Mrs. Edna Dalton who arrived here Wednesday from McCook, to visit with her mother, brought with her copies of the McCook Tribune and the McCook Gazette, printed during the full stages of the flood that was sweeping the Republican valley. The papers contained only the most important bulletins as to the flood situation and the appeals of the authorities to the citizens.

HAND IS LACERATED IN POWER WASHER

He had purchased a new electrically driven washing machine with a wringer attached. It was the latest model and Mr. Gauer took pride in exhibiting it to members of his family and explaining to them its many mechanical devices.

He was demonstrating it to members of the family Tuesday of last week and placed the fore finger of his left hand on one of the rollers of the wringer to see which way it was turning when his hand was drawn into the wringer, lacerating the finger and cutting an ugly gash across the palm of his hand. Drs. Wortman & Worthman treated the wound and John is carrying the hand in a sling. But for his presence of mind in turning off the power, the injury would have been even more serious. Although quite painful the injury is getting along nicely. — Louisville Courier.
