Accidentally Shot While Hunting Party on Way to Enjoy Outing in Alvo Community.

Edward H. Benzling, 22, 2233 Q street, Lincoln, was instantly killed Friday afternoon while riding with a party of friends for a hunting trip near Alvo.

The young man was riding in the rumble seat of the car and had reached down to move one of the guns when it was accidentally discharged.

the charge entering just below the chin and coming out near the left temple.

With the unfortunate man at the time of the accident were Ervin McCurdy, Bob McNiff and Ervin Sweem, all of Lincoln and long time friends of the deceased.

Mr. Benzling was married and leaves his wife as well as his parents to mourn his passing.

Sheriff Homer Sylvester was notified of the accident and drove to the scene of the tragedy but as the cause of death was purely accidental, there was no inquest held.

After the examination of the members of the party, the body was taken on to Lincoln for burial.

Plan for Great Gathering at Democratic Banquet

Roy Cochran, Candidate for Governor and Congressman Edwin C. Moran to Speak.

Roy L. Cochran, democratic candidate for governor, and Edwin C. Moran, Maine congressman, will be the principal speakers at a rally and banquet to be staged at Weeping Water on Tuesday evening, October 30, by the Cass county democratic central committee.

Plans to accommodate a record-breaking crowd have been made by the committee in charge of the event.

Cochran needs no introduction to Cass county people, who know of his fine record as state engineer, and everyone who is able, should attend this banquet and hear the message which he will bring to the voters.

Edwin C. Moran, second principal speaker, will speak in behalf of Edward R. Burke, democratic candidate for United States senator, who will be unable to be present because of a previously scheduled engagement.

Moran has the distinction of being the first democrat to be elected as a congressman in his district in years. He made the trip to Nebraska especially to campaign for Burke, whom he knows personally, and for whom he has only words of praise. Plattsmouth people who heard Moran speak here early this week, will remember him as an eloquent and convincing speaker.

The banquet, which is to be held in Philpot hall, will begin at 7:00 p. m., and will be preceded by a tour over the county of candidates on the state and county ticket.

Elsewhere in this issue will be found an advertisement with complete details of the affair. Tickets may be obtained from any county candidate or members of the democratic central committee.

DE MILK WHITE SHORE

He was a bowed and feeble colored man That ambled past my door; And his snow white head proclaimed the span, Of four score years and more.

His faltering footsteps feeble fell As he plodded his way along, Crooning this ancient negro spiritual

As the burden of his song: "Er I could stand where Peter stood And view de landscape o'er, I'd fing dese laigs as high as I could And make for de milk white shore.

"Den remember de rich, remember de poor— Remember de bond and de free— An' when you'se dun rememberin' 'em all, Please, Lawd, remember me."

His quaint refrain I can't forget; And it comes to me more and more That his prayer was answered—and I'll bet He has reached "the milk white shore."

IOWA PARTIES MARRIED

The county court was the scene Thursday afternoon of the marriage of Miss Vera Knot of Avoca, Iowa, and Loren Evans, McClelland, Iowa, who had motored here for the ceremony. The marriage lines were read by Judge A. H. Duxbury, the young people later returning to their home at McClelland.

Why Liquid Laxatives Do You No Harm

The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The right liquid laxative will bring a more natural movement, and with no discomfort at the time, or afterward.

The wrong cathartic may often do more harm than good. An approved liquid laxative (one which is most widely used for both adults and children) is Dr. Caldwell's Syrup Pepsin, a prescription. It is perfectly safe. Its laxative action is based on senna—a natural laxative. The bowels will not become dependent on this form of help, as they may do in the case of cathartics containing mineral drugs. Ask your druggist for Dr. Caldwell's Syrup Pepsin.

RECEIVES SUSPENDED SENTENCE

Walter Burke, convicted by a jury in county court of intoxication, was in court Thursday afternoon to receive his sentence for the offense Judge Duxbury gave him a sentence of ninety days in the county jail on bread and water, suspending the sentence during the good behavior of the young man and his refraining from a repetition of his offense.

Fifty Per Cent Less Cattle Now in This State

Sharp Decline Due to the Drought That Has Caused Cattle to Be Shipped Out.

There were about one half as many cattle on feed in Nebraska October 1 this year as compared to last year, says the state and federal division of agricultural statistics. Developments in the cattle feeding situation show sharp decreases in drought-stricken states while increased shipments of stocker and feeder cattle are noted in some of the eastern corn belt states.

Both the number of locally produced cattle and the number from the range area of Nebraska or from other states moving into feeder sections in Nebraska have been sharply reduced. Indications point toward continued curtailment of feeding operations for the coming season to a point less than half of what the operations were a year ago.

Reports as to the supply of corn, hay and forage indicate that feed available will not take care of present operations in Nebraska. This shortage is the most important factor limiting feeding operations and its reflection in high prices for feed offer further restriction in that the spread between feeder prices and price for fat cattle is not satisfactory.

Shipments of cattle into all corn belt states was relatively large in July when the prospects for a corn crop were still fairly good. The movement fell off sharply in August and September in states where the effects of the drought were most serious, while in five eastern corn belt states the large movement continued resulting in the largest number since 1926. There was a heavy movement of "government" cattle into these states for pasture. The character of the cattle shipped from four large markets show that a larger than usual proportion of these cattle were purchased for stockers, rather than for feeders. The largest increases were in steers under 700 pounds, in calves and in cows and heifers.

PONY IS KILLED

From Thursday's Daily Last night a pony belonging to one of the children of the E. J. Doody family was killed on south Chicago avenue, near the family home. The pony, a pet of the children, had in some way got out of the yard and onto highway 75 where in a few moments it was struck and fatally injured by a passing car. The driver had not seen the pony in time to stop and as the result the pony was badly hurt and the car more or less damaged.
