The marriage of Miss Alice James, daughter of Mr. and Mrs. E. C. James, of Ord, Nebraska, to Mr. Fred A. Rothert, son of Mr. and Mrs. J. A. Rothert, of Harvard, Nebraska, took place Wednesday afternoon at Lincoln.

The ceremony occurred at 4 o'clock in the garden in the home of Mrs. W. J. Seick, sister of the bride. The beautiful flowers made a lovely setting for the happy event as the late afternoon sunshine lent its beauty to the scene.

The marriage lines were read by Dr. H. G. McClusky, pastor of the First Presbyterian church of Plattsmouth, of which both the bride and groom have been attendants.

The bride was unattended and wore a floor length gown of aquamarine blue chiffon tailored in the popular short waist line style. She wore a large white picture hat and carried a bouquet of white rose buds and lilies of the valley.

The bride attended the University of Nebraska and has taught in the Plattsmouth schools for the past five years, being one of the most popular members of the teaching force.

Mr. Rothert is a graduate of the Peru State teachers college and has been a member of the faculty of the Plattsmouth high school for the past twelve years as head of the athletic department of the school and has the deep affection of the students with whom he has come in contact in this long period.

Mrs. Lohmann has been visiting at Tucson, Arizona, with her sister, Mrs. Olga Burdick and will visit in California several weeks.

A garden party, that turned out to be a good old fashioned Nebraska picnic was held, altho in quite a different setting, surrounded by blooming orange trees and semi-tropical shrubs instead of the good old Nebraska oaks and maples. A buffet luncheon was served throughout the day. The time was spent in playing horseshoe, pinocle and discussing old times.

Banning, director of the state department of agriculture and inspection, returned from southeast Nebraska with reports that crop prospects, considered the best in several years only a few weeks ago, now have been reduced materially.

"It appears now that the apple crop will be no more than 50 percent of normal—about equal to last year's production," Banning said.

The crop is vanishing rapidly as the new blight attacks the orchard the agriculture director said. He returned to his office to order men into the field for an immediate check to determine the nature of the new blight and to launch remedial measures.

## Farm Conditions Looking Best for Several Years

### Farmers Are Busy in Putting in Their Corn and Where Planted a Week Ago Is Up.

One of the leading retired farmers of this city was out in the section of the county west and north of this city and reports that the crop conditions are the best for the last several years in all lines and should give the farmers a real return for their efforts.

In every field or hay land the farmers are busy and even on Sundays with the good weather they have been busy getting in belated corn, cutting hay or other work that was retarded by the rain of the past weeks.

This year will bring one of the greatest hay crops in the history of this section as the rains have brought on a great yield that is being harvested now and stored for future use or to be placed on the market.

Wheat also is looking fine and in several instances where it was thought to have suffered serious damage in this locality the result has shown but little ill effect and will give a fine yield.

Oats also are doing fine and it is expected will give a yield that will be far above that of recent years unless some unforeseen weather changes in the next few weeks might cause damage.

The corn that has been planted is coming up since the warm, sunshiny weather, and shows a good stand, even that planted but a very short time has shown a marked progress and is beginning to come up in fine shape and promises that the year 1935 will give the farmers an excellent crop.

For the past year the farmers have had a practical vacation from crop handling as last year all that was produced on the farms was a minus quantity, the corn that was raised being largely cut for feed and silage, but this year there is plenty of work for the farmers.

There has been quite a brisk demand for farm labor at this time to help in the haying season and also in the corn planting which has been delayed several weeks.

### VANDALS DESTROY PROPERTY

Sheriff Homer Sylvester and Chief of Police Joe Libershal were called to the south part of the city Friday afternoon to investigate the destruction of an unoccupied residence in that part of the city.

This property is slowly being destroyed by some person unknown and already a great deal of the house has been torn apart, window frames and windows gone and now the main part of the frame building is gradually being carried away.

The property is one that will be sold for delinquent taxes and the city as well as the county are desirous that this vandalism be stopped.

The officers are investigating the case and hope to discover the person that has been engaged in the unlawful dismantling of the house.

## In Memoriam

June 15—Saturday—marked the first anniversary of the passing of ROBERT A. BATES, who for thirty-two years was the owner and publisher of the Plattsmouth Journal.

With the taking away of Mr. Bates, the task of the conduct of the newspaper as well as other interests has devolved on Mrs. R. A. Bates, who is now the publisher of the Daily and Semi-Weekly Journal.

It has been the endeavor to carry on the work of the paper as it was in the time when the kindly hand of the departed was at the helm of the affairs and in the kindly support that has been given by the people of the community there is a fine testimonial of the services of Mr. Bates.

His vacant chair brings sad memories, but the heritage he has left to those who have known him best is indeed a real inspiration.
