

### CCC to Train 4000 Lifeguards This Summer

WASHINGTON (UP)—The Civilian Conservation Corps will co-operate with the American Red Cross this summer in the training of 150 commissioned reserve officers now on duty with the CCC as Red Cross Life Saving Examiners and 4,000,000 CCC enrollees as lifeguards, according to J. J. McEntee, assistant director of Emergency Conservation work.

The reserve officers, trained at the National Aquatic schools, will serve as instructors at the district school held for enrollees. Enrollees who graduate from the district schools will be assigned to lifeguard duty in the CCC camps as soon as they receive their certificates. At least two CCC senior lifeguards will be assigned to each camp, McEntee said. He pointed out that all outdoor swimming at CCC camps is supervised.

The American Red Cross co-operated with the CCC in the conduct of lifesaving programs during the summers of 1935 and 1936. During those years a total of 6,636 enrollees were graduated as Red Cross lifeguards, McEntee pointed out.

"Thanks to the co-operation of the American Red Cross in the training of lifeguards, the Civilian Conservation Corps has been able to reduce swimming accidents to a minimum," McEntee said. "Because so many of the boys entering the CCC camps have never had the opportunity to learn to swim, special precautions have been taken at every camp to insure that trained lifeguards are on duty whenever enrollees go into the water."

### POLICE BATTLE CHILDREN

NEW YORK, July 10. (UP)—Police sought methods of coping with bands of children roaming the streets to seek relief from the heat by opening fire hydrants. Water officials turned off hydrants and the pressure was reduced and police called. The children's answer was a sit-down strike in doorway of the offices of the city water department.

### RETURN TO DENVER

From Friday's Daily—Mrs. H. F. Cecil and children, who have been visiting at the home of Mr. and Mrs. Wm. Baird, are leaving Saturday morning on No. 3 from Omaha. Mrs. Cecil has been visiting at the home of her parents for a month. The group will return to their home in Denver, Colo.

### PULLED OUT OF POOL

From Thursday's Daily—After being tossed into the pool from the raft, Tuesday evening, Miss Inez Eberhardt had to be assisted out of the water. Randall York helped her to shore. She was unable to be at the office Wednesday because of illness but is at work today.

Cass county has no bonded indebtedness, as, like the state, we have paid cash for our hard surfaced roads and other improvements as we went.

### Family Names in N. Y. State Politics Stand

Sons Follow Fathers and Relatives in Starting Their Legislative Careers.

By DONALD G. COE  
United Press Staff Correspondent

ALBANY, N. Y., July 8. (UP)—The New York state legislature is rapidly becoming the proving ground for younger men who hope to follow in the footsteps of politically important fathers and relatives.

Robert F. Wagner, son of the senator from New York, is the latest to announce he will step out along political paths charted by his father. Young Wagner hopes to be the democratic candidate for the assembly, lower legislative house, from a New York city district.

He has completed college and law school and has taken his examinations for admission to the state bar.

If he wins the primary designation and the election, young Wagner will join a group of almost a dozen who are carrying noted political names into the second generation on Capitol Hill here.

**Wadsworth's Son in Assembly**  
Among the sons and relatives is James J. Wadsworth, of Geneseo, who now occupies the assembly seat of his father, James W. Wadsworth, a former speaker of the assembly and now a member of congress. Young Wadsworth, known as "Jerry" to distinguish him from "Jim," is chairman of the committee on relief and social welfare.

It was 32 years ago this fall that the voters of the 16th district of New York county sent Robert F. Wagner, a German immigrant, to the assembly. He served two other years before going to the state senate for 10 years in 1908. The state supreme court was next and in 1926 he was elected to the U. S. senate. He was re-elected in 1932.

Another member of the New York delegation in congress, Hamilton Fish, Jr., the republican who represents President Roosevelt's home district, was preceded by his father, Hamilton Fish, Sr., served a total of 13 years between 1874 and 1896, the last two as speaker.

**Corning Name Prominent**  
Present members of the legislature whose close relatives were active in previous legislatures include Sen. Erastus Corning, of Albany, whose father, Edwin, was lieutenant-governor and presiding officer of the senate from 1926 to 1928.

As is customary for local members, Corning was called upon to preside at a perfunctory session of the senate, early in January. Having been elected in November, it was his first time in the chair. Senate attaches recalled it was exactly 10 years to the day after his father first wielded the senate gavel.

Broome county, which includes the city of Binghamton and surrounding area along the Pennsylvania border, has produced at least three combinations involving close relatives.

**Hill Follows Father**  
Assemblyman James Hill, a member in 1935, 1936 and 1937, is the nephew of a former state senator William H. Hill, now the republican leader of the Southern Tier county.

Edgar L. Vincent served in the assembly in 1898 and 1899. His son, Edward E., has served since 1934. Martin W. Deyo stepped ahead of his father, Israel T. The elder Deyo served four years in the assembly from 1890 to 1893. Martin served in the assembly in 1933 and 1934 and the next two years in the senate.

