Summer Club Observes Tenth Anniversary

Children Who Have Completed Reading List to Attend Picture Monday Evening.

Seventy-seven children are eligible for the tenth annual Summer Reading club theater party Monday evening. These young people have completed the reading of six books during the summer, dealing with history, poetry, biography, travel, fiction, and nature. The group, including children from the third through the eighth grade, will meet at the library at 6:30 p. m. then proceed to the theater to see Shirley Temple in "Poor Little Rich Girl." Miss Olive Jones will accompany them. She will be assisted by Mrs. Val Burkel and Miss Minnie Guthmann. Miss Verna Leonard will remain in the library for the evening.

This summer's reading card had as its interest theme, the building of a lighthouse. It commemorates the hundredth anniversary of the birth of Mark Twain—the beloved story writer who built his own lighthouse. Miss Anna Peoples made the reading posters and reading records for the library.

Encouragement of the reading habit and the broadening of interest in reading have been the main objectives in the club since its founding in 1926. No part of the club is compulsory except that one book must be completed in each of the six fields to make a child eligible for the fall party. Guidance in enjoyable activity is becoming more and more popular each year. Plattsmouth may be proud of the fact that its library is celebrating its tenth anniversary of a fine activity along that line.

Sizes of the classes vary from year to year. 111 registered at the beginning of the 1936 summer and 77 have now completed the reading. Of course many have read twice the number of books required for they found that "Except a living man there is nothing more wonderful than a book! ... These, in little sheets of paper, speak to us, arouse us, terrify us, teach us, comfort us, open their hearts to us as brothers."—Kingsley.
