

Nehawka

Henry Thiele living north of town has added to his means of transportation a new Plymouth pickup, or light truck.

Mr. and Mrs. Robert McDonald were over to Manley for the day last Sunday, remaining until Tuesday before returning home.

Postmistress Lanna McReynolds was visiting with friends in Omaha for over the week end and remaining for Monday as well.

Robert Burton was making scenery for the playlets which the Junior Woman's club are to give at the Auditorium next Saturday.

Will Give Entertainment.

The Junior Woman's club are at this time preparing three separate one act plays which they will present at the Nehawka Auditorium Saturday night, February 13th.

Was Passing Natal Day.

Andrew F. Sturm was born on February 8th, 1863 during the American civil war, and resided in the county and near Nehawka all his life, being born on the old homestead near Nehawka. When Mr. Sturm was a lad there were many Indians in the country here and he distinctly remembers when they came to the home and his mother gave them bread and as Mr. Sturm's father was a farmer and raised much cane and made molasses, they gave the Indians this which greatly pleased them. Mr. Sturm relates that the Indians were very peaceable and did not bother anything. They were honest and met kindness by like kindness. During his life Mr. Sturm says he has been in every state west of the Mississippi river, but never farther east than Chicago, although he visited in the western portion of Tennessee and Kentucky.

Won on a Pair.

Last week we told of Olaf Lundberg going to Omaha where he enjoyed attending a banquet provided by the Continental Oil company whose products he sells in Nehawka, where a fine evening was provided. Arrangements were made for a visit of a number of dealers to Ponca, Okla., with expenses to be paid by the company. When it came time to make the selection, Mr. Lundberg was seated with some five others and a poker hand was dealt to all. After five cards had been dealt face down on the table all were instructed to turn their cards over. Mr. Lundberg had high hand with two tens, which won him the trip, which will be on February 22.

Celebrated Passing Birthday.

On last Sunday at the home of Mr. and Mrs. Frank Horstman of Otec county was celebrated the passing of the birthday anniversary of his daughter, Miss Gertrude Hostman and her cousin, Miss Maxine Steffens, daughter of J. H. Steffens, they both being cousins and each fourteen years of age. There were four present for the occasion Mr. and Mrs. C. Steffens, grandparents of the two young ladies, J. H. Steffens and wife and Albert Anderson and family.

Have a Nice Meeting.

Last Friday the members of the Nehawka Woman's club met with Mrs. George C. Sheldon where they enjoyed their regular meeting and as well a very pleasant program, following which a delightful lunch was served by the hostess.

This Looks Better.

The Sheldon Manufacturing company, the makers of the celebrated concrete mixer bearing the Sheldon name of which hundred were shipped from Nehawka each year before the bad years came. Mr. Sheldon has kept the factory in readiness since but with no business until recently

he received an order and then another, and following a number of others, one going to California and one last week to Clarinda, Iowa. During the past two months the factory has been receiving many orders for repairs of mixers already out and a number of inquiries for new machines which are being cared for. This speaks volumes for the building trade which has been dormant for so long and it now looks like in a short time the institution will be called upon to supply their factory with a quota of workmen and again get into the making of new machines. This is very pleasant news for the proprietor, Mr. George C. Sheldon and all of Nehawka and as well for all Cass county who has ever been proud of their factory at Nehawka.

Got Seven Wolves.

The wolf hunt which was staged north of Nehawka last Sunday resulted in the extermination of seven wolves and making that number less to raid the hen roosts, pig pens and sheep cotes of this territory.

Another hunt has been organized for the coming Sunday. The money realized from the hunt was \$24.50, which was turned over to the Red Cross. The hunt the coming Sunday will start at 12 o'clock noon.

APPORTIONMENT RECEIVED

Schools of Cass county received an apportionment of \$2,675.21 as the semi-annual payment this year. The money is distributed among the schools of the county in proportion to district and to pupil. The amount is somewhat smaller at this time than last year's mid-year payment since the July and August returns were added to the special tax which was distributed in September.

ENJOY OYSTER SUPPER

From Tuesday's Daily—The members of Nebraska chapter No. 3, Royal Arch Masons, held a very pleasant session of the chapter last evening at the Masonic temple. The members had the pleasure of a fine oyster supper that had been arranged by the committee in charge and was a real treat in every way. The remainder of the evening was spent at cards.

