Triennial Conference Associated Women of World.

With increasing interest shown on the part of Nebraska farm women in the forthcoming Triennial Conference of Associated Country Women of the World to be held soon in Washington, a delegation to that gathering from the Cornhusker state was assured this week.

Traveling by bus, the Nebraska delegation will probably number about thirty women from all parts of the state.

An assembly of some 1,500 rural women representing more than 70 nationally organized associations in over 40 nations of the world will convene under one room in the conference for a study of their mutual problems.

Simple clothes will be the order of the convention, even for its more elaborate occasions. No woman can say, "I would have gone to that conference, if I could have afforded the new clothes necessary for the trip."

That interest in foreign countries in the convention is running high is indicated in the fact that names of delegates from 16 countries had been received by the middle of March in Washington.

These countries included Australia, New Zealand, Caylon and three sections of Africa. Delegates will come from every province of Canada and thirty delegates are already registered from England.

Seed Corn Problem Becomes More Acute.

The nearer corn planting time comes, the more farmers there seems to be looking for seed. Many have found in the last few days that their early picked corn will not grow. Some corn, picked last fall and kept in the furnace room has a low germination.

Over 240,000 Trees Planted in Cass County in 1936.

Just how many trees have been planted in Cass county this year is not known but records are available to show that the CCC camp has planted 225,000 on the various farms they are working on and farmers ordered 17,000 of the Clarke-McNary seedlings.

The Gentlemen Evidently Do Not Agree

John Henry to John Nance My Dear John: How long are you going to tolerate that apostasy of the Roosevelt administration to the cardinal principles of the Democratic party and its notorious contempt for the plain terms of the Constitution?

In the correspondence subpoenaed by the Senate Lobby Committee, the two letters quoted above were found which were written by Vice-President John N. Garner and John Henry Kirby, millionaire lumberman and chairman of the Southern Committee to Uphold the Constitution.

Young of Nehawka, planted over 13 hundred on his farm. Mr. Young has replaced the old winbreak which was killed by the 1934 drouth and the severe cold last winter. These old boxelder, cottonwood, and maples, are being replaced with Chinese elm, American elm, Austrian pine and hackberry.

This, without a doubt is the record breaking year for tree planting in Cass county.

Win Trips to 1936 4-H Club Week.

Six Cass county 4-H club members are assured of a trip to the 1936 4-H Club Week in Lincoln, June 1 to 6. These trips have been awarded them as a result of outstanding work in 4-H projects during 1935.

Club Week is open to any 4-H club member or leader who care to attend and pay the registration fee of \$8.00. Application blanks and other information are available at the Farm Bureau office to any one interested in attending.

Chilson School Has Windbreak.

A three-row windbreak composed of Russian olive, Chinese elm, and Austrian pine, was planted on the Chilson school grounds, 3 miles north and one east of Weeping Water on Highway No. 1.

The trees were planted by the CCC boys after the ground was prepared by Oscar Domingo, school director.

The trees were furnished by the State Nurserymen's Association for demonstration school ground plantings. Chilson school was picked by the Extension Service for one of the few demonstration plantings in the state.

Three rows of trees will be planted on the north and west with the rows 10 feet apart. The trees in the outside row will be Russian olive, planted 8 feet apart. The center row will be Chinese elms, planted ten feet apart and inside row Austrian pines, planted 12 feet apart.

It is hoped that the demonstration will be an incentive for other schools to do something in the way of windbreak and tree planting. Tree plant-

ing seems to run with every other generation. Grandfather planted the old wood lots in the county, father enjoyed them and had the wood and protection they offered, but did not do anything to replace them. Now they are about gone and the son is faced with the problem of replacing them and going on for ten years or so without a grove or windbreak, until one grows up.

School ground plantings should stimulate interest and love for trees in children's minds as well as the minds of the school directors and parents.

Corn Planting Intentions.

That Nebraska farmers may plant an excessive acreage of corn in 1936 is foreseen in official estimates recently announced by the Bureau of Agricultural Economics in the U. S. Department of Agriculture. The report says farmers intend to plant 15 per cent more acreage to corn this year than was harvested in 1935.

Farmers have said they intend to plant 8,993,000 acres to corn this year. This compares with 7,820,000 acres in 1935 and 6,676,000 in 1934. The average for the period, 1928-1932 was 9,803,000. The letter acreage contributed to the break in the market price for the farm products.

That the increase in planting intentions for the country as a whole is less than in Nebraska is also observed in the report. Farmers throughout the country intend to plant 6.5 per cent more acres to corn than there was in 1935.

Spraying Time Soon.

It won't be very long till spraying time. The weather is an important factor in the success or lack of success of a spray schedule. But let's not blame everything on the weather. Prompt, thorough coverage of all parts of the tree and fruit are essentials to successful control of pests.

