

**WILL ROGERS MEMORIAL FUND**  
Local Committee for Plattsmouth

Date.....

TO THE EDITOR:

Wishing to have a part in perpetuating the memory of one of our most beloved and useful citizens, I enclose herewith my contribution of.....

to the Will Rogers Memorial Fund. I understand that this gift will be added to others from Plattsmouth and will go without any deductions whatsoever to the National Fund to be expended, also without any deduction, as the Memorial Committee may determine.

Name.....

Address.....

**PLANS FOR INTERVENTION**

Washington.—Attorney General Cummings said the government will ask permission Monday to intervene in defense of the Bankhead cotton control act before the supreme court.

Altho the government is not a party to the suit of Lee Moor, Texas cotton farmer, against the Texas and New Orleans Railroad company, the government will ask for one hour to appear and argue its defense of the act.

The argument will take place December 9 and is expected to be the first supreme court test of the case. Governor Talmadge of Georgia has also challenged the constitutionality of the act, but his petition for hearing is still under consideration by the court.

**Land Utilization Project is to be Started in State**

**155,000 Acres to Be Purchased in Sioux and Dawes Counties as Part of Plan.**

Final approval of the Nebraska Pine Ridge land utilization project and allocation of \$700,000 for purchase of approximately 155,000 acres in Sioux and Dawes counties were announced today by Paul McDill, acting project manager.

"This means success to more than a year's work in planning this popular and widely supported project for a section naturally suited to become Nebraska's best forest and park area. We are glad to have approval for purchase of so large an acreage to initiate the project. Originally, we had hoped to be permitted to acquire an even larger area, but stringent economies now being enforced in Washington make this impossible at present."

Planned through co-operative efforts of state, local and federal agencies, the Pine Ridge project will demonstrate better uses for much of the land unsuited to crop production in this interesting portion of Nebraska. Land to be acquired by the Resettlement Administration will consist of dry land farms, drouth damaged ranges, abandoned crop land, cut-over woodlands and young timber of the Pine Ridge Encampment. After acquisition, the area will be developed for grazing, forestry, and recreation in accordance with the individual qualities of each area. Flood control, water conservation, game preservation, and an addition to the state park are among the uses now planned for these lands.

Dry land farms which have proved unsuccessful over a period of years, as well as range lands that have suffered from over-grazing, will be blocked out into economic grazing areas under this project. Organization of grazing districts and co-operative grazing associations will make possible such control as may be necessary to future protection of the grass cover.

Dr. McDill sees much recreational value in the Pine Ridge area. "It should serve," he stated, "as an attraction to summer tourists and vacationists as well as a sportsmen's paradise. The Black Hills of South Dakota have demonstrated the interest which such areas of natural beauty have for summer visitors if properly developed."

Productive farmland areas within the project will not be purchased in this program, unless for use as resettlement areas. "The chief goal of this project," Mr. McDill explained, "is to make our land serve its best purpose. Tracts suited for farming should stay in farms. But land better adapted to grazing or forestry and re-

creation should be changed to these uses. Only by putting each type of land into its most satisfactory use can we make the land return the greatest amount of goods and happiness for human labor."

All land being purchased for this project has been voluntarily offered for sale by the owners. The government is ready to give necessary assistance to those whose homes it is buying; if they need aid in obtaining more productive farms elsewhere they can work out an adequate standard of living.

While the announcement of final acceptance means that the contract to purchase is completed, Mr. McDill said the work of clearing titles may delay actual receipt of money for the land for a considerable time.

**Improved crop conditions and higher prices for farm products will stimulate business. Shrewd advertisers recognize this and will go after increased trade.**

**MAY CROWN SON AS A KING**

Addis Ababa.—The arrival of Crown Prince Afsa Woson from Dessye, where he had been governor general of the province, gave rise to rumors that Emperor Haile Selassie might order his 20-year-old son crowned king in case anything happens to the emperor at the front.

Asta Woson (his name means "expand frontier") could easily be elevated to a throne. Ethiopians point out that since Haile Selassie's title is "king of kings" he possesses the right to have kings under him. In 1928, during the reign of Empress Zauditu, aunt of Haile Selassie, he was crowned king while holding the titles of crown prince and regent. Two years later, following Zauditu's death, the present emperor was invested with full title "king of kings, anointed of God, and conquering lion of Judah."

**JUBILEE PAYS OUT**

McCook, Neb.—McCook business men who subscribed money to entertain visitors at the Republican valley reconstruction jubilee discovered they had a neat balance after nearly all bills had been paid. A report by Rolland Larmon, treasurer of the celebration executive committee, showed a balance of \$1,000.99. The chamber of commerce decided to hold the money in its treasury for an annual celebration.

Place cards, attractive table decorations can be found for the Thanksgiving season at the Bates Book & Stationery store.