INSTALL NEW HEATING PLANT

A new, completely modern heating plant has been installed at the Bloom apartments. The plant is operated by gas and furnishes both heat and hot water.

Cass County Farm Bureau Notes

4-H Clubs Begin Activities.

Organization of 1937 4-H clubs is increasing. Six Nehawka girls, ten, eleven and twelve years of age, are enrolled in the newly organized "Healthy Susans" Keep-Well club and are busy studying and practicing good health habits, posture exercises, games, etc. Miss Ruth Ann Sheldon is their leader. The "Cass County Cannery" club, with Evelyn Wolph leader, has reorganized for second year canning. Ten members are enrolled and they are all "pepped up" to equal or beat if possible their 1936 record of accomplishments. Since the second year work includes meat canning, the club organization has been completed earlier than usual in order that the members may meet this requirement while the meat slaughtering to supply the family needs for the summer, is being done. Livestock club members are beginning to stir from their winter of inactivity. On Monday evening the baby beef club at Eagle reorganized for 1937, and on Wednesday evening the livestock club members near Murdock held their reorganization meeting at the home of Leo Rikh. An organization meeting of the livestock club members at Nehawka scheduled for last week had to be postponed until a little later. It is highly desirable that livestock clubs such as baby beef, dairy, sow and litter, market and ewe lamb clubs be organized at once in order to meet the club requirements for the year. Canning, cooking, clothing and girls room clubs should also be organized soon and girls interested in joining one or more of these clubs should make their choice right away and start the ball rolling in their neighborhood. Major projects in home economics clubs for 1937 are: "Summer Clothes for the 4-H Girl," "Problems in Room Improvement," and "Learning to Cook." For further details and help in organizing a 4-H club in your community, write or call at the Farm Bureau office.

Agricultural Conservation Board Meets Monday. The seventeen precinct committees for the 1937 agricultural conservation program, will meet at the Farm Bureau office next Monday to perfect the county organization. They will elect from their membership a president, vice president, secretary and treasurer, and a third member of the county committee. The president and vice president are automatically members of the committee. The board will also make up a budget for 1937 and formulate plans to carry out the program for the coming year.

Satisfying Meals. A satisfied after-dinner expression on the faces of the various members of the family, after having partaken of a meal, brings real joy to the homemaker. Satisfying meals mean more than merely satisfying the appetite. The homemaker who also understands how to prepare a meal that provides physical fitness, gives energy and at the same time satisfies, can feel ultimately pleased with the time and energy spent. Project leaders training meetings start this week at the various training centers, having as the demonstration "Satisfying Meals," a lesson planned to help homemakers with some of their meal problems.

Meat Curing. Home butchering in Cass county is now in full swing and many farm families are getting their meat supply "laid in." In the curing of pork or other meats, they are finding that the proper temperature is the most important feature. Always chill the meat from freshly dressed hogs as promptly and thoroughly as one would fresh milk is the

Jack Dempsey appeared in a new role when he took over his duties at University of Miami as boxing coach of the varsity squad which he is grooming for the annual intercollegiate, above.

