## Schools Reopen with Excellent Attendance

Good-Lower Grades About 50% -Must Have Certificates.

From Thursday's Daily

The city schools opened this morning after a two day vacation and with a very good attendance of the pupils after the lifting of quarantine. The shortness of the notice had some effect in keeping many from school, as some had gone out of the city for the rest of the week, while the snow and cold weather also had its effect in checking attendance.

The high school and junior high had about a seventy-five per cent attendance, while the grades had about fifty per cent of normal.

The absence of pupils was largest in the first three lower grades where the younger children were evidently held at home for various reasons.

The board of health have requested the school authorities to require a health certificate from children that are not in school today and Friday and which will be necessary to present when the child returns to school. This certificat of health must be signed by a physician after examination of the child, as a guarantee that the child is in proper health to permit school attendance.

the children that were in school and make examinations as to colds or other ailments that children might have and the result showed excellent condition among the pupils of the school. Miss Bernice Arn, reginjury that will kepe her home until and two daughters, C. L. Pittman of adjutant, who always calls a spade a the first of the week when she expects to be back on the job as usual.

#### RALSTON BAND PRIZE WINNER

Word was received Wednesday that Post Eipperle McCourtie No. 99 of Ralston, American Legion band, directed by Dr. A. E. Wood, took fourth place in the national contest held in Miami last October. This is the first time a Nebraska band has ever placed in the contest, according to R. L. Rossiter, manager.

Announcement of the winners was 50 per cent of the directors.

En route to Miami last fall, the band played concerts in a number of southern cities, and on the return dedication of the Union Pacific streamline train.

In the spring of 1937 the group, 45 men in all, plan a tour of Europe. "We intend to enter the competition next year, and win the first prize," declared Rossiter.

The award for fourth place was a check for \$100.

W. R. Holly and E. P. Stewart of this city were with the band at Miami and took part in the concerts.
