ORGANIZE NEW ORCHESTRA

A snappy new dance orchestra is now organized in this community which comprises some of the talented musicians of this city and Omaha, forming a band that will be able to furnish plenty of the popular dance music as well as the German and Bohemian numbers now so popular with the public.

The personnel of the orchestra will include Art Svoboda, Omaha, one of the best known trumpet players of that city, who will be teamed with William Heinrichsen of this city; Rodgie Rossiter of Omaha, one of the best of the piano accordion players, Raymond Wooster of this city, who will be heard both on the saxophone and clarinet, Peter Gradoville, bass and Glen Mendenhall, drums.

This orchestra will be heard over the air in a few days from one of the Omaha stations and their first public appearance here will be at the American Legion hall on October 17th.

Those who have heard the orchestra are enthusiastic in their praise of the group as one of the best orchestras in this section.

"The Spoken and the Written Word"

Acts 17:1-15; 1 Thes. 2:12. This should prove a very interesting study, for the fact that Thessalonica played such a prominent part in the world war, and the terrible fire, August 10 and 30, 1917, that destroyed the greater part of the city. It was the landing place of English troops, a seaport, now called Salonica. The time is 51 A. D., Paul and Silas the actors in this drama. After leaving Philippi, "they" (Paul and Silas—Luke remaining at Philippi, it is said for seven years) passed through Amphipolis and Apollonia. They came to Thessalonica and there was a synagogue and a great number of Jews. Paul (as was his custom) would give the Jews first chance, reasoning with them out of the scriptures, proving to them that Jesus had to suffer, die and be raised from the dead. The result was quite gratifying; it is interesting to note the frequent reference of women in these Macedonian churches. "Macedonian women were permitted to hold property and were treated as mistresses of the house."—M. R. Vincent. But Satan got busy and soon brought in a disturbing element; a number of Jews and a lot of loafers, the "rabble" of the city, formed a mob and were bound to destroy the preachers, believing them in the house of a man named Jason, but they were not there. So Jason and certain brethren were put under bond (what for?), the mob crying, "Those that have turned the world upside down, are come hither also." What a testimony for the effective preaching! Would to God it could be truthfully said of all preachers today! Yes, the devil has turned the world "wrong side up" and the gospel preacher is trying to turn it "right side up." That is the change Christianity brings to the world.

Even the wrath of men in the Gospels and the Acts is made to praise God. They had heard Paul preach that Jesus Christ is King over all—that was the charge. Well, Jesus was charged with the same offense. "If Rome had honored the King whom Paul preached, it might be standing today."—Frank E. Allen. Well the uproar petered out, but the preachers had to leave town, although the seed was planted in Thessalonica and a flourishing church established.

But their leaving this field brought them into a nobler, richer field, which we shall study now.

Berea is the next stop—with a short history, but a wonderful record. They met a different class of people in this inland city, forty miles from Thessalonica, situated on the

CAPTURE BAD "KITTY"

A group of several of the young boys residing in the north part of the city Saturday morning taking their trusty air rifles and plenty of lunch started out for a day in the open.

The party returned home in the evening, bearing with them a trophy of the chase, a small black animal whose back was wonderfully striped with white. The animal had been aroused by the dog that accompanied the boys and while the animal was killed, it inflicted considerable damage on the party and particularly the dog. As the hunters returned the neighborhood was filled with a not too pleasant odor. The hunters were compelled to shed their clothing and disinfect themselves, the trophy of the hunt destroyed and the dog—well he is still in a bad way despite the treatment that he has received.

LUMBER YARD ROBBED

Tuesday night someone robbed the yard of the Clويد Lumber Co., at Louisville, taking some seventeen rolls of roofing paper. The loss of the roofing paper was discovered this morning by H. A. Funke, former owner of the yard and who lives nearby. Sheriff Sylvester was notified of the crime and visited Louisville, but no trace of the parties taking the paper was found.

Nehawka

City Council Hears Reports of Departments

Routine Business Takes Up Time of Session Last Evening—Start on Winter Schedule.

From Tuesday's Daily

A reminder that the long summer days are no more was given last night when the city council started their regular session a half hour early, the meetings commencing at 7:30 instead of 8 o'clock.

The trial was largely taken up with the routine reports of the various officers of the city government. City Treasurer M. D. Brown reported that the city balance at this time was \$5,483.81, which was deposited in the Plattsmouth State Bank.

City Clerk Albert Olson showed in his report that in the month of September he had collected the sum of \$160.67, which had been turned over to the city treasurer.