Apples: Scab was present in most orchards last year in sufficient quantity to provide overwintering spores in large numbers. It develops in cool wet weather, affects leaves, fruits and stems very severely in some years.

Spray when the buds show pink and after the flower stems have begun to separate, using lime sulfur solution 4 or 5 quarts to 50 gallons of water or 3 or 4 pounds of dry lime sulfur to 50 gallons of water. This spray will check red spider, if the trunks and branches are thoroughly covered. If early leaf eating worms (like spring canker worm) were present last year, include one pound of lead arsenate per 50. These same recommendations hold for pears. Some growers feel that this cluster bud spray can be omitted safely 4 out of 5 years. True enough in a dry season but dangerous in a wet one. If you are sure which it will be, act accordingly. If not, better insure by spraying. Delicious, Wingsap and Black Twig are particularly susceptible to scab. Don't fail to spray these.

Cherries and plums: When the petals have dropped, spray with 1 1/2 gallons lime sulfur and 1 1/2 pounds lead arsenate to 50 gallons of water. The lime sulfur is for leaf spot (also called shot hole fungus) the lead arsenate for curculio and cherry slug. Peaches can be passed up this season in most parts of the state. But where the trees are alive, they should be given dormant spray for peach leaf

curl using 2 1/2 gallons of lime sulfur to 50 gallons of water.

Black Raspberries should be sprayed immediately for anthracnose, using 1 gallon of lime sulfur to 8 of water. Just before the blooms open, use lime sulfur 1 gallon to 0 of water.

Second Apple Spray: When 3/4 of the petals have fallen, spray again with lead arsenate 1 1/2 to 50 and a fungicide. This is the most tender age of the young apple. Russeting may occur on tender varieties like Jonathan, Golden Delicious or Grimes if strong Bordeaux or lime sulfur are used. If the weather is cool, lime sulfur 1 gallon to 50 may be used with safety or 3 pounds of dry lime sulfur. Some growers are afraid of these caustic sprays and are planning on reducing the lime sulfur to 1/2 gallon and 1 1/2 to 2 pounds of wettable sulfur to 50 gallons. If the season is cool and wet (favorable for scab) better use lime sulfur since it is much more efficient in scab control than are the weaker sulfurs.

OMAHA FIRM IS LOW BIDDER

Columbus, Neb.—The firm of Condon and Kiewitt of Omaha was revealed as low bidder on the bridge to be constructed where the Burlington railroad tracks cross the Loup river public power district directors opened bids here Tuesday.

The Omaha firm's bid was \$16,900 on the bridge and \$1,495 on the optional provision of removing the earth plug at the point where the bridge will be built. Engineers' estimate of the bridge construction was \$24,000.

Four tie bids of \$25,186.84 were submitted on instrument transformers for the Columbus and Monroe power houses, General Electric Supply company of Omaha being one of the bidders. Eight tie bids also were submitted on bus supports and pedestals for the power houses.

The General Electric company was low bidder on oil circuit breakers for the power houses; Westinghouse Electric company on lightning arresters for the two plants, and the Railway and Industrial Engineering company on disconnecting switches, fuses and steel support structures. The bids, all below estimate, were referred to the engineers for check.

Italy Wants Him

Asfao Woson As Italian troops near Addis Ababa, reports are heard from the front that Emperor Haile Selassie is ready to abdicate in favor of his son, Crown Prince Asfao Woson, who favors immediate peace with U. Duce.

Weeping Water

Lawrence Group of near Louisville, was a business visitor in Weeping Water Tuesday of this week where he was looking after some business matters as well as having some plow work done.

O. O. Kimber, manager of the new firm of Rudge and Gunzel Maytag company of Weeping Water and Lincoln, was over to Lincoln last Wednesday looking after some business for the company.

Cecil Davis and family went over to Plattsmouth on Tuesday evening of this week where they are spending a few days visiting at the home of Mrs. Davis' folks, Mr. and Mrs. Herbert Nelson and family.

Mr. and Mrs. Ross Shields were in Lincoln last Sunday where they were guests at the home of Mr. and Mrs. Edward Murphy for the day and also for a fine dinner. They remained until evening, driving home to arrive before night fall.

Mr. and Mrs. Frank Johnson of Lincoln, were visiting in Weeping Water Tuesday of this week and while here were guests of Mr. and Mrs. G. R. Binger, who had been enjoying a visit on Easter at the Johnson home in Lincoln.

Grandmother Mrs. W. H. Frizel has been in very poor condition and has been kept to her home and bed by reason of her very delicate health and her crippled condition. She is very cheerful and takes her being shut in in a very psychological manner.

