

Queen of Hoosiers

Victoria Vintilla

This comely brunette, Miss Victoria Vintilla, 19, of East Chicago, was chosen Miss Indiana in competition with a score of Hoosier beauties.

OMAHA INN ROBBED OF \$12

Omaha.—An unmasked customer-bandit held up the Aviation Inn in East Omaha Friday night and escaped with \$12 after falling in an attempt to kidnap two women in their own automobile.

The kidnap attempt failed when the bandit who earlier had stood at the bar and quaffed four beers, broke off the ignition key to their car and fled, knowing he could not start the automobile.

Jim Hendrix, bartender at the inn, said the man entered the place about 6 p. m., and stood at the bar drinking beer and chatting for about thirty minutes. As Hendrix was putting the money for his fourth and last beer in the cash register, the bandit suddenly commanded him to "leave the till open."

Hendrix whirled and saw the robber standing there calmly, his beer in one hand and a pistol in the other. The man forced Hendrix out from behind the bar and made him join an unidentified man and two women customers at a table while he looted the till. After tying Hendrix and the unidentified customer up, he forced the two women to accompany him outside and forced them into their own car. He fled, however, when the ignition key broke off.

President Looks for Better Days Under New Deal

Reassures Roy W. Howard, Publisher, in Letter, That Conditions Are Steadily Improving.

Satisfied that the "basic program" of the new deal is substantially completed, President Roosevelt at Hyde Park, New York, set about to lend an example to the nation of the day's declaration for a "breathing spell." In an exchange of letters with Roy W. Howard, publisher of the Scripps-Howard newspapers, the president noted the publisher's statement that "many businessmen who once gave you sincere support are now not merely hostile, they are frightened."

"This administration," replied the president in a long letter, "came into power pledged to a very considerable legislative program. This basic program, however, has now reached substantial completion and the 'breathing spell' of which you speak is here—very decidedly so. I take it that we are all not merely seeking, but getting, the recovery of confidence on the part of the mass of our population, in the soundness of our economic life and in our honesty and justice of the purposes of its economic rules and methods."

Time for Breathing Spell.

In good spirits at his regular press conference at home Mr. Roosevelt told newspapermen he had about concluded work on the legislation of the last session of congress and indicated he was looking forward to the "breathing spell" prescribed for the nation. Smiling away further inquiry about the fears of businessmen, he left an impression he would be occupied perhaps for a while in quieting some nerves.

"It is a source of great satisfaction," he wrote to Mr. Howard, "that at this moment conditions are such as to offer further substantial and widespread recovery. Unemployment is still with us, but it is steadily diminishing and our efforts to meet its problems are unflagging."

Mr. Howard, in his letter of Aug. 26, put aside hostility "from financial racketeers, public exploiters and the sinister forces spawned by special privilege" as of "slight importance," but said that men of "patriotism and

WESCOTT'S Since 1879

sense of public service" have become convinced:

"That you fathered a tax bill that aims at revenge rather than revenue—revenge on business.

"That the administration has side-stepped broadening the tax base to the extent necessary to approximate the needs of the situation.

"That there can be no real recovery until the fears of business have been allayed thru the granting of a breathing spell to industry, and a recess from further experimentation until the country can recover its losses."

OHIO IS FURTHER DAMAGED

Columbus, O.—The elements whipped Ohio streams into another frenzy of destruction, adding thousands of dollars damage to the millions in losses caused by last month's disastrous floods. The Hocking river, rising steadily, swept over hundreds of acres of farmland in the lower Hocking valley and threatened to isolate Athens.

Twenty-three families were made homeless when muddy waters invaded their homes at Mineral, Athens county. Dozens of smaller streams in the county ragged out of their banks, and numerous highways were inundated.

CANADA WANTS NO WAR

Ottawa.—Prime Minister Bennett opened his general election campaign with an address in which he asserted Canadians would not be "embroiled in any foreign quarrel where the rights of Canadians were not involved."