Police Judge C. L. Graves reported for the week ending October 1, there had been one arrest and fines and costs of \$8.40.

Chief of Police Joe Libershal reported that for the month of September there had been five arrests and fines and costs had amounted to \$21.65.

A communication was received from Fire Chief Dr. O. Sandin, in which he stated that the firemen's state convention would meet at Columbus on October 20-23rd. On motion of Tippens, seconded by Vroman, the chief was voted expenses of not to exceed \$25, to attend the convention.

Chief Sandin also reported that since August there had been six fires in the city, the most destructive being that of the elevator and contents at the Plattsmouth feed yards.

Councilman Webb reported that in the appeals of the city from the district court decision granting the Standard Savings and Loan association the right of redemption of their delinquent property at the bid price, that there had been no reply brief filed and that the case might be reversed without the court touching on the questions raised by the city and on which they hoped to establish a precedent.

Councilman Tippens reported that the badges for the councilmen had arrived and been turned over to the various members of the council. He also called the attention of the council to the fact that a vegetable market had been opened along Chicago avenue and which on the highway made a distinct menace to the travel. The mayor stated that steps were being taken to have it removed from the highway.

Councilman Bestor of the WPA committee, reported that the signed labor requisitions had not been received from the head offices at Lincoln, as soon as they were here that the work would probably start. Mayor Lushinsky stated that there had been a great many projects suggested but that these would have to await the time when the city as sponsor had funds available to carry them out, the sponsors being required to furnish a certain amount of funds.

There was an extended discussion on a resolution which was suggested by the tax and property committee, in which the right of the city to cancel delinquent improvement taxes was involved, the question being whether the city by purchasing the tax titles automatically merged the delinquent taxes with the purchase, or whether they stood as a cloud on the title of the property involved to future owners. There was some discussion of the matter by Councilman Webb, Councilman Johnson, City Attorney Davis and Mayor Lushinsky.

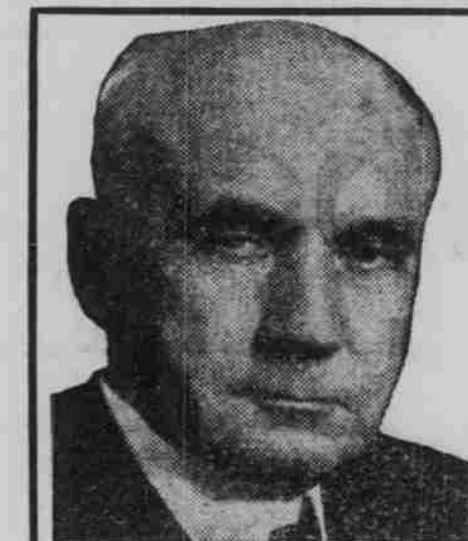

On motion of Councilman Bestor, the city was authorized to pay the amount of the delinquent improvement taxes involved in the property under question, amounting to \$93.10, and assuring a good title to the purchaser without any question.

Councilman Webb urged that the questions involved in the resolutions be prepared in the form of a bill to be submitted to the next legislature to clear up many present doubtful questions of law involving tax property.

The condition of Livingston Road was also given some discussion by the council, there being several places that require repair and which will cost several hundred dollars. The responsibility for the road was also discussed and it was decided to have the streets, alleys and bridges committee take up with the state and federal highway departments the matter or repairing the road.

City Attorney J. Howard Davis gave a very interesting resume of the

HOW YOUR TAX BILL HAS GROWN

(The following figures, taken from the official records of the state treasurer, show the tax income of the state government)

	LAST YEAR UNDER BRYAN	FIRST YEAR UNDER COCHRAN
Property Tax	\$ 4,530,053.49	\$ 4,330,679.45
Gasoline Tax	9,874,839.97	11,205,676.29
Tax on Insurance		
Premiums, Liquor		
Inspection Fees,		
etc.	4,246,389.88	6,139,307.83
TOTALS	\$18,351,283.34	\$21,875,663.67

INCREASE in NEBRASKA TAX BURDEN in first year under COCHRAN. \$3,324,380.33

NOTE: The above figures do not include one penny of Federal money. This is money which came out of the pockets of the people of the State of Nebraska.

WHO SAYS COCHRAN HAS NOT CREATED NEW TAXES?

- 1—How about the one-cent additional gas tax?
- 2—How about the \$2,000,000 in liquor taxes?
- 3—How about the \$2 head tax on every person under fifty years of age?

If the cost of our government had been held down the income from liquor taxes would have brought about a REAL REDUCTION in the property tax levy.
