As Lewis Presented Demands of Union Miners

CHARLES O'NEILL AND JOHN L. LEWIS

First step in negotiations to provide a new contract governing the wages and hours of 400,000 bituminous coal miners was taken in New York when Charles O'Neill, chief spokesman for the operators, and John L. Lewis, right, president of the United Mine Workers of Amer-

ica, conferred, above. Demands outlined by Lewis, including a 30-hour week and 15 per cent wage increase, were termed "utterly impossible" by O'Neill. March 31 is the expiration date of the present contract between the miners and the operators.

Veteran Poultryman Increases Plant Capacity

W. F. Nolte of Mynard Has Increased Capacity for Handling Chicks—Scores High Record.

W. F. Nolte, long time poultryman, of west of Mynard, has completed addition to his equipment that now gives him one of the best and most up to date poultry establishments in the east part of the state, both in his plants for the laying flocks as well as the capacity for the small chicks. Mr. Nolte has just recently increased his laying flock at the farm by some 500 hens and completed the addition of a two story poultry house that has a capacity of 1,500 to 1,600 for his laying flock. This is thoroughly equipped to give the very best results and care for the large flock that is maintained at the Nolte place. There has also been arranged a brooder capacity for 3,000 of the small chicks and where these fine grade chicks will be cared for until able to be placed with the larger flocks or disposed of to the buying public. Mr. Nolte is very much pleased over a recent test made of the products of his establishment. Under a poultry testing project he selected 110 eggs at random and which were sent to Lincoln where the eggs were hatched and the chicks sent to the North Platte experiment station that is maintained by the state. The pullets, hatched from the eggs from the Nolte farm, were trap nested at North Platte to determine their laying record. These twenty-four pullets selected for the test have for January showed an average of seventeen and four-tenth eggs and the flock ranks among the best at the experiment station. Since October an average of sixty-one and a half eggs has been shown by each of the pullets. This is an excellent record and one that Mr. Nolte feels speaks well for his strains of laying chicks and good sturdy hatched chicks from his plant.

Emergency loans for production purposes have been transferred from the Resettlement office to the Farm Credit Administration. This means that the county agent's office will have charge of the loans for feed, seed, etc. D. D. Wainscott of Cass county and P. H. Honsby of Sarpy will have charge of the loans in the future. However until announcement comes from the county agent's office that they are ready for applicants, farmers may leave their names at the resettlement office and be notified when the office is ready to make loans. The Resettlement office has had charge of the loans for production purposes under the fifty million dollar emergency appropriation. The maximum loan made to farmers under the plan is \$400 with interest at 4%. The resettlement office will continue to make the standard loans.

I wish to notify the public that I will not be responsible for any debts that may be contracted by my wife. WALTER BYERS.

CROP LOANS TRANSFERRED

Emergency loans for production purposes have been transferred from the Resettlement office to the Farm Credit Administration. This means that the county agent's office will have charge of the loans for feed, seed, etc. D. D. Wainscott of Cass county and P. H. Honsby of Sarpy will have charge of the loans in the future. However until announcement comes from the county agent's office that they are ready for applicants, farmers may leave their names at the resettlement office and be notified when the office is ready to make loans. The Resettlement office has had charge of the loans for production purposes under the fifty million dollar emergency appropriation. The maximum loan made to farmers under the plan is \$400 with interest at 4%. The resettlement office will continue to make the standard loans.

NOTICE TO THE PUBLIC

I wish to notify the public that I will not be responsible for any debts that may be contracted by my wife. WALTER BYERS.

BOLLEN REFUSES TO PAY \$675 DUES

Lincoln, Feb. 19.—Chairman Floyd L. Bollen of the Nebraska railway commission said Friday he declined to pay \$675 annual "dues" for the state body to the National Association of Railroad and Utilities Commissioners until "a democratic form of organization is provided."

In a letter to Alexander M. Mahood of Charleston, W. Va., the national association's first vice president, Mr. Bollen complained of the manner in which the "all-powerful executive committee" is composed. He contended only representatives of "paying state commissions" should be eligible, thus eliminating "members of federal commissions."

'BIFF' JONES URGES HUSKER GOAL 'LAW'

Lincoln, Feb. 19.—Maj. Lawrence M. "Biff" Jones, new University of Nebraska head football coach and athletic director, asked the state's one-house legislature Friday to pass an act making it illegal for any team to cross Nebraska's goal line next fall. Amos Thomas of Omaha, national guard general, introduced his legislative colleagues to the "Biffer," who said he wanted to follow custom and ask the lawmakers for something.

