

# Platters Take Blair High by a Score of 30 to 21

### Blair Masses Lead in Opening Quarter But Platter Offense Led by Wooster Sweeps to Victory.

From Saturday's Daily—  
The Platters avenged their defeat Wednesday at Nebraska City by a smashing victory against the Blair quintet at the latter city, 30 to 21.

The game was one of the hardest fought games of the year for both teams and was a battle royal from the start.

In the opening quarter of the game Blair maintained a fast pace and held the Platters to two points while they accumulated nine tallies.

The second quarter provided cheer for the blue and white as Wooster, showed his form and drew the score to 12 alike at the half time.

The Blair team was small and fast and made a good foe for the Platters who gradually whittled the Blair team down.

In the third quarter the grueling battle continued and both teams showed the effect of the strenuous game that they had played. This quarter ended at 21 to 20 for the Platters, who were never headed after this stanza.

In the last quarter the Platters broke loose and the bombardment of the Blair basket was continuous with Miller, McCarrill, Seltz and Wooster taking part in the scoring.

Miller and Falk, legal guards, played a good floor game and Wooster was the fair haired lad at scoring with eighteen points. Gustin, center of Blair was the high point man for his team with thirteen points.

Rebal and McCarty of the reserves started the game for the Platters at forward and center.

The box score of the game was as follows:

### GUESTS HERE OVERNIGHT WHILE EN ROUTE TO SOUTH

From Friday's Daily—  
Mr. and Mrs. Arthur M. Reierson of Mitchell, South Dakota, were overnight guests last night at the Elmer Webb home. Mrs. Webb and Mrs. Reierson are cousins.

The Reiersons are on the first lap of a six weeks' motor trip that will take them through some very interesting country and reveal many picturesque sights. From here they will follow U. S. 75 to Dallas, Texas, going then to San Antonio and entering Mexico at Laredo. From that point on a guide driver will take them across Mexico on the new Pan-American highway through Monterrey, Mexico City and on to Acapulco on the Mexican Pacific coast. They plan to spend two to three weeks in Mexico and leaving Laredo on the return trip will continue east to Galveston and Corpus Christi, where Mr. Reierson plans to do some deep sea fishing. Thence on eastward to New Orleans for another pleasant stop, north to St. Louis and back through Kansas City.

A brother of Mr. Reierson and his wife took a similar trip into Mexico last winter.

The Reiersons are engaged in the bakery and ice cream manufacturing business at Mitchell, shipping their products to a large trade territory in that part of the country and also operating a fleet of delivery trucks. In the winter, when their ice cream business falls off, one of the brothers is able to take extensive vacations, and alternately in successive years they have been able to travel over a great portion of the United States.

Mr. Reierson says the past couple of years the famous Corn Palace festival that has been an annual feature at Mitchell, like the Korn Carnival in Plattsmouth, has been forced to get along with very little corn. Last year it was even necessary to paint corn on the building that has heretofore been draped with stalks of the real article.

However, the farmers of that locality are getting along and looking hopefully to 1937.

### Broke Car Axle in Mud

At this time of the year it is not difficult to find some very bad roads over which the rural mail carriers have to travel to deliver the mail to their patrons each day. Last Wednesday morning Miss Myrtle Woods, the local R. F. D. carrier, with Guy Hinds as driver, found some of just this sort of roads and in attempting to get through broke an axle of the car. John Woods was called to pull the car in, while his sister and Mr. Hinds secured another car and made the rounds.

### Wabash Loses Telephone Booth

For a long time there has been a telephone booth in the Wabash hotel, which was conducted by the late J. H. Hinds, but due to the fact that little toll business has been transacted from here, the booth has been removed, leaving but one phone in town besides that at the railroad station. This is the private phone of J. C. Browne, manager of the Wabash elevator, which is connected with the Murdock exchange.

The people of Wabash, numbering 52, are anxious to retain their telephone booth so they can call out of town and have petitioned the railway commission to have the service restored. However, they have not been given much encouragement by the commission.

Like every other question, this one has two sides, and if revenue does not warrant, the phone company can hardly be expected to maintain the service. On the other hand, those persons who desire to place long distance calls may be greatly inconvenienced by the removal of the booth.

### ROADS ARE SOFTENED

The last few days have caused the softening of a large part of the dirt roads over the county and making travel uncomfortable to those who are forced to get away from home.

The Louisville road west of this city is reported as being in bad shape as the result of water from the melting snow running down the roadway. Side roads are all difficult of travel and residents of south of this city are appreciative of the rock surface of the roads in that direction.
