Farm Credit Act Means Saving to the Borrowers

Federal Land Bank of Omaha Estimates Saving in Interest Charges in Their Area at \$2,002,000.

Omaha — (Special) — Nebraska farmers who hold loans from the Federal Land bank of Omaha will realize a saving of \$2,002,000 in interest charges during the coming year as a result of the new Farm Credit act, just passed by congress and signed Monday by President Roosevelt.

The new law temporarily reduces the interest on Federal Land bank loans to 3 1/2 per cent, or 1.8 per cent lower than the average rate at which Nebraska farmers obtained their loans. The reduction will benefit about 22,500 Nebraska farmers who hold land bank loans totaling \$110,000,000, as well as farmers who obtain new loans.

The interest rate reduction becomes effective July 1, 1935, and will remain at 3 1/2 per cent until July 1, 1936, according to the terms of the act. Then for the two years ending July 1, 1938, the rate will be 4 per cent, returning on that date to the original contract, which is 4 1/4 per cent on loans now being made and varies from 5 to 6 per cent on loans made previously.

Since May, 1933, when the Farm Credit administration began the program of refinancing farmers' debts, the Federal Land bank of Omaha has made over 13,000 first mortgage loans to Nebraska farmers, totaling \$65,000,000. This does not include commission loans.

The interest rate reduction provided by the amended act will affect only Federal Land bank loans, all of which are first mortgage loans. The rate on land bank commissioner loans, which are made on either first or second mortgages on farm property, will remain unchanged at 5 per cent.

SCANS NEBRASKA PROJECTS Washington, June 6.—Secretary Ickes indicated he may override the reports of PWA engineers recommending that power be dropped from proposed Nebraska public power and irrigation districts which are seeking PWA allotments.

Ickes said he was aware his engineers had recommended elimination of power from the north and middle Loup projects, but said their viewpoint would not necessarily stand "because I'm for power."

Leading sponsors of the upper Loup projects had feared the projects could not be made self-liquidating without power income while others said there was no market for additional power such as the projects would produce.

STILL SHORT OF MEETING SCOUT DUES QUOTA OF \$90

A check-up today reveals that only 73 of the "150 Club" members enrolled last year have paid 1935 dues of \$1. In addition to these 73, twelve enrolled last year, paid the entire \$3 membership dues for 1934-35-36, this money being expended to complete the Scout cabin at Camp Wheeler and provide some necessary furnishings. That brings the total paid for 1935 to 85, or 65 short of the enrolled membership of the club. Withal, there is but \$73 on hand to meet the current year's area dues of \$90, pay telephone rental, insurance and other overhead expense on the cabin.

It is obvious other members of the "150 Club" must meet their current year's dues if the above expenses are to be met. Other towns in the Arbor Lodge district have all paid their assessments, which became due March 1st. Last year Plattsmouth was among the first in with its dues for the entire area and this year stands to be among the last.

All members of the club who signed the three-year pledge to pay \$1 a year on or before March 1st, and who have not already done so, are urgently requested to leave their dollar for 1935 with E. H. Wescott not later than Saturday, June 15th, so the expense of maintaining the Scouting program can be met.