STATE TO AUCTION OFF SCHOOL LANDS

Lincoln, Feb. 19.—Leo N. Swanson, state land commissioner, said Friday several thousand acres of school lands in 49 counties will be sold at public auction starting March 9. The accounts, he said, were forfeited because of nonpayment of rentals. The renters, however, can reinstate the accounts before the last publication day, three weeks hence.

Cop Jails Wife!

Mrs. Alice Kelly. Duty came before love for Patrolman Edward Kelly of Chicago. When his wife allegedly confessed to being the driver of a car which killed an attorney on Jan. 17, an accident which had been listed as a "hit-and-run" case, Kelly took his wife to a police station where she was booked on a manslaughter charge. Mrs. Kelly said she had withheld confession for fear of jeopardizing her husband's job.

Flood Area Needs No Outside Laborers

Plenty of Men to Be Found in the Flooded Regions to Carry on the Cleaning Up.

Many injuries have been made by laborers as to work in the Ohio and Mississippi flood area. Rudolf F. Vogeler, director of the Nebraska state employment service, has written to employment directors in the flood area telling them he has discouraged workers from migrating to the flood district and advising them if workers should be needed the state employment service would be glad to supply them through the regular clearance procedure. The following replies have been received:

"I appreciate your interest in our problem and I know you understand the strain under which we have been working. I think we are going to be able to handle the situation through our regularly established offices, and by shifting personnel where necessary. Depending on the load of employing orders which we may receive," Martin P. Carpenter, director of Indiana State Employment Service.

"I appreciate very much the advice to the public which you have offered through these news articles. The position which you have taken and your judgment of the situation are exactly correct. The authorities here are most anxious that there not be an influx of people into the city seeking work. There is no immediate shortage of workers and persons coming here with the idea of finding employment might find themselves stranded. You can be assured of the fact that in the event a shortage of workers should develop and it becomes necessary for us to seek workers from your state, you will hear from me through the regular labor clearance system." Myer Freyman, director Kentucky State Employment Service.

VATICAN CITY MUST COMPLY

Vatican City.—Italy's anti-aircraft precautions were extended to cover Vatican City. Residents of the holy city, where Pope Pius XI is recovering from the serious stages of his long illness, were ordered to obey the same regulations as citizens of Rome during forthcoming air maneuvers. When Rome's sirens sound warnings of a raid, all lights in Vatican City must be turned out and citizens must take to shelter. Lights in the pope's apartment on the top floor, however, must be kept on but the shutters must be tightly closed. The precautionary order covering Vatican City was issued by Gov. Camillo Serafini. Pope Pius continued to show improvement altho the cold and rainy atmosphere forced him to reduce his brief walking exercise to a minimum. Dr. Aminta Milani made his customary three visits during the day to see that the pontiff was not overtaxing his strength.

BIFF JONES TO SPEAK

Grand Island.—National Commander Harry Coehmy and Maj. Lawrence "Biff" Jones, new University of Nebraska athletic director, will be the principal speakers at the annual conference of post officers of the Nebraska department of the American Legion here Tuesday.

Rooms or Apartments can be rented through our Want Ad department. Cost is small.

RUSSIA HOLDING GERMANS RADIO ACTOR TAKES ON CHARACTER HE PORTRAYS

Moscow.—Germany made "serious" representations to the soviet union in a new and apparently unsuccessful effort to intervene for two score Germans held amid strict secrecy in soviet jails. Count Friedrich von de Schulenburg, the German ambassador, said he pointed out to N. N. Krestinsky, Russia's vice commissar for foreign affairs, that the Germans—nearly 40 of them—had been held incommunicado since their arrest almost three and a half months ago. The ambassador said Krestinsky promised he would attempt to find out when dates for the trials would be set, and added his visit to the soviet official was accompanied by "serious representations" in the affair. Von de Schulenburg said he was told some of the Germans had confessed to accusations of espionage and sabotage, but that complete investigation had not been made. A few weeks later, forgetting that he had driven to the studio, he calmly went out after the broadcast and took an elevated home, leaving his car downtown. Then he couldn't remember in which parking space he had left it. The following week, having meantime moved from the north to the south side of Chicago, he left a "Kaltenmeyer's Kindergarten" broadcast and still in the character of the professor, drove five miles north before he remembered that he had moved to the south side. And so, before he changes completely to the absent-minded professor, in private as well as in professional life, Bruce Kamman is shopping for memory courses. He did have a fine, long list of courses written down, but now he can't remember what he did with the paper. "Kaltenmeyer's Kindergarten" is heard Saturdays over the NBC-Red network at 4:30 to 5:00 p. m. Central Standard Time. Improving our farm-to-market roads will be of direct benefit to everyone in Cass county.