**Wabash News**

Guy Hinds was picking corn for Ira Helms last Wednesday forenoon, and during the afternoon was doing some work about town.

Ira Helms and Fred Towle were attending the community sale, which is held weekly at Waverly, driving over last Wednesday afternoon.

L. R. Stanley was in Lincoln last Wednesday, where he went for a load of goods for the store and also looked after some other business while he was there.

Ralph Richards, who has some 38 head of cattle, took them down near Weeping Water, where he is pasturing them as long as the snow does not come to cover up the vegetation. Just now there is plenty of forage, but last year at this time, the ground was covered with snow that remained on almost all winter.

Edgar Henson, who attends school at Elmwood and drives back and forth each day, came near having a serious accident last Tuesday afternoon when he stopped to put some water in his car and a Lincoln car came bowling down the road at a fifty mile an hour rate and before it could be stopped or Edgar could get his car out of the way, the cars collided. No great amount of damage was done.

**Has Job All but Completed**

John H. Woods, who with his crew of truckers, have been hustling during the last few months, hauling and distributing gravel on the different roads of Cass county, has concluded his work for this fall with the exception of one more car, which they are to distribute in the vicinity of Alvo. This work will be held up for a short time, however.

**Car in the Ditch**

The recent rains coupled with intermittent freezing and thawing weather have caused the dirt roads to become very slippery. As a result, our rural mail carrier was unable to negotiate a corner some three miles east of town, the car skidding and landing in a ditch at the side of the road, where it turned over on its side. A telephone call brought a new Ford which she had recently purchased in Lincoln, and with it she made the rest of the trip without further mishap. Louis Reese went out with a tractor and pulled the car out of its resting place in the ditch, bringing it to town.

**BEGIN PROJECT WORK SOON**

Beatrice.—Paul D. Marvin of Beatrice, executive chairman of the \$440,000 Southwestern Nebraska public power district, said Friday work on the project would start in a short time.

Marvin said officials of the district attended a conference with rural electrification administration officials Thursday at Kansas City and were assured by W. E. Herring of Washington, assistant REA administrator, that the administration was anxious to start work in the district, and would do everything possible to rush the work.

Plans for the project have been revised to some extent since PWA first approved a loan for it, Marvin said. Present plans call for the construction of approximately 450 miles of line to serve approximately 1,200 Gage county farmers.

**MCCARL APPROVES PROJECTS**

Washington.—Comptroller General McCarl approved an additional \$212,581,551 worth of WPA projects in twenty-five states. At the same time he released \$387,175,945 in PWA allotments to the states—for application on approved projects selected by state administrators.

New York state led the \$105,019,886 worth of approved projects. McCarl approved \$33,800,108 in addition for New York City. Projects approved included: California, \$314,206; Illinois \$6,026,510; Iowa \$530,219; Kansas \$1,626,159; Kentucky \$567,390; Missouri \$2,696,056; North Dakota \$954,040; Ohio \$2,587,834; Oklahoma \$1,061,640; Washington 760,038; Wisconsin \$2,026,901; Wyoming \$75,618.

**RETAIL TRADE RISES SLOWLY**

New Orleans.—The slow rise in retail trade during the week was contributed almost entirely by moderate expansion in sections where colder weather prevailed. Dun & Bradstreet said. "As the covering of fall requirements, which had been held in check since mid-October, proceeding on a generous scale in those districts gripped by sold, volume of retail sales was 3 to 10 percent larger than a week earlier," the survey said. "The estimated gain for the country over the 1934 comparative ranged from 5 to 15 percent, with cities reporting a loss in the minority."

**"Ponies" ... SNUG, CHIC, COMFORTABLE**

• Munsingwear's "Ponies" for coolish weather. Smooth, skin-tight, style-knitted vest-and-pant sets and suits. Light, warm and comfortable. Because they're knit by Munsingwear they're the best available. And so inexpensive.

**Alvo News**

Willard and Reo Timblin left on Tuesday for Murray, where they are husking corn.

Mr. and Mrs. L. M. Hauptman were Friday evening callers at the Glenn Dimmitt home.

Mrs. Carl Johnson and Mrs. Harvey Hires called on Mrs. Minnie Peterson Thursday afternoon.

L. B. Appleman, who has been on the sick list for several weeks, has been confined to bed for the past week. He is suffering from heart trouble.

The neighbors have been helping Carl Johnson with the cleaning out of the old basement and the hauling out of the old rock as they are making preparations to rebuild.

William Kitzel and family have moved from the Will Hoffman place into the property known as the Richard Schuelke place about four miles south of Greenwood.

The Alvo school plans to observe National Educational week by presenting special school features each day during the week to which the public is cordially invited to attend.

Mr. and Mrs. Edgar Edwards and children and Misses Ann and Shoemaker enjoyed the birthday dinner on November 5 for Miss Dorothy Peterson at Mrs. Minnie Peterson's home.

