

Rid Yourself of Kidney Poisons

Do you suffer burning, scanty or too frequent urination, backache, headache, dizziness, swollen feet and ankles? Are you tired, nervous—feel all unstrung and don't know what is wrong?

Then give some thought to your kidneys. Be sure they function properly, for functional kidney disorder permits excess waste to stay in the blood, and to poison and upset the whole system.

Use Doan's Pills. Doan's are for the kidneys only. They are recommended the world over. You can get the genuine, time-tested Doan's at any drug store.

Union Labor is Seeking Measure to Aid Workers

Favors Revision of Constitution as Well as Roosevelt Program of Social Security

America's organized labor Friday at Washington presented a five-point legislative program as a first step in meeting the problem created by the supreme court decision invalidating the national recovery act, and then went on record for revision of the constitution.

The legislative program, William Green, president of the American Federation of Labor, declared in a radio address, "Represents the minimum legislative measures necessary to meet the problem of unemployment."

Five-Point Program.

- The five-point program calls for:
 1. Enactment of a new act to replace the NRA.
 2. Passage of the Wagner-Connelly labor disputes bill.
 3. Enactment of the Black-Connelly 30-hour week bill.
 4. Passage of social security legislation.
 5. Enactment of the Guffey coal bill.

Green said: "We cannot acquiesce in continuance of a skeletonized NRA as provided in the senate resolution which continues the NRA in form but without substance until April 1, 1936."

Substitute Measure.
"Labor will prepare a substitute measure which it believes will prove valid and constitutional. It will be based on a licensing plan for corporations engaged in the production of goods which are shipped in interstate commerce."

Enumerating the supreme court's decisions holding the child labor act, the railroad retirement act and the national recovery act unconstitutional, Green added:

"Legal decisions such as these, with all their social and economic implications, have served to create a widespread sentiment, among working people in favor of a constitutional amendment expressly forbidding the supreme court to declare an act of congress unconstitutional."

In the case of retail liquors in package form the state commission notifies the local governing board of such application and no license shall be issued by the commission until the expiration of fifteen days after filing with the commission, during which time the local governing bodies may make recommendations relative to the granting or refusal to grant a license to sell liquors in the original package.

Commissioners Gass, McEachen and Carmichael said they had issued notice that licenses will not be issued to any person who is in arrears for state beer taxes under the old 3.2 law, now repealed. The commission has thus far succeeded in collecting a considerable amount of delinquent taxes under the beer law.

Notice was issued by the commission to wholesalers that they must remit the tax on near beer sold since May 24, the date the new liquor law took effect.

The bid of the Epstein Lithograph company of Omaha, the only Nebraska firm bidding on liquor stamps, was accepted by the commission as the lowest. It bid on paper stamps to be stuck on glass containers while others bid on what is known as transfer process, using blue and paint, which come higher and are alleged to be more permanent in sticking qualities. However the commission said it would save \$15,000 a year by taking the paper stamps. The commission will start with a contract for five million stamps at 65 cents per 1,000.

New Legislation for Aid of Home Owners of Nation

New Amendments Will Make Easier the Burdens of the Home Owners Much Lighter.

From Friday's Daily
Dealing with the amendment to the Home Owners' Loan Act, signed today by President Roosevelt, which permits the Home Owners' Loan Corporation to accept new loan applications, John H. Fahey, chairman of the corporation, today issued the following statement, emphasizing that such applications will be accepted only from home owners who are clearly in distress, and are threatened with the loss of their home through foreclosure:

"The same tests of eligibility of HOLC applicants which have applied in the past will in general continue in full force under this new legislation. The corporation intends to make every effort to assist home owners who are in genuine financial difficulty, but it will be forced to reject every application which is not clearly eligible.

"No home owner should apply for a loan until he has first made certain that his application will be eligible under the corporation's restrictions. He should realize that the rejections on grounds of deliberate default on existing debts, is likely to cause the home owner the loss of his property, because of the unwillingness of his present mortgagee to carry the loan following such default.

"Largely as a result of more than 2 1/2 billion dollars in bonds already disbursed to them by the Home Owners' Loan Corporation, lending institutions are in far stronger position today than they were a year ago. They are well able to recast and carry reasonably sound mortgage loans, instead of coercing, or even encouraging such borrowers to make application to this corporation.

The tests of eligibility are as follows:

1. The applicant must have been in involuntary default on his home loan on June 13, 1933, and unable to carry or refund his present mortgage, unless it can be shown to the corporation's satisfaction that a default occurring later than June 13, 1933, was the result of unemployment or other misfortune beyond the applicant's control. The corporation was created to protect honest home owners who are in temporary difficulty, and not for the purpose of saving lenders from the results of their own past mistakes in making excessive loans, or in lending to persons not entitled to credit.
2. The past record of the applicant for integrity is a vital factor. Any applicant will be rejected as ineligible if his general record is unsatisfactory, particularly if he has deliberately defaulted on his existing indebtedness, and has a record of not paying his bills when he is able to do so.
3. To redeem the home from forced sale or voluntary surrender, such sale or surrender must have taken place since January 1, 1930.
4. The applicant must be in actual distress with his mortgage indebtedness and threatened with the loss of his home by foreclosure. Applicants who have no present or prospective income of any character, and clearly could not meet the indebtedness, are ineligible unless their notes are also signed by responsible parties.
5. The property must be used by the owner as his home or held by him as his homestead and, as a rule, it must have been his home on June 13, 1933.
6. The home must have a value not exceeding \$20,000 as appraised by the corporation. No loan may be made for an amount exceeding 14,000 or 80 percent of the corporation's appraisal of the property, whichever is the smaller.
7. Ordinary farm property is not eligible unless the applicant draws his main livelihood from no-farm occupations.
8. No applicant will be granted a loan if such refinancing is intended only to protect a bank loan or other business obligations.
9. The corporation will not renege the home of an owner who can continue to carry his present loan.

Applications will be filed with local attorneys, one of whom has been appointed for each county in the state.

Mr. and Mrs. Louis Nitzel, reading about the high waters over the county and knowing that the Platte river was on a rampage, talked the matter over pro and con about going out to the Platte, finally decided the weather was sufficiently promising to make the trip, which they did. When they had arrived at the scene, they found the clouds threatening and decided it would be best to start back home at once. When they had driven over the bridge and were coming back through Louisville they noticed the big black clouds forming rapidly ahead of them and so stepped on the gas, hoping to speed up the trip and arrived home ahead of the storm. So there they sat while the rain came down in a torrent, meditating on the plight of folks in the Republican river valley flood district. Later the rain slackened considerably and the water was wiped from the distributor and wires leading to the plugs, whereupon the motor purred again and they continued for another mile, when it began to rain again and the moisture got into the ignition system, stalling them a second time. Finally a truck came along and pushed them a mile or so, before the moisture dried out and the engine began running again. Arriving home, they found there had been no rain here, but they had the thrill of seeing the surging water all around them and meditating on the plight of the flood victims.