Assemblyman Laurens Hamilton, of Rockland county, a direct descendant of Alexander Hamilton, the first Secretary of the Treasury, has announced he will not seek re-election. He has served four terms.

### Temporary Reduction in Assistance

State Assistance Committee Announces That 20 Per Cent Ordered for July.

LINCOLN, July 10. (UP)—A temporary reduction in the old age assistance for the month of July was ordered today by the state assistance committee, amounting to twenty per cent.

"We urge recipients not to become unduly alarmed," said Assistance Director Neil C. Vandermore. "Before August payments go out we hope to complete recheck. Until the recheck is finished it is impossible to find funds to pay."

He indicated that the cut on completion may be only slight, no cuts in fifteen counties.

Director Vandermore pointed out that the number receiving had increased by ten per cent over the figures in the budget.

### PATENT SOUGHT ON FOOL-PROOF LID FOR HOLES

DUNCAN, Okla. (UP)—A. P. Burns and Harold Featherston plan to patent a device that they believe will put an end to people falling into holes.

The invention, they said, would protect holes from people as well as people from holes.

The men call their invention "tego," from a Latin word implying "your safe; I'm protecting you."

Tego now is listed among the "patent pending group in Washington. It was sent to the capital for the government's approval more than a month ago.

Tego bears the appearance of a manhole cover with a box on the underside. The entire device is made of steel. From the ends of the box two pointed bars extend, regulated by the turning of a lever on top of the cover. The lever locks in place and cannot be displaced.

After the hole has been dug for a light pole and is awaiting the setting of a pole, Tego is called into action. Placed over the hole, with the box on the underside, the bars dig into the earth on either side of the hole and anchor Tego securely until the lever is turned.

"Covering holes always has been a problem," said Burns, assistant manager of the light and power company here.

"No matter what you use, the cover usually skids off, and people always are getting hurt falling into holes. This will stop all of that."

### Gretna Defeats the Local Legion Baseball Team

Locals Suffer One Bad Inning to Drop a Hard Fought Game Thursday Afternoon.

The Plattsmouth Junior American Legion baseball team suffered their first defeat of the season Thursday afternoon at Gretna when they dropped a 6 to 1 contest to the Sarpy boys.

The game was scoreless until the last of the third when Gretna made four of their scores on three hits and several errors that permitted the scoring.

It was not until the seventh inning that the Platters started to hit Sheef effectively and to score their only run of the game. Phillips was out on a fly to center, then Hayes, the Platter receiver singled sharply to left field and was able to tally when Don Wall, the "Lou Gehrig" of the game doubled. Wall died on base however as Wiles and Jones were both whiffed.

Plattsmouth secured three hits off Sheef while Gretna hit Wiles for seven safe ones. Phillips showed well in the fielding and Hayes and Wall were the only ones to get in the hit column.

### 100 ACRES OF WHEAT BURN

GENEVA, Neb., July 10. (UP)—Fire starting in a field of shocked wheat on the Lyman Brook farm, two and a half miles south of here, burned 100 acres of wheat before it could be brought under control by hundreds of men who used wet sacks to beat out the flames. The men worked under the direction of the Geneva fire department.

Improving our farm-to-market roads will be of direct benefit to everyone in Cass county.

### FIND GOOD RESPONSE

The group of county assistance investigators who are engaged in a check of those receiving the old age assistance, as well as that of dependent children and the blind, are very busy the past several days in visiting over the county.

They have found the finest of co-operation from the beneficiaries of the acts and also from the relatives of the parties, giving all possible information.

The group has found but few that will have to have their status changed and it is a very fine showing of the thoroughness in which the original review of the cases were made.

### TRUCKERS SEEK REST

From Friday's Daily—This morning the early risers were surprised to see a truck load of potatoes parked in the driveway at the city hall. Many surmised that the city might be planning a municipal market for spuds, but the night officers had the explanation for the presence of the truck.

The truck and its two drivers arrived here late last night from a long all day drive from southern Kansas and both of the men were tired out and hardly able to reach the city. Their destination was Fort Crook, but they asked the police to shelter them here for the rest of the night and then go on to the Fort.

### LEAVE FOR PACIFIC COAST

From Saturday's Daily—John Rishel and Bill Rosenkrans leave tonight for the Pacific coast. The young men are taking a two week vacation. They will visit, among other points of interest, Salt Lake City, Los Angeles, San Francisco, and Portland, Ore.

### SHOWS SOME IMPROVEMENT

Mrs. John E. Turner has for the past several days been suffering from a bronchial attack that has made it very annoying. She is able to be up and around the house but her attack of bronchitis has proven a very severe one.

### RENEW QUAKER ADVERTISING

H. J. Bosking, of Omaha, Quaker products salesman in this territory, was in Plattsmouth a few days ago, calling on local dealers and lining up some co-operative advertising. This week the regular Quaker Oats ads were resumed in the Semi-Weekly Journal, after a vacation "breathing spell" and will run regularly each week in the future. The Mullen Cash Store ad in today's paper also carries special Quaker products tie-in advertising. Mr. Bosking reports splendid results in this territory, no small part of which he attributes to the pulling power of Journal advertising.