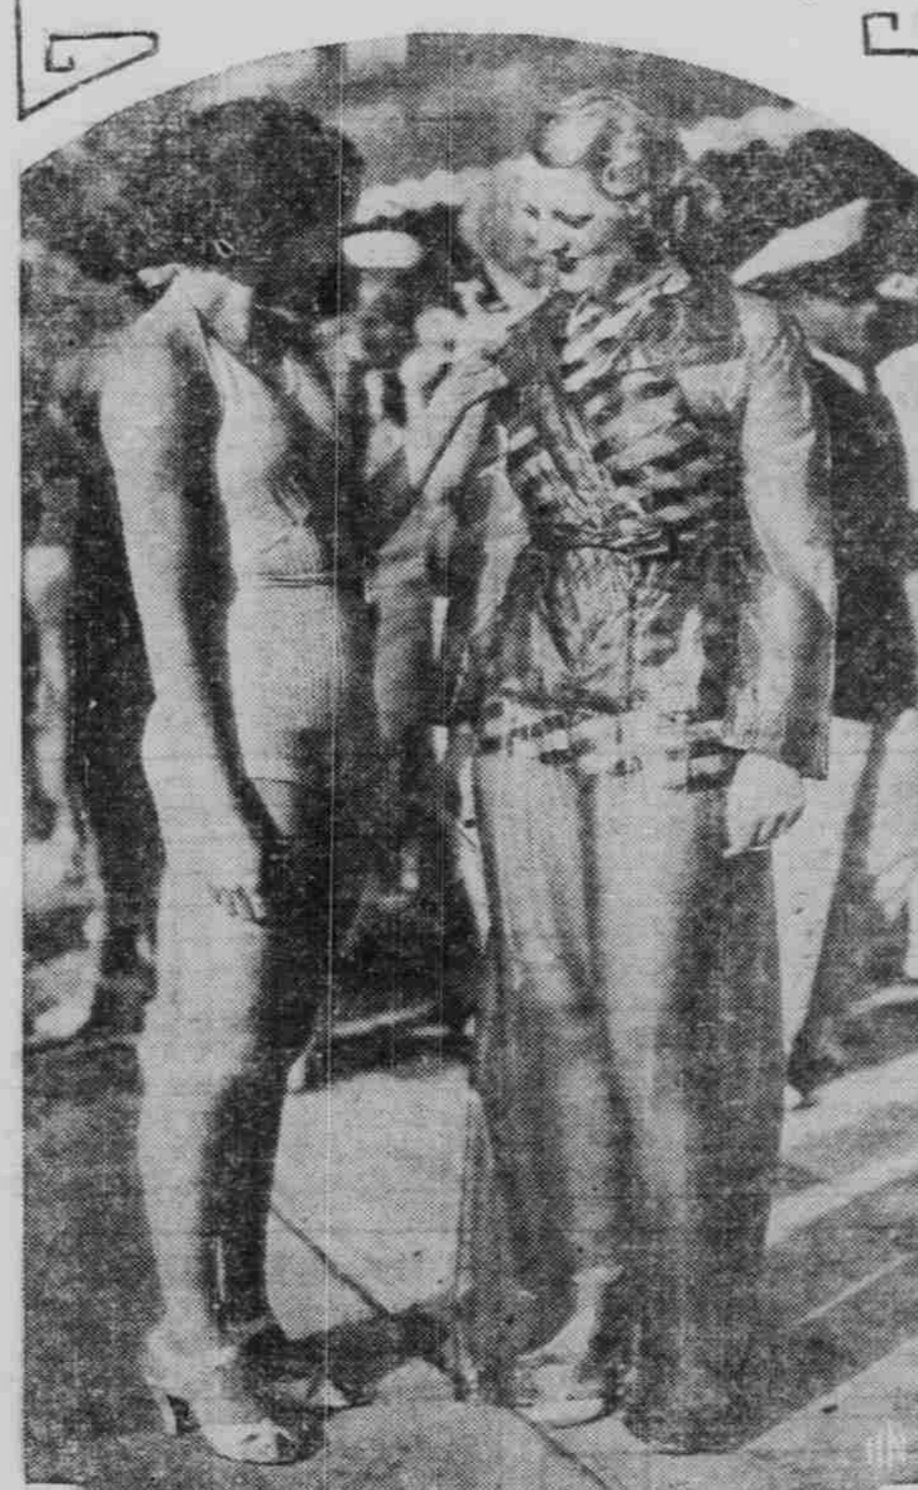

suggestion of the Cass county farm bureau. The chilled meat during curing should be held at a temperature around 38 degrees F. if possible. The standard curing mixture for each 100 pounds of meat is 8 pounds of salt, 2 pounds of sugar, 2 ounces of saltpeter and 4 1/2 to 6 gallons of water. Too extension circulars, Number 228 "Farm Slaughter of Hogs," and Number 936 "Home Preservation of Meats," would be good counsel at butchering time. Write or call the Farm Bureau office for them.

SENATOR BANNING HERE

William B. Banning, head of the state department of agriculture and inspection, was in the city for a short time Saturday to look after some business affairs and meeting the many friends. Mr. Banning has headed the agricultural department under Governor Cochran and has made a splendid record in the office. His extensive knowledge of the farm interests of the state making him an especially valuable man on the job.

REJOICE IN NEW SON. Mr. and Mrs. Carl Hall are the parents of a fine eight and three-quarter pound son that was born to them on Sunday. The young man has been christened Carl Theodore, Jr. All are doing nicely.

