Raise Funds to Repave Street on District Plan

Response of Property Owners to Sixth Street Paving Plan Indicates Success of Proposition.

The subscriptions in the Sixth street paving district have met with a strong response from the property owners who are being assessed on the district plan, paying their proportion of the tax back from the frontage, back three lots.

The fine response that has been given indicates that the amount necessary to raise will be subscribed easily and will make possible the realization of a crying community need, that of the pavement of the street that has in the past ten years been going from bad to worse in the two block stretch of highway from Vine to Pearl streets.

The deep holes and bumps in the street have caused more wear and tear on cars than any one stretch of road in this section of the state and no motorist that has occasion to travel over the street but what looks forward to the time when the old paving will be replaced with a concrete pavement that will be designed to sustain the heavy traffic.

The offer of the WPA for this project is one that offers the solution to an almost hopeless cause and will make a civic improvement that will be a community benefit.

SURPRISE FOR MRS. MULLEN

Wednesday evening a group of the Catholic ladies of the city tendered a most pleasant surprise in honor of Mrs. Emmett Mullen, who departed today for her home at Hastings.

The pleasant event was held at the home of Mrs. Frank M. Bestor on North Fourth street, where a large group of friends had gathered to spend a few hours with Mrs. Mullen, who during her residence here has made a large circle of friends and who regret very much to see her departure from the city.

The evening was spent in bridge and in which Mrs. L. S. Pucelik was awarded the first honors and Miss Minnie Guthmann, the second. Mrs. Mullen was also presented with a very attractive guest prize as a token of the esteem of the friends.

Dainty refreshments were served at an appropriate hour by the hostesses to add to the pleasures of the occasion.

GIVES FINE ADDRESS

One of the features of the Thursday afternoon session of the Nebraska State Bankers association, meeting at Omaha, was the address of Prof. R. F. Patterson, of the history department at Tarkio college. Mr. Patterson in his address told the delegates and members of the association that America has a triple heritage.

"Our first heritage from the pioneers was founded on hard work—not relief," he said. He was applauded.

The second legacy, he stated, is the enjoyment of liberty under a constitutional form of government.

The third heritage he described as "small-town neighborliness."

"We are a nation of small towns and rural communities," he continued. "Were we to remove them, grass would grow in the streets of our cities. In this scheme of things, the country banker plays an important role."

The annual banquet was held Thursday night in the Paxton ballroom. James B. Owen, president of the Omaha Clearing House association, as toastmaster, introduced Tom Collins, Sunday editor of the Kansas City Journal Post, and "Count Ernesto Russo of Milan, Italy."

VERY HAPPY EVENT

Platters Lose to the Auburn Bulldogs, 24-0

Bulldogs With Clever Fakes and End Runs Score Three Touchdowns in the Opening Half.

The Plattsmouth high school football team Wednesday afternoon at Auburn dropped the game to the Bulldogs by the score of 24 to 0.

The pupils of Coach Ralph Higgins opened the game with a hard fought attack on the Platters, using their shifty end plays as well as spinners to garner themselves three touchdowns to place the game in comparative safety for the rest of the contest.

The Plattsmouth defense stiffened in the last half and Auburn was able to score but one touchdown against the locals, many of the passing attacks of the Bulldogs being broken up and spoiled.

The Platters the coming week will face Tecumseh, another of the hard nuts of the southeastern conference and who have a sustained good record for the season.

Local People Find Eastern Conditions Better

Mr. and Mrs. George K. Hetrick Return From Auto Trip to New York and Pennsylvania.

Mr. and Mrs. George K. Hetrick have returned home from a very pleasant auto trip through the eastern states, visiting for some time in New York and Pennsylvania, in the latter state spending a great deal of their time at the home of a sister of Mrs. Hetrick at Mt. Carmel.

Mr. Hetrick, who operates the Plattsmouth Produce in this city took the occasion to look into the general condition of affairs and was pleased to find that in Pennsylvania especially that the conditions are apparently growing better every day.

He reports that in many places signs, "Men Wanted" were to be found on the gates of large manufacturing plants and that employment was being rapidly regained. The cotton mills were some of the plants that were operating at full capacity and with many orders to be filled, while the coal mines were also running at their peak for the first time in a number of years and generally reflecting the expansion of business and the demand for their output. Steel mills and plants were being operated at about a fifty per cent normal force.

In this section of Pennsylvania there is little butter made and this was of course, of great interest to Mr. Hetrick. The area supplies milk for Philadelphia, Rochester, Erie, New York City and other of the large centers of population and consequently there is little butter manufactured, this being largely shipped from the dairy country of the western states to supply their need.

Murray Girl Injured in Accident Thursday

Josephine Staska Suffers Fracture and Dislocation of Left Shoulder in Fall From Tree.

Thursday afternoon while Josephine Staska, 12, with her brother were engaged in playing at their home at Murray, the girl was the victim of a very serious and painful accident and which will make necessary her remaining quiet for some time.

The two children were playing and the brother was pulling Josephine up to the limb of a tree some eighteen feet from the ground, and while not quite to the limb the rope broke and the girl was hurled to the ground.

The force of the fall resulted in the severe injury to her shoulder and caused much suffering as she was hurried to the office of Dr. Tyson at Murray where the injury was dressed and she later was brought to Plattsmouth for an X-ray at the dental office of Dr. W. V. Ryan. The X-ray disclosed that the shoulder was dislocated and the bone fractured.

Paving of Sixth Street will Aid the Relief Rolls

Ninety Per Cent of Government Aid to Be Expended for Labor Costs on Paving.

The repaving of Sixth street for the two blocks from Vine to Pearl street will represent the expenditure of \$8,000 to \$9,000 by the WPA on labor costs and which will aid to that extent the unemployed and those on relief rolls in the city.

This figure will be a strong boost in the hard and trying winter for those unemployed or on relief in this community and lessen the cost of the necessary maintenance of the needy which falls on all of the taxpayers of the city and county.

With the fine response of the property owners in the district that are being solicited for the assessments for the paving, and also the use of the gas tax funds set aside for highway purposes and nothing else, it seems that this proposition would soon be started as soon as the solicitation is finally completed.

This will mean not only that the city will have a fine strip of paving that is badly needed at a very small cost to the property owners or the community, but as well a real aid in the care of those who are unfortunate enough to be out of work.
