Old Age Pensions are Paid in 21 States

Federal Government Is Now Passing Out \$2,000,000 a Month to 250,000 People.

Washington. — Social security board figures showed the new deal's system of old age pensions for the needy is rapidly spreading thru the nation.

The federal government is now passing out about \$2,000,000 a month for grants to almost a quarter of a million people in 21 states and the District of Columbia. Plans for extending the pensions to an even greater number in eight additional states are awaiting approval of the board.

These figures indicate that as soon as all states have come into the system, the government will be appropriating more than \$100,000,000 annually—matched by equal state funds—for pensions to more than 1,000,000 people over 65 years of age. Federal officials express hope it will go far toward caring for the estimated 1,500,000 needy unemployables who are not eligible for work relief.

Figures available to the board on the side of the pensions being paid by the state were estimates only, because the federal funds are turned over in lump sums. But these estimates indicated the pensions were running from \$10 to \$30 a month, with an average of \$17.50, or somewhat lower than had been forecast by the experts.

This average probably will be raised, however, when the big industrial states come into the plan. New York, which has paid the highest state pensions in the past, has not yet qualified.

Plans have been approved in 21 states and the District of Columbia, 223,913 persons, with a monthly outlay of \$3,928,492 (half contributed by the federal government.)

A LESSON FOR THE WHINERS

Chicago.—Blind Thomas Howard Overton, 31, and armless Stanley A. Kasprzyk, 22, were headed for a career in law Tuesday on a co-operative basis.

How they pooled their physical resources was disclosed Monday when Overton, announced by the Chicago-Kent college of law as the high ranking scholar in the freshman class of 175, insisted that Kasprzyk deserved some of the credit. Kasprzyk, he said, was his "eyes"—and he was Kasprzyk's "arms."

They met by chance their first day in school when the armless student guided his blind classmate down a flight of steps. When they reached the door at the bottom Kasprzyk couldn't turn the knob to open it. But Overton could. Overton could carry books, but not read them. Kasprzyk could read, but not carry books. The logical association developed by mutual consent, Overton learned. "I take notes in class with a punch on a Braille form board," he said. "Out of class Stanley reads to me and I transcribe my notes on a typewriter for him. For each of us it is just a matter of working harder to overcome a physical handicap."

When written examinations are required, Kasprzyk is forced to call upon one of his brothers to write for him. Otherwise the two handicapped students are "co-sufficient," they agreed.

Candidate for Unicameral Gives His Viewpoints

Ernest Haning for Honesty, Horse Sense and No Foolin' in Government.

TO THE VOTERS OF CASS AND SARPY COUNTIES: As a candidate for Representative for Cass and Sarpy counties, will say I am 54 years old and have farmed in southeast Nebraska for 30 years. I realize that I am unknown to a majority of the voters of my district, but believe honesty and principle are of more importance than personal acquaintance. Not having been a former member of the Legislature, I do not have to apologize for my former record. In politics, I am a Liberal Republican.

ERNEST HANING

but am opposed to hampering sound legislation thru political prejudice.

Let us have a short and efficient session by eliminating useless legislation which is of no value to business or society.

I believe in financing old age pensions by a general sales tax, which will operate on the buying capacity of the public in general, rather than upon the buyer of gasoline, as is done at present.

There are not enough improved "farm-to-market" roads for the amount of gas tax collected in the state. Instead of paved race tracks, give us better roads in the rural communities.

In short, let us have "Honesty, Horse Sense and No Foolin' in Government."

ERNEST HANING.