Mrs. Carl Johnson has been staying with her daughter, Mrs. Harvey Hires. Carl Johnson and Junior have been staying at the Hires home at night since their home burned Friday afternoon.

Mr. and Mrs. Sherman Wolf, Mr. and Mrs. Don Shelton, Mr. and Mrs. John Skinner and Jack and Mr. and Mrs. E. D. Friend were delightfully entertained Sunday at the Eddie Craig home at Murdock.

Rev. and Mrs. McKenzie and a group of young people drove to Cedar Hill church Saturday evening for a meeting and social hour with Epworth Leaguers of other churches. A very pleasant time was enjoyed by all.

The Alvo Woman's Reading club was very pleasantly entertained at the home of Mrs. John Banning Thursday afternoon, November 7. Mrs. Harry Appleman and Mrs. H. E. Bornemeier had charge of the program.

Mr. and Mrs. John Skinner and son, Mrs. Emmett Friend and Mrs. Sherman Wolf were shopping in Lincoln Wednesday. They called on Mrs. Lloyd Fifer, who is employed at the Louisville Coffee Shoppe, while in Lincoln.

Wednesday, November 13, will be the last day to get your tickets for the Father and Son banquet to be held Friday evening, November 15, in the church basement. The boys of Archie Miller's Sunday school class have the tickets for sale.

Mr. and Mrs. Roy Coatman entertained Mr. and Mrs. Sterling Coatman and children and Miss Dorothy Peterson for dinner Wednesday evening, the occasion being in honor of Miss Peterson's and Sterling Coatman's birthdays.

The quilt committee for the Mothers' and Daughters' council met with Mrs. Mark Nickel Wednesday afternoon, at which time the ladies of the committee and a few other ladies who came to help, sewed the quilt together and tied it. It is now completed. The club plans to present it to the Ladies Aid to sell at the bazaar to be held some time in the near future.

**Schoolmaster's Club Meets**  
Twenty-six School Masters enjoyed a dinner served by Mrs. Turner McKinnon's group of the Ladies Aid on Wednesday evening, November 6, in the church basement. A very interesting program was given, including a dance by Beverly Elliott, a solo by Dale Ganz, a splendid talk by S. M.

Corey of the Psychology department of the University of Nebraska, and music by the brass quartet.

**Honored at Shower**  
A kitchen shower was given Mrs. Carl Johnson by the ladies of the entire community Friday afternoon, November 8. She was also presented with canned fruit and vegetables.

**Home Destroyed by Fire**  
The Carl Johnson home burned to the ground Friday afternoon, October 1. The origin of the fire cannot be determined as it had made considerable headway before discovered. The men had gone to the cornfield and Mrs. Johnson was lying down when she heard an unusual sound and was aroused and thought she could smell smoke. Upon investigation she discovered the north porch was on fire. She was on her way to summon help, when she was overtaken by some folks from Lincoln who aided her in summoning help.

Most of the furniture and clothing was saved except that which was in the kitchen and basement, this being a total loss.

**WEBSTER ASKS RELIEF FUNDS**

Lincoln, Nov. 7.—Webster county Thursday signified it would not be able to carry the relief load when the federal emergency relief administration closes in Nebraska, Dec. 1.

In a letter to Ernest F. Witte, FERA administrator for Nebraska, county commissioners said that drought, depression and floods had wiped out the county's resources.

A direct plea for continued aid climaxed the board's resolution, copies of which went to Witte, to Frank D. Throop of Lincoln, chairman of the state assistance committee; B. F. Perry, Nebraska old age pension commissioner; Governor R. L. Cochran, and both of Nebraska's U. S. senators.

"Whereas the funds of this county are totally depleted and conditions in general very discouraging," the resolution said. "The board solicits assistance of state and federal funds to adequately care for all non-employables, hospitalization and administration costs in connection with caring for the needy."

Place cards, attractive table decorations can be found for the Thanksgiving season at the Bates Book & Stationery store.

**"Fireman Roosevelt"**

**President Roosevelt**  
Although admitting the only fire he ever attended was put out before he arrived, President Roosevelt was honored for 25 years' service as member of the volunteer fire department at his home at Hyde Park, N. Y., by other members of the organization.

**Novel Innovations Feature 1936 Auto Models**

Numerous innovations in design and mechanical construction are featured in the new 1936 models now on display at automobile shows throughout the nation. One streamlined model, top, has headlights which are enclosed in the fenders, projecting by means of a lever on the dashboard. Another new

Miss Dorris Miller—Automatic jack device

wrinkle is the automatic jack which can be operated from the dashboard when the motorist has a puncture. As an added attraction to the Cleveland auto show, Miss Dorris Miller appears in a style show wearing a novel swim suit which was made from old inner tubes.

**Agency Service**

This old well established agency is prepared to give the best of service in case of a loss or claim.
