

City Council in Regular Grind Monday Night

Routine Reports and First of Month Business Discussed by Members—Scouts Visit Meeting.

The city council Monday evening held their first session of the month which was given over to the routine reports of the various departments of the government and also in the discussion of matters of city work projects as well as the revival of a neighborhood dispute in the west part of the city.

City Treasurer M. D. Brown had an excellent report for the month and which showed \$14,528.92 in the city treasury.

City Clerk Albert Olson had also found April a very good month for collection and \$1,703.46 had been gathered into the city strong box.

The report of Chief of Police Libershal showed two arrests and \$27.75 in fines and costs had been paid. Judge Graves gave a report for the last two weeks of April and in which \$13.25 and \$9.55 had been collected from the wrongdoers.

The council received a reminder of the long standing disagreement in the west part of the city when a communication was received from James Holy, Sr., relative to the repair of an alley in block 26, Duke's addition, also asking for work on Duke street and place it in good shape as others using the street and alley were trespassing on his property. This matter was referred to the streets, alleys and bridges committee and the members of the council from the third ward.

The application of Charles Petersen for a license to operate a recreational parlor in the city was received with the license fee and on motion the license was ordered granted.

Mayor Lushinsky reported that the physical health of the city was excellent and barring a few childish diseases there was nothing of a serious nature. The city had completed their cleanup of debris over the city and the fire department also had made an inspection of the city.

City Attorney J. H. Davis reported on the Hazzard case in the supreme court where a rehearing had been denied and also that various properties here would be affected by the decision.

Chairman Comstock of the lighting committee reported that it had been urged that the electroliter posts be painted and that the globes of the electroliters also be cleaned. There was also some discussion of the South Fifth street electroliters where two are out of commission owing to defective conduits for the cable. It was decided to have this repaired and Robert Cappell, who had made an offer on the work be engaged.

Mayor Lushinsky gave a word of welcome to the members of the Boy Scouts who were present in a body to witness the process of city legislation, the mayor inviting them back again. E. H. Wescott responded for the Scout group.

Councilman Vroman stated that he had several requests from officers and others for a stop and go sign at Sixth and Main streets. He thought the cost would be small to have the intersection covered by this form of sign. No definite action was taken on the matter.

The finance committee presented a resolution transferring \$300 from the city general fund to the gasoline tax fund which has but \$4.75 at the present time. This brings up the amount now due the general fund \$1,612.10 for transferred money.

Chairman Webb of the WPA committee stated that as far as he was concerned if the city had any more WPA projects that they have a city

purchasing agent. The council was constantly paying out large amounts for gas, oil and repairs as well as tools that were being constantly purchased. He wanted the form of the work on any of the WPA projects to make a check of all tools and report the same to the city council. The committee also had purchased some cable from Floyd Richardson at a very good price.

Councilman Vincent of the fourth ward reported that he had found tools used on the Wintersteen hill project, scattered all over that section where they had been dropped by workmen at quitting time and he had on several occasions picked them up and placed them in places of safety.

Mayor Lushinsky stated that the city had lost money on the tools because of their being lost and also constant purchase.

Councilman Tippens of the streets, alleys and bridges committee, complained that tools of his department had been borrowed and never returned to the city tool house.

Councilman Vroman criticized the condition of the WPA pavement on north Sixth street where in rainy weather or when the water was used in that section to wash off paving, it stood in the street like a fish pond and that the condition should be remedied.

Councilman Tippens suggested that a drain be placed in the affected area to carry off any surplus water.

Councilman Comstock also remarked on the condition of the street and the need for some action to have it drained or else have a change made in the paving.

H. A. Schneider was a visitor at the meeting and was called on by the mayor to offer a few remarks as a former mayor of the city and a large taxpayer. Mr. Schneider suggested if any WPA work is granted here that it be for the repaving of the paving on Sixth and Vine streets where at times it is almost impassable. Mr. Schneider also urged that some change be made in the parking on Sixth street where there is much congestion when large cars or trucks are parked there. As to the stop and go sign on Sixth street, Mr. Schneider was uncertain as this is the intersection of two federal highways, whether or not this would be approved. Mr. Schneider complimented the council on the financial setup of the city and which was gradually reducing the city obliga-

tions and in all ways had striven to make savings by reducing interest by refunding bonds. He hoped that the city would continue this safe and conservative policy. He also urged the councilman to serve with the best interests of all of the people of the city at heart.

A representative of the Turk-Sumnerfield Insurance company of Des Moines was present and addressed the council on the matter of special forms of accident and compensation insurance.

The following claims were ordered paid by the council:

Wreckers of the Otoe County City Live Up to Name in 16 to 6 Defeat of Plattsmouth Team.

Plattsmouth's amateurs were defeated 16-6 by the Nebraska City Wreckers on the Nebraska City diamond Sunday afternoon. The game was the first scheduled game in the league. Some promising material was displayed by both teams.

Two homers for Nebraska City added to the score. Fitchorn knocked one with three men on bases during the first inning. Ossian knocked a homer bringing in two men. Plattsmouth had twelve hits to Nebraska City's eleven. Pitching on both sides was weak with a number of walks.

Three pitchers were used on each team. Leading hitters for Plattsmouth were Kriskey and Rhoades.

The second game will be played on the home diamond on East Main street at 2:30 p. m. Sunday, May 16. H. Luttman is manager of the local team.

PILLAGE CEMETERY
Again complaints are coming of the removal of flowers from the graves in the cemetery. This practice is most regrettable. Surely if flowers must be taken, they could be secured from other sources than the graves of the dead.

See the goods you buy. Catalog descriptions are alluring enough, but how about the goods when you get them?

Locals Drop Game Sunday at Nebraska City

MARRIED AT PARSONAGE

Monday afternoon at the parsonage of the First Methodist church, occurred the marriage of Miss Thelma Mae Terpening, of Morrow-

ville, Kansas and Mr. Willard Harold Sothan of Hallam, Nebraska. The marriage lines were read by Rev. V. C. Wright and following the ceremony the bridal couple returned to Lincoln.

What is the "Low-price Field"?

YOU hear a lot about "the low-price field" these days. A good many cars claim to be in it. So whenever the low-price field is mentioned, remember:

Until Ford came, no average American could own a car.

Today all Ford prices are still low—with the prices of the 60-horsepower Ford V-8 \$30 to \$60 lower than those of any other car of comparable size.

But with Ford, "low price" doesn't merely mean low figures on the price tag. It means much more than that. It means low prices and low costs all the car's long life. Low prices for service—for parts—and, above all, for operation.

Both Ford V-8 engine sizes are economical to operate. The 85 horsepower gives greater gasoline mileage this year than ever, and the "60" delivers the highest mileage in Ford history.

Private owners, cab companies, fleet operators all report that the "60" averages from 22 to 27 miles per gallon of gasoline.

Check and see how much Ford saves you. Ford Founded the Low-price Field Ford Keeps That Field Low-priced Today

Ford V-8 Prices Begin at \$529

AT DEARBORN FACTORY. TRANSPORTATION CHARGES, STATE AND FEDERAL TAXES EXTRA

This price is for the 60-hp. Coupe equipped with front and rear bumpers, spare tire, horn, windshield wiper, sun visor, glove compartment and ash tray.

Ford V-8 \$25 A MONTH, after usual down-payment, buys any Ford V-8 Car from any Ford dealer in the U. S.—through Authorized Ford Finance Plans of Universal Credit Co.