Don't Go Near the Water!

City Dads Meet

(Continued from Page 1)

committee reported that they did not favor any revision of the city ordinance covering bowling alleys, but would recommend that the city accept the proratio amount of \$20 for the alleys for the rest of the fiscal year. This report was adopted.

Chairman Webb of the property and tax committee, gave a short report of the proceedings of the conference of the League of Nebraska Municipalities at Lincoln, bringing out many of the chief measures that were discussed. The committee also recommended that the claim of J. A. Capwell for record search be held up until suit completed and then paid out of proceeds of sale. The city had made a practice of advancing no money in foreclosure suits except for actual court costs.

Councilman Tipples of the streets, alleys and bridges committee, reported that street crews had been out to sand the crossings over the city and to remove snow from city property. Councilman Rebal called attention of the members to the state liquor control law that provided for submitting at the spring election, the matter of sale of liquor by the package or drink. The law also provided that the state liquor commission could issue the licenses to package stores for a one year period without the election. City Attorney J. H. Davis was of the opinion that an election here would be unnecessary as the stores were already located and could be renewed each year.

Chairman Schulz of the fire and water committee, reported three bids on rubber coats for the fire department. The committee checked the bids and found that of the Fetzler Shoe Co., for \$6.85 per coat with the lettering "PFD" be purchased and which was ordered. The city clerk was authorized to notify the officers of the fire department that all coats should be left on the fire truck so that they might be ready for use.

Lincoln Avenue Surfacing. Chairman Bester of the finance and WPA committees, stated that a request had been made by the Chamber of Commerce that the city aid in the securing of a WPA project for Lincoln avenue, that the committee favored the appropriation of \$2,000 for the aid in meeting the federal appropriation. The money was to be procured out of the gasoline tax fund.

Councilman Brittain wished to know the extent of the surfacing and was informed by the mayor that the project was from the present paving to the connection on the south with highway No. 75. Councilman Rebal of the third ward sought to have the extension of the sewer on Chicago avenue included in the proposed WPA projects if possible and if not that another project be created that would take care of this matter. The sewer had been among those suggested at the first adoption of the PVA some three years ago, the third ward councilman pointed out.

Councilman Johnson urged the surfacing of Lincoln avenue as one of the main arteries of travel and also in the interest of the BREV and Norfolk Packing Co., plants located along this highway and where it would be a distinct advantage. Mayor Lushinsky stated that the gas tax money that was to be used in the surfacing project, could not be used only for highway purposes and which made it out of question to divert this to sewer work. He promised an interest in the sewer as soon as possible to finance it. Councilman Bester in discussing the sewer extension, pointed out that engineers had been on the scene and would not recommend the extension of the present size sewer which is three and a half feet at the end. That the sewer should be at least four feet as at the lower end, was urged.

HOW LONG CAN A THREE-QUARTER WIFE HOLD HER HUSBAND?

YOU have to work at marriage to make a success of it. Men may be selfish, unsympathetic, but that's the way they're made and you might as well realize it. When your back aches and your nerves scream, don't take it out on your husband. He can't possibly know how you feel. For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood, 2. Preparing for motherhood, 3. Approaching "middle age." Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smiling Through."

by the engineers. Councilman Bester was of the opinion that a small levy might be included this spring to start the sewer fund. The resolution pledging the city aid in the Lincoln avenue WPA project was then adopted by the unanimous vote of the council.

The often discussed bread truck question was brought up by Councilman Webb with an inquiry as to the number that had paid the \$30 license as a wholesaler of bread. It was disclosed that two had complied with the ordinance. It was decided after a general debate that City Clerk Olson notify all outsiders and local to comply with the ordinance. The matter of complaint against the hours of the roller skating rink was brought up and discussed. City Clerk Olson revealing that the ordinance that licensed them also provided an 11 o'clock closing hour. The license committee was empowered to reach an agreement with the new bowling alley proprietor to grant him a license on the terms set out by the judiciary committee.

FLOOD RELIEF DANCE. The employees of the Norfolk Packing Co., are preparing to give a benefit dance in conjunction with the local FOE, the proceeds to go to the Red Cross for the flood relief. The Freddie Schütz orchestra will furnish the music for the dance and all receipts aside from actual expenses will be turned over to the Red Cross. Admission will be girls, 45c and ladies 20c.
