## Telephone Company Makes Change of Rate

Manager Misner of Local District Makes Announcement of Change—Present New Rates.

Beginning Saturday, June 1, evening rates on station-to-station long distance telephone calls were discontinued and night rates will be effective at 7 p. m. instead of 8:30 p. m. and will continue until 4:30 a. m., according to an announcement made today by R. M. Misner, manager of the Lincoln Telephone and Telegraph company here. The reduced night rate on station-to-station calls will apply on calls for which the day rate is 40 cents or more.

"This change will result in giving our customers the advantage of the same low rate on station-to-station calls between 7 p. m. and 4:30 a. m. that they have previously enjoyed only after 8:30 p. m.," declared Mr. Misner.

At present, person-to-person rates will continue to be the same at all hours. Following are a few examples of station-to-station day and night rates:

DAY	NIGHT
4:30 a. m. to 7 p. m.	7 p. m. to 4:30 a. m.
\$ .25	\$ .25
.45	.35
.50	.35
.60	.35
1.05	.60
2.05	1.15
3.75	2.00

This change enables users of long distance service to place many of their calls at a more convenient hour and still permits them to receive the benefit of the lowest long distance rate. Also, many long distance calls can be handled more promptly because the change will reduce the number that have been placed immediately after 8:30 p. m. and distribute them more evenly throughout the lo wnight-rate period.

### THE ONLY SOLUTION

During 1934, the automobile caused the deaths of 24.7 persons out of each 100,000 of our population.

Each 100,000 cars in use killed 130.4 people.

Every time 10,000,000 gallons of gasoline were consumed, 20.1 persons died.

There are three discernible ways of looking at the automobile accident problem—and any one of them should be sufficiently impressive to make the public think, and think seriously. The problem would be bad enough if it were no greater than in previous years, but statistics show that it is steadily becoming more acute. In 1931, for example, automobile registrations were 3 per cent greater than in 1934, and gasoline consumption about one per cent greater—but 1931 automobile deaths were 8 per cent under 1934. This year, with automobile registrations and gas consumption again on the up-grade, it isn't pleasant to speculate on what the death toll will be—unless that proportion of the motoring public which is reckless, incompetent and plain discourteous is forced to change its ways.

A glance at the records shows that the so-called "unavoidable" accident is so rare as to be practically nonexistent. All but a handful of accidents are caused by one of two things—mechanically defective cars, or a defect in the person behind the wheel. Any of those two, the last is infinitely more important—93.9 per cent of the cars involved in accidents last year were in apparently good condition.

The time has passed when appeals to the reckless driver to improve his ways are sufficient. He has refused—and the force of public opinion, backed by modern, aggressively enforced laws, presents the only solution to the problem.

### VISITS IN THE CITY

Sunday Frank Jackson, of Chicago, a grandson of Mr. and Mrs. J. N. Wise, old time residents of the community, was a guest in the city and a soloist at the morning service at the First Presbyterian church. Mr. Jackson is one of the best known vocalists in Chicago, where he is a member of one of the prominent church choirs and on the visit here gave the very beautiful number at the church where his grandparents were worshippers for so many years.  
Following the services Mr. Jackson, with Judge Jesse L. Root and daughter, Miss Alice, of Omaha and Miss Olive Gass, an old friend, were dinner guests at the home of Mr. and Mrs. W. A. Robertson.

### HERE FROM FLOOD REGION

From Wednesday's Daily

This morning Mrs. Edna Dalton, of McCook, arrived in the city to visit with her mother, Mrs. Bertha Shopp and family. Mrs. Dalton has been through one of the most trying experiences in the state in the great Republican river flood and which has stricken all that section of the state. While not exposed to the dangers of the actual flood she has been greatly shocked by the loss of life and property damage in the valley. It was with the greatest difficulty that a bus was finally pressed into service to give McCook an outlet to the world and it was by bus that Mrs. Dalton was taken to Oxford to catch the train.

### VISITING IN MINNESOTA

## New Tax Law Allows Paying of Tenth Each Year

Applicable to Prescribed Real Estate and Personal Tax Delinquencies Only—Must Pay One Year

Under a new law introduced by Trenmore Cone, deceased member of the legislature, passed and signed last week by Governor Cochran, defaulted real estate taxes on which tax sale certificates are not in force and defaulted personal taxes can be paid in ten equal installments without interest or penalty, if the taxpayer elects to accept the provisions of the Act, which briefly, are as follows:

- 1—The current year (1934) tax must be paid in full;
- 2—The total back tax (computed without interest or penalty) to be divided into ten equal payments, one due and payable each year.
- 3—Payment of current year's tax and one-tenth part of back tax must be tendered to County Treasurer on or before September 1, 1935.
- 4—Thereafter, each current year's tax and installment payment of back tax must be made by September 1, or whole sum of back payments becomes due and must be met within 90 days. If this provision is not met, interest and penalty attaches and property becomes subject to foreclosure or issuance of distress warrants.
- 5—Certificated properties and tax levied for special improvements, such as paving, etc., are not included in the terms of the law.

Besides setting up an effective manner for collection of back taxes without imposing undue burden on those now in default, the new law also provides a simplified method of foreclosing on real estate tax delinquencies in the future, or properties of those who elect to take the installment plan of payment and then fail to meet their payments promptly, by service by publication instead of having to secure personal service of summons by the sheriff as under the present law. This will reduce the expense of foreclosing on persistent tax delinquents. The method prescribed is as follows: County Treasurer to certify names of current two year real estate tax delinquents to County Attorney, Sept. 15, each year, beginning in 1937, as well as defaulters under the payment plan provided, whereupon County Attorney shall within 30 days thereafter commence foreclosure in a single action with service by publication, for full amount of taxes, interest and penalty. From that point on, the foreclosure shall proceed in the same manner as real estate mortgages are foreclosed under the code of civil procedure in this state, which includes a sheriff's sale of the property and the issuance of deed and possession thereof to the purchasers.

City officials who have checked the law, consider it a good one, inasmuch as it provides a means of collecting in much back tax through installment, makes payment of current year's taxes an absolute duty in order to retain the provisions of the payment plan, and greatly simplifies the foreclosure process against those from whom it becomes necessary to take this legal action.

Under this new law, it will be impossible to pile up real estate taxes for a period of more than two years, foreclosure being made mandatory on the County Attorney at that time, as well as against partial payment plan defaulters, at no compensation other than his salary.

Chairman Puls of the Judiciary committee of the City Council secured a copy of the new law while in Lincoln yesterday, which the Journal is pleased to publish in full below:
