroger was strongly endorsed by individual attorneys. Among those considered were P. J. Barrett of Greeley, W. A. Prince of Grand Island, William F. Spikes of St. Paul and Ralph W. Norman of Ord.

"It was difficult to select," said Bryan, "but finally the location of eligible attorneys narrowed consideration to the southern part of the district. He said the district has two judges, Judge Clements, living at Ord, now being on the bench. There are eleven counties in the district and as more than half of the business of the court originates in Hall county, he deemed it proper to have one judge from that section.

"The bar of the district met at Grand Island last week," said the governor, "and it was proposed that it recommend an attorney for judge. I sent word that I would prefer no formal recommendation from the bar. In the first place it might embarrass the appointee by making him feel that he was under obligation to attorneys; second, the governor cannot delegate his responsibility for such an appointment; and third, there is much sentiment against attorneys selecting judges of courts.

"Reduction of the salary of district judges from \$5,000 a year to \$4,000 has had its effect. Leading attorneys have an income in excess of that, and one would have to lower his standard of living if he had no other income. So I consider the district fortunate in securing the services of an attorney such as Mr. Kroger. He is comparatively young, has had twenty-five years practice at the bar, is an outstanding lawyer in central Nebraska, and is so recognized by a large number of the bar."

Kroger has affiliated with the democratic party and supported William Ritchie, democratic candidate against Bryan, two years ago. Ritchie himself supported Bryan in the recent campaign for United States senator.

Born in Nebraska, he played football for Nebraska university, was graduated from the law college in 1909 and served two terms as Grand Island police judge.

TO CHECK SALE OF CATTLE

Washington.—In an effort to check forced sales of cattle thruout the drouth hit west, the farm administration worked on a feed procurement program which officials predicted would be completed by Monday or Tuesday.

Plans under discussion included the probable heavy purchase of feed concentrates—because officials have about concluded attempts at movement of large quantities or loose feeds into range areas such as Texas, would be impracticable—and the possible importation of feed.

BURDEN PLACED ON ARIZONA

Phoenix, Ariz.—More than 36,000 unemployed passed thru Arizona en route to California during the last month, Florence Warner, federal relief administrator of this state, said. She declared the situation has become serious for Arizona, necessitating the feeding of 1,000 persons a day at the federal transient camp in addition to 1,000 regularly taken care of there. Miss Warner attributed the westward movement to the "end poverty in California" plan of Upton Sinclair, democratic candidate for governor there.

'MERCY PARDON' GRANTED

Moundsville, W. Va.—Ida May Shaw, who was sent to prison for a life term fifteen months ago after admitting she offered a man \$1,000 to murder her husband, was taken home to prepare for death. Suffering from malignant cancer, the 35 year old Parkersburg, W. Va., woman, was freed by a "mercy pardon" from Governor Kump, who had been told by prison physicians she has only a few days to live.

Ten Million People HELPED BUILD THIS TIRE

The NEW **Firestone** CENTURY PROGRESS TIRE

EQUAL OR SUPERIOR TO ANY First Quality Tire BUILT REGARDLESS OF NAME, BRAND, BY WHOM MANUFACTURED AT WHAT PRICE OFFERED FOR SALE

THE TIRE SENSATION OF '34 Sells on Sight!

To SEE it is to buy it! That's the way extra value stands out in the new Firestone Century Progress Tire. We found out what car owners wanted most in a tire—then we gave it to them. Out of more than ten million visitors to the Firestone Factory at the World's Fair last year, we obtained this opinion: "Give us Blowout Protection, Non-Skid Safety, and Long Wear, at a Moderate Price."

So we built the greatest tire ever made to sell at these low prices. Then the wave of buying started—car owners from Coast to Coast bought—not just one or two tires—but a complete set!

Go to the Firestone Service Dealer or Service Store in your community TODAY! See the new Firestone Century Progress Tire—just look at the broad, husky shoulders, massive flat tread, deep-cut non-skid and Gum-Dipped cords. Did you ever see so much tire for so little money? No wonder it's the Tire Sensation of '34 and Sells on Sight! Why not equip your car with a complete set—while prices are still at today's low level. And remember, you get the new Firestone Triple Guarantee

- for Unequaled Performance Records
- for Life Against All Defects
- for 12 Months Against All Road Hazards*

(*Six Months in Commercial Service)

Intimate Details Shown in Vivid Photo of Royal Slaying

This startling picture of the assassination of King Alexander of Yugoslavia and Foreign Minister Louis Barthou was snapped several seconds after the Croatian killer Petrus Kalemán (arrow) had leaped to the running board of their auto in Marseilles, France, and fired a round of shots. A mounted officer is pictured sabering the assassin while guards and police closed too late to save the Balkan monarch. Dying Alexander is huddled against the side of the car nearest Kalemán.