STATE TAXES CAR LINES

Governor Cochran met with State Tax Commissioner Smith and other members of the state board of taxation Thursday and assessed private car lines which last year paid a tax of \$33,280 direct to the state treasury. This tax has been gradually growing less each year because gasoline is being transported in trucks to greater extent and less in railroad cars. The state board assesses the companies on a mileage basis and value per car combined by fixing a mileage for each kind of car, including refrigerator, stock, tank, fruit, flat, poultry, coal, box and furniture cars. The board adopted the same average mile basis and valuation basis used last year. The value of the cars range from \$745 for refrigerator to \$277 for flat cars, and the per day mileage from 150 for refrigerator cars to 50 miles for furniture cars.

The board took no action on assessment of half a dozen interstate bus companies. Last year depreciation of cars was fixed by the board 20 percent for the second year, 30 percent for the third year and 40 percent for the fourth or subsequent years. The bus companies object to the deduction for the fourth and subsequent years as being too small. Seven bus companies last year paid the state a total tax of a little less than \$6,000. They are taxed on the average levy in the state which was 19 mills last year.

LAD IS DRAGGED TO DEATH

Eustis, Neb.—Stacy Jack, 11 year old son of Mr. and Mrs. Chester Jack, kicked the faithful family horse Wednesday, and was dragged to his death when his foot caught in a strap as the horse bolted.

Young Jack was hitching the horse to the buggy in which he and his brothers and sisters were going to ride to school when the accident occurred. While trying to back the horse into the shafts, he gave the animal a kick.

The boy's foot caught in the hold-back strap as the frightened animal dashed out of the farmyard, dragging the youth nearly a mile. He died within a few minutes after his brothers reached him.

Rush Road Program Jobs is the Order

Nebraska's Seven Million Dollar Highway Building Program to Capital This Week.

Spurred by relaxation of WPA labor rules, Nebraska and Iowa yesterday were rushing plans for huge highway building programs to join in the WPA drive toward substituting jobs for relief.

Nearly all of Nebraska's seven million-dollar highway improvement and grade separation program under WPA will be in the hands of Washington officials by the end of the week, State Engineer A. C. Tilley said at Lincoln yesterday.

Approximately half of that sum will be used for grade separations. Tilley already has submitted to Washington about \$1,000,000 of grade separation projects, all of them providing for relocation of roads rather than for underpasses and overpasses.

The remainder of the railroad crossing elimination program has been prepared and was sent to the United States bureau of public roads in Omaha yesterday. The list of projects will not be announced until they have been approved there.

Tilley also was to send to Omaha late yesterday highway improvement projects to consume about 75 per cent of the WPA allotment for this state. These projects also will be announced after they are approved in Omaha.

A 10 million-dollar road program in Iowa was launched yesterday by the state highway commission at Ames following approval of the first group of contracts for bridges, culverts, paving grading and traveling. The extensive improvements are embraced by President Roosevelt's federal aid program.

Low bids, as approved by the highway commission, will become effective with the sanction of the bureau of public roads office in Omaha.

SLAYER ELECTROCUTED

Huntsville, Tex.—W. D. May, 39, gaunt gray-haired farmer, was electrocuted in the state prison here for his part in a triple slaying near Fort Worth in July, 1933.

TRANSFER KRUG ASSETS

Omaha.—Federal Judge Donohoe approved the reorganization of the Krug Brewing company here under which all assets were transferred to a new company, a subsidiary of the Falstaff Brewing corporation. Judge Donohoe ordered that notice be sent to all creditors and stockholders of the Krug company for acceptance by them before Sept. 1. The new company has not been named yet.

ITALY REVEALS ARMY TOLL

Rome.—An official communique announced the death of 130 officers and soldiers, from Jan. 1 to Aug. 31, in Italy's East African colonies.

Between the end of June and the end of August, 14 officers and 79 soldiers died, the communique said—most of them stricken by the broiling sun. These figures did not include workmen, of whom it was estimated a little less than 200 died.
