DONAT'S FORGE ON TO VICTORY

Last evening the Donat's Falstaff team of the softball league forged on to victory when they annexed the game from Timms Budweisers by the score of 16 to 11. The Donats played a fine fielding game and but one bobble was checked against them while their opponents pined up nine errors to add to their downfall.

Both teams scored in the opening inning with plenty of hitting. Bob Hinz opening for the Timms with a triple while Clyde Brittain and Rolf both drew doubles. Clark and Seitz for the Donats doubled and Brizendine took a single to place both teams in a three all tie at the opening.

The succeeding innings were marked by many walks for the Falstaffs as well as errors that aided them in the scoring while Jack O'Donnell poked one on the nose for a triple in the fourth inning.

In the ninth inning, the Budweisers, trailing their opponents staged a rally that looked bad for a few moments. Rolf, Shrader and Kriskey all singled and Turner was given a pass to first base, with none out and then Robert Hinz again laid the wood on the mushpot for a circuit drive and to clean up the situation, but the succeeding batters were held by the Falstaffs.

The box score of the game was as follows:

SET RECORD IN CROPS FILED

A new all-time record number of producers has filed applications for small grain certification with the Nebraska Crop Growers association according to P. H. Stewart, secretary of the crop grower in charge of certification.

Mr. Stewart reports 120 applications for small grain certification in 1936 as compared to 45 in 1935. Application blanks for hybrid corn, Atlas sorga and alfalfa have been sent to producers, and due to the increased interest of this year, he expects a record number of each to be returned.

Darrell Bauder, who is doing the inspection work for the crop growers, started last week in southeastern Nebraska making an initial inspection. The fields to be certified must meet requirements set by the association. Demonstrations on farms where winter wheat varieties have been planted will probably start within the next ten days.