The Weeping Water Woman's club was meeting last Tuesday afternoon at the home of Mr. and Mrs. Clarence E. Pool where they enjoyed a very pleasant afternoon and an excellent program as well as following the social hour they were served a delicious luncheon.

H. C. Bloodgood of near Louisville was a visitor in Weeping Water on Tuesday, driving over to look after some business matters for a short time. Mr. Bloodgood who has been in the blacksmithing business for some time has changed his occupation and is now engaged in farming.

John Cole was a visitor in Omaha Tuesday of this week where he went to secure a 1936 V-8 Ford automobile which he had recently sold to Paul Mann, making his home a short distance north of Manley. Mr. Mann accompanied Mr. Cole to the distributing house in Omaha to make selection of the new auto.

Ralph Binger who has been over to Lincoln taking some work at the state university, was tendered a position as billing clerk at the Terminal building and has accepted the same and is employed there, having in hand the dispatching of goods over the various truck lines which run in every direction from Lincoln.

O. E. Oldham was feeling rather poorly during the first of the week and on Monday was compelled to

Exposed Bond Ring

Pia Ferrari Davico Recent arrests in New York of alleged members of an international bond theft ring are reported to have resulted from attempted sale of stolen bonds by an alleged member of the gang to Pia Ferrari Davico. Two suspects have been arrested in Paris by police working on the case who say ring stole and disposed of at least \$4,000,000 in American bonds.

White Slave Story

White slavery charges may be lodged against Patsy Rossino, below, said to have a wife and child in Philadelphia, if federal agents prove true the story of Wanda Usenski, top, who alleged on appearance in Chicago court that she had been forced at gunpoint to submit to Rossino and accompany him to Chicago to live

keep to his bed during the day and evening. However he was feeling some improved during the evening and much better on the following morning, and later made a trip to Omaha with a truck load of produce.

Mrs. Thomas Christian who has been at the University hospital in Omaha where she has been receiving treatment and where she underwent an operation, is so far recovered that she was permitted to return home during the latter portion of last week. While she is considerably improved she is far from being in her former state of health but with the continued gain, it is hoped she will soon be back to her normal condition.

Will Operate in Sarpy.

Ole Olsen who has been engaged in Cass county and about Weeping Water in the line of quarrying stone moved a portion of his outfit to a site in Sarpy county over the Platte river north of Louisville where he will operate as well as continue his work here.

Sponsoring Symphony.

The Weeping Water Woman's club is preparing a symphony orchestra concert which they are to put on Monday, April 28th, when the receipts will go for the benefit of the library which is a very commendable proposition for the ladies of the Woman's club.

Enjoyed Pleasant Afternoon.

The Friendly Ladies, which is an organization of a number of the ladies of Weeping Water who have associated themselves together for mutual benefit, socially, intellectually and for pleasant gathering, were meeting last Tuesday at the home of Mrs. Andrew Olsen where they enjoyed a very fine meeting with an excellent program and as well a delightful social hour and as well enjoyed a very fine luncheon which was served by the genial hostess.

Business Changes Hands.

EX-Postmaster Clinton Wilkinson

Paint Up AND Clean Up New patterns of WALL PAPER for all rooms—as low as—per Roll 5c Paints Glass Varnish Enamels, etc. F. R. Gobelman Wall Paper and Paint Store, 541 Main St.

a few days ago made the purchase of the business of Former Postmaster George Olive who has been in business now for the past twenty-three years in Weeping Water. Mr. Wilkinson took over the business early this week. Mr. Wilkinson will continue the business for the present much the same as it has been conducted with the exception he will not handle beer and will not expect to do so. With the extensive acquaintance of Mr. Wilkinson he should be very successful in his new enterprise.

Home from the South.

Mr. and Mrs. Carl Day who have been making their home in Florida during the entire winter where they enjoyed the splendid climate of that country and escaped the rigors of the winter as we found it here during the month of January, February and a portion of March, have returned home. On their return they were accompanied by Miss Helen Clarke who has been spending the winter in the south. While they have been enjoying the time spent in the southland, they were especially pleased when the home and the home folks were sighted. However fine the winterland may be and however enticing, there is nothing just like the homeland and the real home and home folks. We are pleased to welcome you all home again.

Business Changed, Manager Retained.

The Hill Maytag company of Lincoln and Weeping Water which has been doing much business here during the past few months and which has been represented in Weeping Water by Mr. O. O. Kimber, has been disposed of and the business taken over by the firm of Rudge and Gunzel of Lincoln who will operate the two places as he has been doing for the former owners. Mr. O. O. Kimber remains as manager of the Maytag company business here.

Cass county has no bonded indebtedness, as, like the state, it has paid cash for its gravel roads and other improvements. That's a mighty good policy to pursue.
