Death Comes to Mrs. Celia Reinch at Omaha Home

Well Known Resident of This City Dies After an Illness of Some Months Duration.

From Thursday's Daily
Mrs. William Reinch, 35, who was born and reared in this city, passed away at her home in Omaha last night or early this morning after an illness that has covered the past several months.

Mrs. Reinch had apparently been showing a more favorable condition as Mr. Reinch reported last evening when he came here to look after his insurance interests and the shock was very severe to the husband on his return home to find the wife dead.

Death was attributed to gas, jets were found open when Mr. Reinch returned to his home. It is supposed that the ill health of the unfortunate lady caused her act during the absence of the family from the home.

Celia Kalasek, daughter of the late Mr. and Mrs. Joseph Kalasek, was born in Plattsmouth and made her home here until her marriage some three years ago to William Reinch and since that time they have made their home in Omaha. The deceased lady was well known in the community where she had been engaged from early girlhood in a large number of the business houses of the city and which had given her a wide acquaintanceship and a host of friends to whom the message of her death comes as a great shock and a deep sorrow.

There are surviving her passing the husband, four sisters and four brothers, Mrs. Joseph Wales, Omaha; Mrs. Josephine Hranak, Pocahontas, Idaho; Mrs. Michael Bajack, Mrs. Joseph M. Sedlak of this city; Anton Kalasek, Milwaukee; Frank, Wesley, Julius and Edward Kalasek, all of this city.

Chamber of Commerce Have as Guest Avery Batson, Advising Engineer to State Director.

Thursday the members of the Chamber of Commerce had the pleasure of having with them at their session, Avery Batson, engineer for the WPA in the entire state of Nebraska.

Mr. Batson discussed the character of projects that the WPA would be in a position to aid and which would aid in taking up the slack in the labor surplus when many projects now active would be closed for the winter and leave the necessity for relief greater. He urged that communities get their plans drawn to cover the things that could be made into work projects for the employment of labor. The talk of Mr. Batson covered some time and it was followed with the greatest of interest by all of the twenty-eight directors and guests in attendance.

President F. I. Rea of the Chamber of Commerce gave a very inspiring talk at the opening of the meeting which marked the first of the fall season, urging that all get into the harness and help put over improvement ideas for the city.
